COTTON UNCHANGED IN SMALL SESSION

Decline in Early Trading, Followed by Recovery at the Close.

DISCOUNTING THE SUPPLY

Yesterday's market in cotton was the usual Saturday affair, which left prices practically unchanged. As a result of disappointing cables there was a lower opening, with a somewhat further recession, but the loss was recovered on buying before the close. The support in the last half hour was based on prospects of unsettled weather over to-day and the belief that the report of the New Orleans *Times-Picayune*, which will be issued to-morrow, will present an unfavorable review of crop conditions.

Bearish sentiment just now is strongly in evidence, with expectations of lower prices based on fresh spot offerings, accumulations in the hands of speculative country merchants and slack demand from spinners and exporters. Experience has shown, however, that the cotton market always discounts the supply situation first.

With a short crop higher prices are certain to be registered, although a violent reaction may come later from an unfavorable trade situation. In the event of a big crop the excessive production always receives consideration prior to the attention paid to possible increased trade demand. The records of the cotton market show that the highest prices in a short crop or the lowest prices in a big crop are seldom recorded before December 1, and usually afterward.

Consequently while irregularity and occasional easy periods are to be expected for a time it is quite likely that the cotton market will follow out its usual programme and record still higher prices before the first of the year.

Market closed steady.

	Open-ing.	High-est.	Low-est.	Clos-ing.	Prev. close.
Dec	12.41	12.52	12.49	12.50@12.51	12.55@12.60

EXCHANGE STILL STRONGER.

Brokers Think Rates Are Helped by Receipt of Cash for Loan.

Sterling exchange rates were considerably stronger yesterday. Foreign exchange brokers said that the sharp advance was due to the large amount of cash received yesterday by J. P. Morgan & Co. as agents for the syndicate managers in the $500,000,000 loan and the announcement by Lord Reading that the establishment of further credits for the Allies was not far off.

Sterling closed at 4.68⅞ for demand and 4.69½ for cables as compared with 4.68⅝ for demand and 4.68⅞ for cables on Friday. Franc checks closed unchanged at 5.86¼, but cables were fractionally higher, selling at 5.85¾ as compared with 5.86 on the day previous. Italian lire continued to decline, selling at 6.42, against 6.41 on Friday. Rubles were unchanged at 34.

Marks closed at 82 9-16 for sight drafts and 82⅞ for cables as compared with 82⅝ for drafts and 82¾ for cables the day previous. Austrian kronen remained unchanged at 14.85.

THE STEEL MARKET.

Advancing prices and continued heavy buying of commercial products as well as material for conversion into ammunition marked the past week in the steel trade. It was reported that several Eastern makers have been receiving $1.45 per 100 pounds for bars, plates and structurals, which is $1 a ton above the ruling quotation. Warehouse steel prices were advanced $1 a ton. Billets were advanced at some points and higher iron bar prices were announced.

Steel mills continued to fall behind in their deliveries and in some lines available capacity is extremely scarce. In cases where producers are able to furnish prompt deliveries they are receiving premiums of several dollars a ton over regular prices. Forgings billets are scarce and the demand remains large. Buying of steel bars continues heavy and new inquiries for upward of 50,000 tons made their appearance before the market during the week.

Railroad buying continues to grow in importance. In addition to the revival of car and rail demand noted recently the roads are now taking large tonnages of bridge material. Several of the large lines are reported to be preparing to enter the market for large amounts of new equipment.

THE BOSTON MARKET.

BOSTON, Oct. 16.—The market for copper shares held firm throughout the short trading session. Closing prices were around the top, with the volume of trading only moderately heavy. Industrials and railroads were without feature. The summary:

DAIRY PRODUCTS MARKET.

BUTTER—The market had a little firmer tone yesterday. Cooler weather stimulated buying. Receipts were light, less than 7,000 packages. This made 54,366 packages for the week. In the corresponding week last year 41,729 packages were received. Production of butter continues heavy for so late in the season and receipts here are ahead of trade requirements. The surplus must go to storage. Considerable butter stored late in the season is being put into consumption as it makes a good profit for owners. Exports for the week were about 19,000 packages, mostly medium grades. Prices: Creamery, extras, 92 score, 38¼@38½c.; higher scoring, 39@39½c.; firsts, 88 to 91 score, 36@38c.; State dairy, tubs, finest, 37½@38c.; good to prime, 35½@37c.; common to fair, 32@35c.; renovated, extras, 34½@35c.; firsts, 33½@34c.; imitation creamery, firsts, 32@33c. Eggs, current make, firsts, 22@22½c.; packing stock, June, fine, 21c.; current make, fine, 21c.; No. 2, 20½c.; lower grades, 17@20c.

