THE COFFEE MARKET.

Futures Close Irregular at 5 Points Lower to 3 Higher.

The coffee futures market closed quiet and irregular yesterday, with prices 5 points lower to unchanged to 3 points higher. The volume of business was light throughout the day. Total sales amounted to only 16,500 bags. Trading was well scattered over the list, with the greatest activity in the September position, which started at a slight decline and subsequently advanced 10 points. There was a recession of 5 points toward the close on realizing. Offers in cost and freights at Brazil were practically unchanged and quotations in the local spot market were also repeated.

Brazilian markets were irregular. Rio 7s were lowered 75 reis to 4$550, while Santos 4s were unchanged at 5$800. Rio and Santos receipts totalled 15,000 bags. Sao Paulo had 5,000 and Jundiahy 4,000.

Prices were:

	High-est.	Low-est.	Clos-ing.	Prev. close.

THE SUGAR MARKET.

Raw Quiet but Firm—Spot Price Unchanged at 4.89.

The raw sugar market was very quiet yesterday, but the tone was firm. There were rumors of sales of July sugar at 5.02 cents, duty paid New York. The spot price was unchanged at 4.89 cents.

The refined market was firm, with all interests quoting 6 cents on standard granulated. The Pennsylvania Company of Philadelphia continued to quote 6.10 cents.

The sugar futures market at the Coffee Exchange was dull, with prices steady. Total sales for the day were 3,150 tons.

Prices were:

	High-est.	Low-est.	Clos-ing.	Prev. close.
May	....	....	3.90	3.90
June	3.96	3.96	3.97	3.97

February	....	....	3.79	3.79

COTTONSEED OIL.

The tone was firmer. Offerings were lighter. The talk of a larger export trade in oil helped the list. Refiners were not opposing the advance. There were tenders for about 2,000 barrels of oil, which practically completes the May deliveries.

	Closing prices.	Prev. close bid.
Spot	6.35@6.45	6.35
May	6.36@6.40	6.35
July	6.61@6.65	6.60
September	6.80@6.85	6.81

CONSOLIDATED EXCHANGE.

Firmness, with trading quite active at times, was displayed on the Consolidated Stock Exchange. The "war order" stocks were again brought to the front and made a feature in the dealings. Westinghouse Electric was the leader of this group, with its sales totalling 8,010 shares. Crucible Steel and American Locomotive were also advanced.

Commission houses handled a large volume of fractional lot orders, well distributed throughout the list. Sales totalled 35,520 shares. United States Steel common, of which 9,600 shares changed hands, opened at 53¼, which was ⅝ of a point above its closing price on Thursday, and it subsequently advanced to 53⅞, closing at the top. Reading opened at 143⅝, up ⅜ of a point, and early touched a high of 144½. It closed, however, at 143⅝. Union Pacific's opening was 124⅝, up ¼ of a point, from which price there was an advance to 125⅞. It closed at 125. The first price for Amalgamated Copper was 66, an overnight gain of ⅝ of a point. It touched a high of 66⅞, also selling as low as 65¼, but closing at 65⅞. Westinghouse Electric opened at 90, a gain from the night before of ⅝ of a point. Its high was 94⅞, at which it closed. Crucible Steel opened at 26¾ and sold as high as 28⅞. There was exceptional softness in Rock Island, which after opening at 20 declined to 18½. It closed at 19.

FINANCIAL NEWS AND COMMENT

War Order Stocks Lead in a Display of More Active Strength.

GENERAL LIST IS FIRM

While in some respects yesterday's stock market could not be regarded as bearing any important and significant relation to the dominant factor of immediate financial interest it had features which reflected the influences for improvement of values that are tending persistently to assert themselves against factors of restraint. That the upward movement of prices was at speculative experiment goes without saying, but the trend of stock market effort is a circumstance worth noting, although Wall Street as a whole could not feel that the time had arrived for a disregard of reasons for prudence and caution.

From a very quiet opening and dull early dealings the market expanded to comparative activity, although the scale of trading was far from evenly maintained. Throughout the day the general list was firm but relatively neglected. Rock Island and Missouri Pacific were at least heavy, but the principal movement of stocks was among a rather extended array of specialties which rose sharply under the leadership of issues in the war order group.

