FOREIGN EXCHANGE STRONGER.

Austrian Kronen Only Weak Spot —Marks Unchanged.

Foreign exchange rates, with the exception of Austrian kronen, were generally stronger yesterday. Sterling closed at 4.76 5-16 for demand and 4.76 15-16 for cables. This compares with 4.76 1-16 for the former and 4.76 11-16 for the latter at the close of the market on Thursday. Francs advanced to 5.90¼ for checks and 5.89¾ for cables. They were quoted on the day previous at 5.90¾ and 5.90¼, respectively. Italian lire was unchanged at 6.70, as were rubles at 31.75. Guilders were stronger at 40½, as compared with 40¼ on Thursday.

Marks were unchanged at 72 7-16 for sight drafts and 72½ for cables. Austrian kronen declined to 12.58, as compared with a previous close of 12.60.

Rumors were current in foreign exchange circles yesterday that a group of Canadian banks had extended a loan or credit of $55,000,000 to Great Britain. Inquiry in Canadian banking circles here revealed that none of the branches of the Montreal, Toronto or Ottawa banks had been advised of this arrangement. They were disposed to consider it as a purely banking arrangement for financing some munitions shipments rather than any direct loan or credit made for Great Britain's account.

Britain Exempts Foreigners' Investments.

LONDON, March 10.—The Treasury announced to-day that the capital and interest of Treasury bills held by foreigners will be exempt from all taxation, present or future. Proof must be submitted that the bills are actually owned by persons not resident in the United Kingdom.

THE SUGAR MARKET.

All Lines Strong and Higher—Large Demand.

The whole sugar market was again strong and higher, with the trade impressed by the large volume of demand. In the raw market refiners and operators purchased 250,000 bags Cubas for March and April shipment at 4¼c. cost and freight. This established the spot market at this level, with centrifugal 96 test duty paid quoted at 5.55c. There were also rumors of purchases for April shipment at 4½c. cost and freight.

A further advance of 15 points occurred in the market for refined sugar, which was firmly fixed on the basis of 6.65c. for fine granulated.

Prices in the market for sugar futures made new high records for the season and trading was very active, total sales for the day amounting to 21,150 tons or only about 1,200 tons below the record day's business since the market was inaugurated. There was good buying both for outside account and by trade interests, indicated by the strength in both the raw and refined markets and the selling was principally in the form of profit taking. Prices follow:

FINANCIAL NOTES.

The firms of Baker & Carruthers and Hamilton Bell & Co. have consolidated and will hereafter be known as Baker, Carruthers & Bell with offices at 111 Broadway. The firm will do a general brokerage business.

The board of governors of the Investment Bankers Association will hold its next meeting at the Belvidere Hotel, Baltimore, on Friday, March 17. Certain matters of importance to the association will be discussed and acted upon.

Crawford, Patton & Cannon members of the New York Stock Exchange, announce that they have appointed Grover Le Fevre Goodhue, who formerly was manager of the United States Mortgage and Trust Company, as manager of their branch office in the Hotel St. Andrew, Broadway and Seventy-second street.

An advertisement made that the rights to purchase Burns Bros. Inc. Corporation stock expire on March 20. The exclusive right to purchase the new company's stock has been given to the 750 stockholders of Burns Bros. Coal Company. These rights represent an extra dividend on both preferred and common stock of the coal company.

FINANCIAL NEWS AND COMMENT

Stocks Display Strength Despite the Mexican Developments.

STEEL TONNAGE GAIN

Stocks went up yesterday in the sequel to a real crisis in the country's relations with Mexico, calling at last for such energetic action by the Government as was decided on in the campaign of punishment ordered for the organized bandits who had committed an outrageous invasion of American soil. Very little attention was paid by Wall Street to any other external matter in the field of foreign difficulty. The posture of the European war and the problems of diplomacy with which it has burdened Washington were all obscured by the Mexican question.

Opportunity was afforded over night and during the day to estimate Mexican affairs in their bearing on the stock market and general business. In the upshot, although forward activity was halted somewhat by the new trouble thrust on financial attention, no adverse conclusions seemed to be reached. Judging from the aspects of the Stock Exchange session, the Wall Street view was that Mexican developments had not effected and were not likely to cause any unfavorable change in the position or prospects of values.

Some setback in the share list might have been expected toward the end of the week as a natural consequence of the upward course of prices of the last few days. Yet there was on the whole very little reaction from the best figures and the market closed strong with a substantial average of further gain. Total transactions represented but a moderate shrinkage from Thursday's volume, although the afternoon lacked the animation of the earlier hours.

Stocks started to rise briskly in the early dealings and subsequently advanced rather sharply. Liberal offerings checked the rise and induced material declines in some directions, but selling diminished as prices fell away and the market hardened rather easily afterward. There was no time for very heavy pressure and although buying operations were criticised as chiefly of professional origin, it is usually the case that any particular movement of stocks inaugurated under professional auspices and the fact that professional effort has lately been on the constructive side may have some significance for market conditions and the market outlook.

