RUIN OF EXCHANGES SEEN IN OWEN BILL

Wall Street Gets Copies and Plans Campaign Against Drastic Features.

ECHO OF PUJO HEARING

Sections Cited That Brokers Say Would Kill All Public Trading.

Stock Exchange men who have examined the Owen bill regulating stock exchanges say that it is so drastic and impossible in some of its features that no primary market of importance for securities could exist long under it. Business, it is asserted, would be so hedged about by unenforceable rules that trading in securities would be driven away from public markets and would take to private sales, with great consequent loss to the public in protection and serious obstruction to the financing of corporation needs.

The Stock Exchange has begun active consideration of the bill, copies of which did not arrive until Saturday. A meeting of a number of governors, with President Mabon in attendance, was held yesterday at which it was taken up. A strong campaign against the drastic features of the bill is promised.

The bill was framed by Senator Owen in conjunction with Samuel Untermyer and is accepted as one of the fruits of the Pujo investigation.

The bill provides two alternatives for exchanges, incorporation or being put under the supervision of the Postmaster-General. Incorporation was fought and defeated at Albany when proposed last year. The Postmaster-General supervision plan, it is contended, presents a charybdis equally fatal. Under such supervision, one of the most drastic provisions, it is pointed out, is that stock exchanges must require a sworn statement from companies filing securities. This sworn statement must be accompanied by copies of all contracts for the sale of securities made by the companies with bankers, showing the fees and charges in connection therewith. The difficulties inherent in this provision are said to be rendered practically insurmountable by the fact that this is required not only of listings to be made but of all the corporations now listed.

The whole force of the bill, it is pointed out, is in the nature of a club over the exchanges of the country to accomplish reforms in corporation practices that should be made in direct anti-trust legislation, if at all. This weakness of the bill, said lawyers yesterday, suggests that it has not the sanction of the Administration but is a measure outside of the regular anti-trust programme.

Illustrating the use of the stock exchange as a club over corporations it was pointed out yesterday that corporations in order to list their securities must disclose all agreements and transactions between officers and the corporation. This inquisitorial requirement would bring a refusal of corporations to list and would take from the exchanges many leading issues.

The bill contains a provision which is believed to confer the extraordinary privilege upon the Postmaster-General of opening mail of those doing stock exchange business in searching for transgressions. Imprisonment of from one to two and less than five years is provided for violations of the law, these penalties including the management of newspapers, telephone and telegraph companies and others carrying exchange quotations or connected with exchange business.

It is confidently believed that the bill will be greatly modified before it can pass. The advance of $5,000 to $50,000 yesterday in the price of two Stock Exchange seats sold supported the conclusion that Stock Exchange men do not believe that menacing legislation can pass.

DAIRY PRODUCTS MARKET.

BUTTER—An effort was made to advance butter ½c. yesterday, but while the market was firm, conditions hardly justified the increased values, and the market was sustained with a firm feeling prevailing. Local trade is fairly brisk, but the out of town call is light. High grades of held stock are firm and process steady. Factory firm. Packing stock in good call and firm. Quotations are: Creamery, extras, 33½@34c.; firsts, 29@32½c.; seconds, 25@28½c.; held, extras, 31½@32½c.; firsts, 28½@31c.; State dairy, finest, 31@32c.; good to prime, 27@30c. Process, extras, 24½@25c.; firsts, 23@24c. Ladies, held, 29½@22c.; current firsts, 21½@22c.; packing stock, current make, No. 2, 19½@19½c.; No. 3, 18½@19c.

CHEESE—High grade states and Western whole milks firm, with offering light. Local trade was augmented to some extent by out of town buyers. Skims are steadier, but do not show the advance of whole milks. Prices are: State, held, special, 17½@18c.; average fancy, 16½@17c.; undergrades, 14½@16½c. Dabies, held, fancy, 17c.; skims, held, specials, 13@14c.; held, choice, 11@12½c.; skims, fresh, good to choice, 10½@11½c.; poor to fair, 8@10c.