Crucible Steel and Westinghouse accounted for about one-third of the total transactions of the session and made the most striking advance. It was manifest that initiative in them attracted a following and proof of the technical strength which has been restored to the market was furnished by the action of these and other issues. At the same time the demonstration was not altogether convincing that the statuat of the list could not be readily impaired at this time with so much important uncertainty in the situation.

What went on seemed to be a manifestation based in part on the technical position of stocks and in part on the trading restlessness engendered by the recent brief interval of stagnant stability and the recollection of the remarkable rise in April. The close was unquestionably strong, with the day's leaders at the best figures.

Italy's entrance into the war seemed to be taken for granted and Wall Street made use of it to argue in behalf of the upturn in stocks that the spread of belligerency meant an increase of war contracts here. For the rest the impulses for the bullish speculation were fostered by favorable conclusions respecting the resolution of the pending difficulties between Berlin and Washington. The overnight character of advices in this regard was of encouraging tenor, although the tone of German press comment was not in keeping with the output of optimistic opinion. Late in the day reports of a cheerful nature came from Washington, but the conservative elements in the financial community were not inclined to go too fast or too far in assumptions as to the nature of the German reply to the Washington note and its consequences.

Meanwhile the foreign exchange market supplied additional evidence of the validity of the arguments for a confident view of the future to the extent that these have been founded on the international ascendency of American finance. Foreign exchange has all the week been strengthening the conclusion that New York is being firmly established as a world money market, although there are offsetting considerations connected with the signs of financial stress abroad.

Demand sterling sold down to 4.78, the lowest level reached since the beginning of the war. Franc checks sold as high as 5.45, while sterling was quoted at the remarkable price of almost 26 francs in Paris. Later the exchange market steadied at some rally, but it was manifest that the arrival of gold would be vastly increased before long or else foreign borrowings here would have to assume a different form than they have been taking. Possibly the last named conjecture helps to explain somewhat the heaviness which the bond market has been showing.

THE COPPER MARKET.

Demand for Spelter Far Exceeds the Supply.

The greatest activity in metal markets was again found in spelter. The demand for that commodity far exceeded the supply. Fancy prices were paid for all grades. Brass specials sold at 20 cents. There was a good inquiry for several hundred tons of prime Western spelter for delivery in each of six months commencing with August. Fifteen cents a pound was bid, but producers made a counter offer of accepting the business at 16 cents a pound. Delays have proved very costly in spelter during the last few days, so rapid have price advances occurred. On Wednesday a customer, failing to exercise his option on a tonnage of spelter by 3 o'clock that afternoon, was obliged to pay $20 a ton more for the same metal the next morning.

Demand for copper improved somewhat and producers look for good business during the coming week. There has been some shading where large amounts were not involved, but this was at the hands of small producers and second hands.

Exports of copper during the last week were 11,357 tons, making 24,658 tons since the first of May. This compared with 26,838 tons last year.

Lead market held firm and there was some talk of higher prices, although this was not generally given credence, for production of lead is more ample for demands than in the case of either copper or spelter.

MONEY AND EXCHANGE.

The New York Federal Reserve Bank rates were 4 per cent. for thirty to ninety days and 5 per cent. for longer bills.

Open market discounts, prime acceptances, maturing up to ninety days, 2½ @2¼ per cent.

Commercial paper rates were 3½@4 per cent. for sixty and ninety day bills and for four to six months best names; 4¾@5 per cent. for others.

Time money continued in slight demand and easy in tone. Rates were 3 per cent. for sixty and ninety days and 3½ per cent. for four months, 3¼@3¾ per cent. for five months and 4 per cent. for over the year.

Call money on the floor of the Stock Exchange yesterday ruled at 2 per cent.; high, 2; low, 1 per cent.

Domestic exchange on New York: St. Louis, 5c. premium; San Francisco, 30c. premium; Minneapolis, 30c. premium; Chicago, 15c. premium; Cincinnati, par; Montreal, $6.25 premium.

Call money in London was 1¼@1½ per cent.; short bills, 2⅝ per cent.; three months bills, 2 15-16 per cent.

Sterling exchange was firmer. Final quotations were: Demand, 4.78 5-16; cables, 4.78⅞.

Bar silver in London, 23½d.; in New York, 49¾c.

New York Clearing House statement: Exchanges, $286,261,571; balances, $14,523,185; Sub-Treasury credit balance, $665,382.

NEW YORK STOCK EXCHANGE PRICES.