Features of strength were provided conspicuously by stocks of corporations which have large property interests in Mexico, including Mexican Petroleum, American Smelting and Southern Pacific. The trading disposition was to assume that Washington's action must conduce to some restoration of tranquillity and order on the other side of our southern border. Zinc and other metal stocks continued to display aggressive firmness and there was apparent accumulation of war order specialties at advancing prices on the theory that all the possibilities of profit in war contracts have not been fully discounted at current price levels.

An important and favorable item of business news was the United States Steel Corporation's exhibit of forward business at the end of February. This showed a gain of 646,199 tons despite output at a maximum rate of production and despite the rise of prices for steel products to figures that have not been touched in years. Moreover, the corporation now reports a total of 8,489,718 tons of unfilled orders, compared with a previous high record of 8,000,000 tons on December 31, 1906. The increase is actually much greater for the former total included a large amount of intercompany business which is not now reported.

In the foreign exchange market, while German bills remained weak sterling moved up. The strength of sterling is remarkable on account of our heavy export trade movement, and perhaps reflects arrangements such as are now being rumored for large loans on the American securities which are being mobilized by the British Government.

ROCK ISLAND RULING REVERSED

Higher Court Holds That Directors Must Be Examined.

The Appellate Division of the Supreme Court reversed yesterday the decision of the lower court vacating orders for the examination before trial of Daniel G. Reid, William H. Moore, Ogden Mills and other directors of the Rock Island Railroad Company in the suit brought by stockholders of the Chicago, Rock Island and Pacific Railway Company to have the directors account for about $7,500,000.

The higher court held that the examination was necessary to enable the plaintiffs to show the interest of the defendant directors in the railroad company for whose benefit the railway company's funds were alleged to have been diverted. The court also reversed an order of the lower court refusing an application by the stockholders to make Jacob M. Dickinson, receiver of the railway company, a defendant. Mr. Dickinson has brought suit of his own against the defendants for an accounting, and under the Appellate Division ruling the directors must defend two actions brought for the same relief. Justice Scott dissented from the other members of the court on this ground. In the action brought by the receiver permission has been asked in the Federal court to accept an offer from the defendants to pay $750,000 to settle the case.

Former Presiding Justice Ingraham of the Appellate Division appeared for Mr. Reid and accordingly lost the first case he argued before his former associates.

THE COFFEE MARKET.

Trade Apparently Disturbed Over Situation in Mexico.

The coffee trade was apparently somewhat disturbed over political conditions arising from the disturbances in Mexico, and as the market had recently experienced an advance of 15 to 20 points longs were disposed to take profits. In consequence the upward tendency in the market was checked and at the close of the day values were 2 to 7 points net lower. Total sales were 32,500 bags.

Europe sold a little coffee here and there was more or less selling for local account. Trade conditions were not changed. While there were comparatively few cost and freight offers received from Brazil the level of values was not altered and shippers were disinclined to make concessions. The spot demand was very slow and comparatively little business was reported, although quotations remained unchanged at 9½c. for Rio 7s and 11½c. for Santos 4s.

The official Brazilian cable reported an advance of 1,000 in Rio exchange on London; milreis prices in Rio were 75 reis higher and Santos was unchanged. Receipts at the two ports were 27,000 bags, compared with 47,000 last year: Sao Paulo received 15,000, against 27,000, and Jundiahy 16,000, against 7,000. Prices follow:

Total sales to-day, 592,700 shares. Same day 1915, 231,735. January 1 to date, 32,561,200. Same period 1915, 11,455,347.

Where a "r" follows a quotation it indicates a bid or offer for 10 shares.

Live Stock Market.

FRIDAY, March 10.

Receipts of beeves were 1,926 head, including with previous arrivals 24 cars for the market. Choice steers were steady; the undergrades weak to a shade lower; bologna bulls and thin cows steady; others less active and weak to a shade lower. Ordinary to choice steers sold at $7.25@$9.60 per 100 lbs.; bulls at $5.50@$7.75, cows at $3.25@$7. Dressed beef quiet but steady at 11@14½c. per lb. for city dressed native sides.

Receipt of calves were 507 head, including 282 for the market. Prices were firm with an active demand for the stock. Common to prime veals sold at $9@$13.25 per 100 lbs.; culls at $6.50@$8.50; common barnyard calves at $5. City dressed veals were firm at 15@20c.; country dressed at 12½@16½c.

Receipts of sheep and lambs were 3,359 head, including 3 cars for the market. Sheep were almost nominal but rated firm; lambs higher. Closed to prime lambs sold at $11.50@$12.12½ per 100 lbs.; outside figures the highest recorded price paid for fed lambs in this market. Dressed mutton steady at 10@14c. per lb.; dressed lambs at 15@18½c.; country dressed hothouse lambs at $6@$8.50 per carcass.

Receipts of hogs were 2,100 head, including half a car for the market. No sales had been reported up to a late hour, but the market was quoted nominally higher at $9.50@$10 per 100 lbs for hogs; $9 for pigs, $8.50@$8.75 for roughs. Country dressed hogs steady.
