

MISSOURI OVER

That State Furnishes the Most Surprising of Tuesday's Upheavals.

COMPLETE CHANGE OF FRONT.

A Republican Governor and Six Congressmen Are Elected.

KANSAS CITY, Nov. 8.—The most surprising of Tuesday's upheavals was the transfer of Missouri from the Democratic to the Republican column. This change of front was not made apparent until Wednesday afternoon when the returns from the country precincts began to come in. Heretofore these have shown nothing but strong Democratic leanings, but the returns show that Missouri cannot be longer counted in the solid Democratic column. Districts and counties that have heretofore gone Democratic, have completely changed front and reports from these Democratic strongholds show strong Republican victories. The Third congressional district, which in 1892 gave Dockery 3,461 plurality, has voted for a Republican. Tarsney, in the Fifth district in 1892, received a majority of 5,167. This year he is not sure of being returned, as Van Horn claims the district by a few hundred. In the Eleventh "Silver Dick" Bland is elected to stay at home and a Republican will represent the district in the Fifty-fourth congress.

The latest returns received from 35 counties in Missouri Republican gains of 14,000 is shown and the election of their entire state ticket, by a plurality of at least 10,000, is assured. The lower house of the state legislature is Republican, but the Democrats, who have a majority in the senate, will be able to carry things on a joint ballot. Nothing definite can be learned, however, as to what their majority is until complete official returns have been received. Returns from some of the congressional districts are rather conflicting, but on the whole show a decided Republican gain. At least six Democratic candidates for congress were defeated and possibly several more will be counted in the Republican column when complete official returns are in.

MADE A CLEAN SWEEP.

Wisconsin Republicans Get the Entire Congressional Delegation.

MILWAUKEE, Nov. 8.—Complete returns from 65 out of 70 counties in the state give a Republican plurality of 54,620. This will be increased by the returns to come to between 58,000 and 60,000. The Republicans control the senate by seven majority, electing 20 senators out of 24 and having four hold-overs out of 13. The assembly is Republican by 35 majority. The nine congressmen are all Republican, a gain of six. Sauerhering, Rep., defeats Barwig in the Second by 244.

THE PLURALITY GROWING.

Republicans Get Ohio by Over 150,000. Also Nineteen Congressmen.

CINCINNATI, Nov. 8.—More complete returns indicate that the Republican plurality for secretary of state will exceed 150,000. The present Ohio delegation in congress consists of 11 Democrats and 10 Republicans. The newly elected delegates consist of 19 Republicans and 2 Democrats. The Republicans do not concede the election of Sorg in the Third and Lay in the Fourth districts, their pluralities being less than 100.

RICH'S GREAT RUN.

Michigan's Governor Has Over 90,000 Votes to Spare.

DETROIT, Nov. 8.—From the latest compilations of reports from the state it is apparent that Governor Rich's plurality will exceed 90,000. The pluralities on 12 congressmen-elect range from 2,800 to 11,200, the latter being about the amount of Congressman Burrows' plurality. The entire Republican congressional ticket was successful.

One Lone Democrat.

DETROIT, Mich., Nov. 8.—The latest returns received by The Free Press show that of the 32 state senators elected every one is a Republican. Of the 100 members of the house all are Republicans save one, John Donovan of the Bay county district. Many districts which had not returned Republican legislators for a quarter of a century have elected Republicans.

Big Republican Gain.

BOSTON, Nov. 8.—Returns from all but two cities and towns in the state give Greenhalge, Rep., 196,242; Russell, Dem., 128,436, a Republican gain of 32,109. The legislature will be made up as follows: House, 120 Republicans, 28 Democrats; senate, 28 Republicans, 4 Democrats.

A Democratic Governor.

MEMPHIS, Tenn., Nov. 8.—Late returns from Lauredale, Daugerdale and Tipton counties increase the majority for Peter Turney, Dem., for governor about 1,000. This will probably increase his plurality in the state to 4,000.

Republicans Get Delaware.

WILMINGTON, Del., Nov. 8.—Delaware completed: Newcastle, 950 Republican majority; Kent, 100 Democratic majority; Sussex, 815 Republican majority. Net Republican majority, 1,800.

BUDD IS VICTORIOUS.

Democrats Carry California by a Small Plurality.

SAN FRANCISCO, Nov. 8.—About one-half the entire vote of California is counted and the result indicates that James H. Budd, Democratic candidate for governor, has a plurality in this city of about 10,000 and will probably be elected by a plurality of between 6,000 and 7,000. With the exception of supreme court justices and comptroller, sufficient returns have not been received to indicate which party has been successful with the remainder of the state ticket. The returns now indicate that the Republicans have elected six of the seven congressmen.

NINETY THOUSAND.

The Republican Plurality in Iowa Is Growing.

DES MOINES, Nov. 8.—Later election returns from Iowa have more than kept up the Republican record. At midnight the Republican plurality on the state promises 90,000. The combined Prohibition and Populist vote will not exceed 40,000. Republicans elected the entire congressional ticket.

MORTON'S BIG PLURALITY.

Latest Returns Make It More Than 150,000.

NEW YORK, Nov. 8.—The total corrected vote for governor in New York state, Sullivan county out, stands as follows: Hill, 514,073; Morton, 667,419; Wheeler, 27,106; Morton's plurality, 153,346.

A TERRIFIC STORM.

New England Experiencing the Worst Weather Since the Blizzard of '88.

Great Destruction of Property and Disasters to Shipping Reported.

BOSTON, Nov. 8.—A terrific storm has raged for the past 36 hours all over New England. Its violence was only equalled by the great blizzard of 1888. Reports from various points indicate disasters to shipping and great destruction of property, aggregating in value several hundred thousands of dollars.

In this city the storm raged with great violence, and in the centre of the town the streets are strewn with wrecked telephone and telegraph wires. These crossed and twisted wires were a menace to life, and destructive fires were threatened in many places. Many horses, while being driven through the streets, trod on live wires and were shocked to death by electricity.

The suffering brutes that were not instantly killed had to be shot in order to put them out of misery.

At Providence, R. I., the storm was very violent and caused great damage. Telephone, telegraph and trolley wires were swept from their fastenings and hung in bunches in the streets and from buildings, endangering life. As soon as possible the electric currents were cut off and serious damage thereby averted. Along the coast a tremendous sea roared and the raging waters broke into the lower harbor. Reports from Vineyard Haven and Portsmouth tell of fleets which narrowly escaped destruction by taking refuge in places of safety.

THE PLURALITY GROWS.

Republicans Carried Pennsylvania by 240,000.

PHILADELPHIA, Nov. 8.—Returns received by the Associated Press indicate that the Republicans have elected 28 of the 30 congressmen in the state. Erdmann, Dem., Ninth district, is elected by less than 2,000 majority. The result in the Eighth district is yet in doubt, although on the face of the unofficial returns Hart, Dem., has defeated Kirkpatrick, Rep., by a very small majority. Complete returns received up to midnight from all but a half dozen of the 67 counties in the state give Hastings a plurality of 233,378.

RETURNS FROM KANSAS.

Republicans Claim the Election of All Seven Congressmen.

TOPEKA, Nov. 8.—The Republicans have carried Kansas by a plurality of possibly 80,000 and will have a slight majority over all. Republican Chairman Leland claims also the election of congressmen in the seven districts. The Republicans will elect 90 representatives out of a possible 125, giving them a majority of 45 on joint ballot. Incomplete returns make further estimates impossible.

Wyoming Is Republican.

CHEYENNE, Wyo., Nov. 8.—Returns from 11 Wyoming counties show 3,000 plurality for Frank W. Mondell, Rep., for congress. William A. Richards, Rep., is elected governor by 2,500 plurality. Republicans will have a majority in the legislature, insuring the election of two Republican senators.

Latest From Oklahoma.

GUTHRIE, O. T., Nov. 8.—Returns from the major portion of the territory make it possible that Flynn, Rep., delegate to congress will have fully 5,000 majority. The territorial legislature will be very close, with the balance of power in both houses in the hands of the Populists.

For a Greater New York.

NEW YORK, Nov. 8.—Returns from all except a very few missing districts show an apparent plurality in New York city for consolidation, or the greater New York, of over 86,000, while the rapid transit measure shows an apparent plurality of 82,400.

NERVE AND A SHARP KNIFE.

An Unprecedented and Exquisitely Delicate Surgical Operation.

For the first time on record the surgeon's sharp pointed knife has penetrated to the pancreas and saved a man's life. The operation was recently performed at the Hahnemann hospital. Some great surgical work is performed at this hospital, but there is a strict understanding that operations shall not be reported to the lay world, and that the name of the subject shall never be given out. The subject this time was a well to do merchant, who paid the surgeon a very large sum for his marvelous skill.

There was a hard lump just below the patient's stomach. His stomach pained him, and his digestion was not good. The lump kept growing. His doctor made a cut in the abdomen and saw that the lump was beyond the reach of ordinary surgery. The merchant would probably die.

One of the surgeons at the Hahnemann hospital said he would like to make another slit in the abdomen, believing he might succeed in removing the lump. If he did, it might kill the merchant just the same, but if something was not done he would die anyway.

So the merchant took the last chance. A 6 inch slit was made, and the surgeon deftly ran his fingers down under the stomach and found a lump as large as his fist attached to the pancreas. The pancreas is about 5 inches long, an inch in thickness and 2 inches broad. From the fact that it digests all of the fats taken into the system the pancreas is a highly important organ of a human being.

When the cut arteries had been clamped and the physicians had sponged away the blood and then realized the enormous size of the object clinging to the pancreas like a toadstool to a log, they thought the case was hopeless. But the operating surgeon still kept up his nerve. It is not the place of an operating surgeon to lose his nerve. As he surveyed the situation he knew that if he cut away even the slightest segment of the pancreas the merchant was done for. Only by the very nicest calculation could the right cuts be made. He sponged off the blood and went to work. One and then another incision of the blade, and the cyst, filled with its horrible fetid matter, was removed, having been lopped neatly off just where it was joined to the pancreas.