CHEESE—Market ruled quiet, with all high grade stock held firm. Market was stimulated by further advances in England and in Canadian markets. Receipts have been moderate and considerable cheese was withdrawn from storage during the week. Demand for held cheese was active. Held cheese is preferred to current makes, some of which have been put in storage. Receipts for the week were 12,193 packages, compared with 11,122 in the same week last year. Prices: State, whole milk, fresh, flats, specials, 15@15¼c.; average fancy, 14¾c.; State skims, held specials, 12@12½c.; fresh specials, 14½@15c.; choice, 16½@16¾c.; fair to good, 8@16c.; Wisconsin twins, 14½@15c.; double daisies, 14¾@15¼c.

EGGS—High grade eggs, while still scarce, ruled somewhat easier as high prices curtailed demand. Medium and low grade stock in current receipts was in considerable accumulation and buyers demanded concessions. Holders were anxious to clean up and generally were willing to meet buyers' views on prices. Storage eggs are drawn on freely, as they are of better quality than current receipts of the same period. The bulk of current receipts consist of country held, inferior quality. Receipts for the week were 132 cases, compared with 61,943 cases in the same week last year. Exports for the week were about 4,000 cases. Prices: Fresh gathered, extras, fine, 34@35c.; extras, firsts, 31@33c.; firsts, 27@30c.; seconds, 22¾@26c.; No. 1, dirties, 21@22c.; refrigerator, special marks, 26c.; refrigerator, firsts, 24½@25½c.; seconds, 23@24c.; henneries, whites, fine to fancy, 43@50c.; browns, 36@38c.; mixed colors, 27@35c.

LIVE POULTRY—Receipts for the week were about 120 carloads. Left over stock was about cleaned up yesterday as demand was stimulated by cooler weather and reduced prices. Fowls and springs ruled fairly firm at the closer roosters ruled steady. Ducks in free supply and easy. Geese in light supply and steady. Much stock of all descriptions was of inferior quality. Prices: Fowls, 12½@17c.; chickens, 13@14½c.; ducks, State, spring, 14@15c.; Long Island, 16@17c.; Western, 14c.; turkeys, 18c.; roosters, 11c.; geese, 14@15c.; guineas per pair, 50c.; pigeons, pair, 20c.

Dressed Poultry—Supply was ample. High prices have drawn forward shipments which otherwise would have come as live poultry. Medium springs ruled dull, but large fancy roasting chickens were active and wanted. There was demand also for small broilers and fowls, which were in light supply. Roosters in moderate supply and firm. Long Island spring ducks selling well. Prices: Fresh spring ducks selling well. Prices: Fresh dressed, Long Island, 20@22c.; State, Western, boxed, 60 lbs. and over, fowls, Western, boxed, 60 lbs. and over, 18½c. Western, scalded, large, 17c.; iced, 18½c. Western, dry picked, 4½ and 5 lbs., 18c.; Western, dry picked, 4½ and 5 lbs., 18c.; 4 lbs., 17½c. Chickens, fresh, nearby, 2 milk fed, and over, 22c.; Virginia, milk fed, 4 lbs. to pair, 23c.; Western, fed, 3 and 3½ lbs. to pair, 22@23c.; dry picked, corn fed, 3 and 3½ lbs., 17@18c.; old roosters, 13½c.; squabs, prime, white, 10 lbs. to dozen, $4; 9 lbs., $3.50; 8 lbs., $3. Long Island spring ducks, 18c. Frozen—Turkeys, dry picked, selected, 22@22½c.; Western, 21@22c. Texas, 18½@19½c. Chickens, 12 to box, milk fed, 48 lbs. and over, 22c.; corn fed, 48 lbs. and over, 21c. Fowls, 12 to box, 60 lbs. and over to dozen, 18c.; 30 to 35 lbs., 15@16½c. Old roosters, 13½c.

ANTHRACITE MOVES FAST.

"Coal Age" Reports No Great Activity in Bituminous.

The *Coal Age* says: "Anthracite—Prices materially stiffened, and while individuals are still occasionally offering slight concessions the large companies are slowly but surely getting the situation well in hand. Distribution is at the record rate for the season to date. Shortages of certain kinds of equipment have been reported in the mining regions, and some of the companies have already been forced to draw on their storage supplies. Thick weather along the coast has affected shipments to down East ports, and some anxiety is developing at points where navigation closes in November. The outlook is for a favorable business throughout the balance of the year.

"Bituminous—There is no particular snap to the trade, but the market is steady