EGGS—The market is weak because of slow trading. There is a disposition to cut prices in order to reduce the accumulation of fresh. Good producing weather prevails in the West and continued moderate supplies are expected. Storage are offered more freely and under the call of the Mercantile Exchange yesterday 1,200 cases of April seconds were sold for delivery. Nearby eggs unchanged. Prices follow: Fresh gathered extras, 36@37c.; extra firsts, 34½@35c.; firsts, 32@34c.; seconds, 31½@32½c.; Pennsylvania and nearby henery whites, due to fancy, 40@41c.; gathered whites, fine to fancy, 36@41c.; State, Pennsylvania and nearby henery browns, 36@37c.; brown and mixed colors, 34@35c.; refrigerator firsts, 30½@31c.; seconds, 29½@30c., lower grades, 28@29c. European eggs, fresh, 120 dozen case lots, to prime, 29@32c.; poor to fair, 24@28c.; refrigerator, poor to good, 24@28c.

LIVE POULTRY.—The week opens with uncertain conditions prevailing on account of the strike, which has been extended so that a serious condition prevails. Buyers are cautious and trading was so light that no quotations were established. About seventy-five cars were held over on track from last week, with twenty-four cars Western, four Southwestern and one Southern being unloaded.

DRESSED POULTRY.—Turkeys in light supply and firmer. Soft meated roasting chickens are scarce, with the stock held with confidence. Chickens sell easily at irregular prices. Fowls are firm, both barrel and boxed, with moderate demand. Old roosters firm. Geese and ducks drag. Guineas dull. Quotations are: Turkeys, Western dry picked, average best, 23@25c.; Western scalded fancy, 24½c.; Ohio and Michigan, 21½@22c.; Texas average best, dry picked, 22@23c.; Philadelphia broilers, 35@42 lbs. each, 26@28c.; dry picked Western roasting chickens, 5 lbs. to 6 lbs. average, 19@20c.; under 5 lbs. average, 18@19c.; roasters, 13½@14c.; squabs, prime white, 50 lbs. to dozen, per dozen, $5.50@7 lbs., 25@30 lbs., $2.75@$3; dark, $1@$2. Guineas, spring, lbs. to pair, per pair, $1.15@$1.25. Capons, Philadelphia, 9@10 lbs., 28@29c.; Ohio, 21@24c.; Western chgs., 18@20c.

THE BOSTON MARKET.

BOSTON, Jan. 19.—The local market was broad and active with a generally strong tone. The copper issues were the feature, registering advances in nearly every case. Granby at 80¾, up 2⅞, is selling at its highest price since 1910, when it sold at 111¼, later declining in the same year to 20. The present price of 3⅝ for Arcadian is the highest quotation for the stock since 1912, when it sold at 6¼. Last year it sold as low as 50 cents a share, the low record. Greene-Cananea gained 2. In the rails, New Haven advanced 1 to 77¼, easing to 76⅝. Boston and Maine gained 1 to 52, while Old Colony lost 2. On light transactions Edison Electric advanced 7 to 258 in the first hour. It closed at 257. United Fruit strengthened a point. The summary:

THE PHILADELPHIA MARKET.

PHILADELPHIA, Jan. 19.—The market was narrow and dull after the first hour. The halting tendency of the New York exchange was felt here and exerted a restraining influence upon the speculation in local shares. Prices, however, were generally well sustained. The demand for Philadelphia Electric and Tonopah Belmont was well supplied around the Saturday closing price. Traction stocks were firm on odd lot trading. Arbitrage trading was small. The summary:

THE CHICAGO MARKET.

CHICAGO, Jan. 19.—The market continues to display a firm tone with trading quite general. Illinois Brick, Sears-Roebuck, National Carbon and American Can reflected the best demand. Interest in the bond department shows an active buying movement on part of investors.