In a few days the patient was on his feet again and said he felt like a new man. And now the physicians are wondering how many men have died from lumps in their stomachs who might have been saved and just how far the surgeon's knife may be effective again in an operation on the pancreas.—New York World.

A DUMMY ON THE TRACK.

An Agony of Horror For the Motorman, but Fun For the Boys.

The street urchins who spend their days round Eleventh and Twelfth streets and Third avenue, Brooklyn, looking for the mischief the father of all evil is supposed to supply for "idle hands to do," have found a new vacation amusement, and some of the motormen on the Third avenue trolley line are on the verge of nervous prostration.

The boys beg, borrow or steal old clothes until they have succeeded in getting together a very complete man's outfit. The next thing is a dummy, life size, which is well dressed, even to hat and shoes. A dozen or more conspirators, escorting this semblance of a man, stroll carelessly onto the track in front of an advancing car, talking busily.

The bell is rung loudly, the boys scatter, and the dummy falls across the track. Then the jokers discover their histrionic talent. They rush back, apparently in terror, and make futile efforts to get the man out of danger.

In the meantime the motorman, who is not the bloodthirsty wretch driving the car of juggernaut that he is popularly supposed to be, is in an agony of horror. His hair fairly stands on end, and the veins stand out on his forehead as he uses all his muscle on the brake. If he succeeds in stopping before the car goes over the prostrate form, it is pulled off the track and sent flying into the car with wild shouts.

The feelings of the unfortunate man at the brake are too vehement for utterance when he discovers the trick. The scheme is very successful just about dark, and whichever way it goes it is great fun for the boys.—New York Times.

Duel Regulations in Russia.

New regulations have just been issued for the settlement of disputes between Russian officers. They provide for the appointment of a court of honor, consisting of officers, which will determine the question whether a duel is unavoidable or not. Should the decision be in the affirmative, any officer declining to accept the challenge will be dismissed from the service. A report upon duels between officers is in future to be made to the minister of war, who, in concert with the minister of justice, may appeal to the emperor to stop any legal proceedings resulting from the hostile encounter.—London Public Opinion.

Lana's New Photograph.

The photographers of the Paris observatory have just finished for the Academy of Science the clearest view ever secured of the moon. They have photographed her surface in sections, which fit, making a great image 5 feet in diameter. The work is so perfect that towns, forests and rivers would be perceptible if they existed.—Paris Journal.

A Japanese Bribe.

Seaweed has not even in our wildest moments ever been dreamt of as an instrument of electoral corruption, yet the Tokyo newspapers just at hand contain an account of the trial of a member of the Japanese parliament who was accused of bribery by corrupting his constituents with presents of edible seaweed.

Daughter of Supreme Commander of the Knights of the Maccabees OF THE WORLD.

HELEN MAY DICKINSON.

Disease of the nerves, vitality at low ebb, nervous prostration and all attendant evils and troubles are the result of the high nervous strain, the everlasting hustle of the American people. High authorities say it is the air, the climate that seems to intoxicate the people with such a mad desire for wealth and position, that they never know when to rest. This unremitting work, push and energy has made the United States the richest country on the face of the globe, but work, worry and a peculiar climate has made the American people a nervous race.

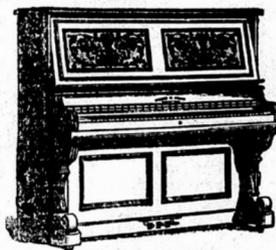

"Now as well as ever."

Mr. George Dickinson, Deputy Supreme Commander of Knights of Maccabees of the World, whose residence is Emporium, Pa., writes:

"Dear Friends:—I feel grateful to you for the great good your valuable medicine—Dr. Miles' Nervine—has done my little girl. She was almost blind from amaurosis, [disease of the optic nerve] and could not tell daylight from darkness. We were in despair that our rosy, baby girl should not be able to see out of her round, blue eyes. It seemed impossible, as they looked as well as ever, but it was true; she became worse. After several prominent oculists and physicians had failed, we finally decided to try Dr. Miles' Nervine. It restored her eyesight. I bought two more bottles and she is now permanently cured. I hope you will publish this letter for the benefit of others. I recommend it wherever I go. I also hope that your wonderful medicine will become so well known that every house will keep it as a standard remedy. Its merit only needs to become known for this to become an established fact."

DR. MILES' NERVINE is not a chance discovery, but the result of 20 years study, careful investigation and experiment by Dr. Franklin Miles, the great specialist in diseases of the heart, brain and nerves. It is sold by all druggists on a positive guarantee that the first bottle will benefit you. Should it not you may return it and obtain your money. This allows you to give it a fair trial without any risk. This proves our confidence in the medicine. This proves that it is made to cure. This proves the merit of the remedy, if it was an ordinary medicine, this unparalleled offer could not be made. It is a specific for all nervous diseases such as Nervous Prostration, Dizziness, Sleeplessness, Headache, Neuralgia, Rheumatism, Apoplexy, Epilepsy, Convulsions, Backache, Nervous Dyspepsia, St. Vitus Dance, etc. Sold by all druggists at \$1 a bottle, six bottles \$5, Pills 25 cents.
