How to Select a Good Bond

This booklet will help investors to select sound investments. It shows standards that should exist in important features to make a bond a desirable investment. It analyzes in a simple way the contents of bond circulars. It shows how each factor of a good bond offered by a good investment house must be investigated by experts to assure its safety.

"How to Select a Good Bond" *will be sent upon request for Circular No. AD 28.*

Riker - Hegeman

Announcement was made to-day that the sales of Riker-Hegeman Drug Co. in April showed a gain of 20% over same month last year, or largest business since assumption of control by the new interests.

The election of the new directors at annual meeting held yesterday means that the same successful methods which have characterized the management of the United Cigar Stores Co. will be pursued in developing the business of the Riker-Hegeman Company.

With the acquisition of the Loder Drug Company of Philadelphia, which was accomplished yesterday, and the prospective opening of a new large store in Pittsburgh, the Riker-Hegeman Company will soon have 100 stores in operation.

Under the virile and aggressive management of this Company' stockholders may have this assurance that they are interested in a company which is as yet in its infancy and which will develop into one of the greatest retail enterprises in this Country.

Live Stock Market.

THURSDAY, May 21.

Receipts of beeves were 1,161 head, including 3 cars for the market, and a single car was held over yesterday. No trading to-day. The feeling was dull but steady, with moderate receipts reported for to-morrow's market. Dressed beef in moderate demand at 12@14c. per lb. for city dressed native sides.

Receipts of calves were 89 head, including 51 for the market. Prices were fairly steady as compared with yesterday's average sales. Prime veals sold at $11@$11.25 per 100 lbs.; culls at $8. Dressed calves were easier at 14½@17½c. for city dressed veals; 11½@14½c. for country dressed.

Receipts of sheep and lambs were 6,050 head, including 7 cars for the market, making with the state stock 8½ cars on sale. Trade slow and prices generally 15@25c. lower, the pens were not fully cleared. Common to good lambs sold at $7.15@$9.25 per 100 lbs.; spring lambs at $10.25; medium to fair green yearlings at $5.25@$5.50; a little bunch of prime wethers at $6.50; ewes and culls at $3.50@$4.25. Dressed mutton easy, at 10@12½c. a few wethers sold at 13c., dressed lambs easier at 13@18c.; country dressed hothouse lambs steady at $7@$7.50 per carcass.

Receipts of hogs were 5,987 head, including half a car for the market. Prices fall much with good medium hogs selling at 29 per 100 lbs.; roughs at $8.

FINANCIAL NEWS AND COMMENT

Setback in Steels Under the Leadership of Standard Shares.

MARKET MORE ACTIVE

New Haven Inquiry Affects Sentiment Adversely—Foreign Exchange Strong.

After a half week of rectionary talk the stock market yesterday did proceed to turn down rather sharply. United States Steel, Amalgamated Copper, Union Pacific and Reading were the leaders in decline, and while there were indications of professional effort to depress prices, there were also signs of scattered selling for long accounts, which represented probably a combination of weariness over the stagnation of the list in the last few days, with some speculative uneasiness provoked by various developments and considerations of the week.

Possibly the patience of Wall Street has been a little overtaxed by the disappointment of hope that the Interstate Commerce Commission would have before this announced some conclusion in the Eastern rate case. Otherwise technical causes for a reaction could most profitably be assigned, other matters being more in the nature of accelerating influences.

The dealings for the day expanded a little on the development of decline, which did not occur until the afternoon, and the close was heavy around the lowest figures. The session started with downward impulses communicated from abroad, and there was some moderate foreign selling.

The renewed manifestation of debility in the Western Maryland securities, the gloomy aspect of Missouri Pacific affairs and the tragic portents of the New Haven inquiry all figured in the Wall Street reckoning. Missouri Pacific shares were steadier, but there was a poor market for the notes and junior bonds. It was thought in some quarters that the Missouri Pacific situation was sufficiently desperate to assure the probability of an agreement between the management and the bankers to save it, but the disposition was wanting to risk any commitments on that score. The fact that another Western Maryland readjustment seemed impending after so recent a reorganization had a distressing influence out of proportion to the importance of the property.

It was in all likelihood the adverse impression widely made by the Mellen testimony in the New Haven investigation that affected stock market sentiment most. The financial community is not at all inclined to deceive itself as to the public construction likely to be placed on the New Haven record as narrated by Mr. Mellen, even though American corporate enterprise does not generally deserve to have so dark a shadow cast over it. At least a pretext for selling United States Steel was found in the refusal of the Interstate Commerce Commission to reopen hearing in the industrial plant line cases affecting steel makers chiefly, and the unsatisfactory state of the copper metal market, together with the recent disappointing exhibits of earnings by some of the copper companies, served to stimulate sales of the copper shares once they began to yield.

The Chesapeake and Ohio dividend prospect was a subject of much discussion during the day, but it was not until after the close of the market that announcement of the declaration of the regular rate established in the previous quarter was made. Favorable comment was elicited by the details of the Wabash reorganization plan, which accomplishes the very desirable result of scaling down the total volume of securities on the property by more than $10,000,000 while reducing fixed charges by almost $2,000,000 and providing the company with over $5,000,000 cash above its pressing needs.

Despatches from abroad were not encouraging and suggested conditions likely to strengthen the tendency toward gold exports in volume. The foreign exchange market was very strong, demand sterling rising to a new high price of 4.88⅝, and exportations of substantial shipments next week were entertained. Mexican matters entered into the day's market opinion through the rather disquieting revelation in a magazine article of President Wilson's attitude of aggressive sympathy with the land grabbing features of the Mexican revolution.

In other respects there was some rather favorable news. The Baltimore and Ohio Railroad reported for April a gross increase of $196,000, while net earnings increased about $854,000. Although the cotton market was strong all grains turned weak under the leadership of wheat, which fell a cent and a half a bushel, its decline being accompanied by reports showing that rust and insect damage to the growing crop had been exaggerated.

CONSOLIDATED EXCHANGE.

Prices on the Consolidated Stock Exchange yesterday reflected heaviness as early as 9:30 o'clock on the opening call.

Transactions totalling 24,130 shares were distributed over a list which embraced forty-seven different stocks. Third Avenue sold on the call at 42, and Mexican Petroleum after the call at 62¼, the only market for those two stocks in Wall Street all day.

Among the larger individual totals Reading accounted for 8,340 shares, United States Steel for 7,370 shares and Union Pacific for 1,860 shares. Missouri Pacific was the most active among the lower priced shares. It touched 15¾, which compared with a New York Stock Exchange low of 15⅞. Reading early in the day rallied sharply for a time, but it did not sell above 166¾, against a high of 166⅞ on the other board. Union Pacific did not get above 157⅝, against 157¾.

Amalgamated Copper's call price of 73⅛ proved its highest and compared with a high of 73 on the other exchange. Lehigh Valley early touched a high of 140¾, against 140¼ on the New York Stock Exchange.

THE CHICAGO MARKET.

CHICAGO, May 21.—The reactionary movement was more pronounced to-day, with Chicago Railways seconds and Sears-Roebuck showing the most pressure. With the exception of National Carbon common, which gained a point, the net changes were small. Bond market was active and prices were steady. The summary:
