COTTON HAS FIRM TONE AT CLOSING

New Highs for Day Reached During Last Half Hour of Session.

FINAL PRICES UP 22 TO 36

Scattered Liverpool Support Is Most Strongly Felt in Late Trading.

The cotton market's short session yesterday was devoted more or less to evening up operations and the professional element was the most active one. Its tendency was upward and the closing was very nearly at top prices, a net gain of 22 to 36 points. Throughout the session there was scattered support from Liverpool interests, the effect of whose buying was felt most strongly at the close. There was also a good deal of covering for over the week end, both local and outside. Week end statistics were about a stand-off although the light spinners' takings favored the bear element, as did the quieter Fall River print cloth market, in w.....n sales of only 70,000 pieces were reported for the week.

The tone was very dull at the start, first sales being unchanged to 12 points higher. Early buyers included spot houses and Liverpool, the South selling. For a short while following the call there was irregularity, but the upward trend soon became definitely established. Foreign exchange was hardly of great importance as a factor, but was carefully followed by both speculative elements. The market was very sensitive at times, but on the whole reflected no important selling pressure. Sentiment is rather mixed.

The second hour was the most active of the two, but buying was at its best late in the session. There is a good deal of bearish talk regarding a slower market for the actual in Texas. New highs for the day were recorded during the last half hour, but all in all there was little excitement in the market, which closed firm in tone and virtually at its best prices.

New Orleans Cotton Market.

NEW ORLEANS Feb. 7.—After a period of unsettled trading around the opening to-day the cotton market firmed up and rose for material gains, the motive power for the advance being mainly the rise in sterling exchange, the London reports of contemplated revision of the economic provisions of the peace treaty and the large exports movement for the day.
