PRICE OF COTTON RISES $7.50 A BALE

Local Market Is Strongest of Many Weeks and Closes Near Top.

ADVANCE IN LIVERPOOL

Final Quotations Here Are Net 95 to 140 Points Higher and Spots Up 70.

The cotton market was yesterday the strongest of many weeks and reflected principally heavy covering by prominent Wall Street interests and buying by Liverpool, bids of $5 to nearly $8 a bale more than Wednesday's finals being made. Bulls laid stress on recuperative power shown by sterling exchange and the stock market in its late business. The broad rise in Liverpool was of more than usual effect. The strong spot situation also was commented on, and it was pointed out by many well informed traders that March contracts were in very strong hands and that few tenders were expected. Certificated stock here also is small.

At the opening the market's tone was firm, first sales scoring net advances of 38 to 48 points. There was brisk covering of contracts in evidence from the outset and the market soon became strong, rising gradually to a level of some $5 a bale more than Wednesday's ending before any sign of reaction made its appearance. Toward the end of the second hour there was some scattered profit taking by locals with a natural easing, but as trading progressed into the early afternoon the market surged higher and with renewed vigor to new highs for the day.

Domestic mill interests took a little at times in the afternoon, late advance carrying the list $7.50 a bale beyond Wednesday's finals. Easier money was made note of by the bull element, as were reports from the South telling of unfavorable eastern belt weather for preparation of the crop. Professionals took profits at intervals in the late session but the tone was at no time other than strong. The close of the day was very nearly at the top, net 95 to 140 points higher. Local spots were up 70 points at 38.45.

J. M. KURN TO HEAD FRISCO.

E. N. Brown Resigns, but Continues as Chairman.

At a meeting of the directors of St. Louis-San Francisco Railway Company yesterday E. N. Brown resigned as president, but retained the office of chairman. J. M. Kurn, general manager of the company's lines under their Federal control, was elected president, with offices in St. Louis. C. W. Hillard resigned as treasurer, but retained the office of second vice-president in charge of finances. S. J. Fortune resigned as secrrtiary and assistant treasurer. The following additional officers were elected: A. Hilton, fourth vice-president in charge of traffic; B. T. Wood, fifth vice-president and chief purchasing officer; W. F. Evans, general solicitor, and F. H. Hamilton, secretary and treasurer; all with offices in St. Louis.

All of the resignations and elections are to be effective on March 1, or at the end of Federal control, if continued after that date.

Druggist Syndicate Reports.

The American Druggist Syndicate and its subsidiaries profited $82,767 in 1919, according to its annual report. The company's profit and loss surplus at the end of this year was $424,411, or nearly $3,000 less than at the close of 1918. C. M. Goddard, president of the company, in his remarks to stockholders attributed that decline, in spite of the continuous and consistent rise in prices of all drugs and chemicals throughout 1918, to the fact that the company gave its customers the benefit of its buying power and did not raise prices until 1920.

Crescent Pipe Line Net Is Off.

The Crescent Pipe Line Company's net income for 1919 was $161,417, or $2.69 a share on its outstanding capital stock, against $3.12 a share earned in 1918. Dividends were unchanged at $180,000 and the deficit at the close of the year was $18,583, against a surplus of $7,446 in 1918. The total surplus, which was $357,269 at the end of 1918, was reduced by adjustment of that deficit to $338,677, or slightly less than the surplus of $349,814 at the close of 1917.

Precious Metal Stock Drops.

WASHINGTON, Feb. 13.—Stocks of precious metals in this country decreased $51,000,000 in January, according to figures made public to-day by the Federal Reserve Board. Exports of gold amounted to $47,816,873 and imports $12,017,551. Silver exports were $24,627,678 and imports $8,863,251. Argentina took $13,550,000 of the exported gold, other large amounts going to Hongkong, China, and Japan. hTe bulk of the silver shipments went to China.

CURB STOCKS GAIN AFTER WEAKNESS

Good Demand for Important Issues and Large Advances Are Made.

The curb market had another weak morning yesterday on renewed liquidation but later prices rose sharply and more quickly than they declined in the morning. A good demand developed for most important issues after several new lows for the present movement were made, and followed by short covering large advances were recorded throughout the list. It was the first real recovery in prices since the present decline started.

The independent oils, which suffered heaviest in recent weeks, naturally made the largest gains. General Asphalt and Midwest Refining rallied ten points from their early low levels and advances of two and three points were made from Wednesday's closings in the Homer field stocks. Announcement was made of the bringing in of a 10,000 barrel well, in which Gilliland and Simms companies have interests.

Standard Oil issues, which declined heavily at the opening, recovered most of their losses and there was heavy buying of South American oil issues. Colombia Emerald advanced five points and smaller improvements were made in International Petroleum and Tropical Oil. Industrial stocks were only active in spots, and as a whole did not take part in the upward swing. Mining issues were moderately active and firm throughout the session.

More activity was shown in bonds. Interboro notes quickly advanced five points, and there was good early buying of Kennecott Copper 7s and General Electric 6s.

Total sales and range of prices follow:
