Washington, Special.-Advices received here indicate that President Roosevelt will call the Senate in extraordinary session early in November. Ever since it became evident that nothing would be accomplished as to reciprocity with Cuba, at the recent session of Congress, rumors of a more or less definite nature have been in circulation that the President would call an extra session, either of n Quebec; discrepancies the entire Congress to enact Cuban on which the true bills reciprocity legislation, or of the Senate to ratify, if possible, a reciprocal treaty with Cuba. During the past week it has been stated that it was the purpose of President Roosevelt to call a special session of the Senate as early as September. It can be stated by authority that he has no such intention. His time and that of many members of the Senate of both political parties will be completely occupied

> It is understood to be the belief of the President that a session of the Senate held for the purpose of ratifying a reciprocity treaty with Cuba would be much more likely to be fruitful of results if it is held after the November elections than if it was held before. It is assured that the questions of the relations of the United States with Cuba will enter largely into the approaching and it is stated that the President feels the Democrats will be likely to offer the less serious opposition to a reciprocity treaty after the election and Greene than they would before that time. A treaty with Cuba practically has been bench at prepared. It requires only the finishing touches and the signatures of Minister Quesda and Secretary of eceding his State Hay, to make it ready for pre-cred to the sentation to the Senate. No definite date, it is understood, has been fixed upon for the meeting of the session in November, but that it will be soon after the election is reasonably certwo writs. tain. The President, it is said, hopes of the pris-to have the reciprocity question corpus on cleared away entirely before the ed, in virtue of regular session of Congress.

Rebels Capture Barcelona.

Special. - Minister Washington, Bowen has cabled the State Department from Caracas that our consul at Barcelona has informed him by wire that Barcelona had been taken by the revolutionists, that they are sacking the town and that in his judgment the protection of a vessel should be immediately afforded him. Mr. Bowen says he has cabled the Cincinnati to return without delay. He notes that the Topeka is at Porto Cabello and the Mariatta up the Grinoco river. During the lay the Cincinnati reported her arrival at Porto Cabello and instructions were sent directing either the Topeka or the Cincinnati to proceed to Barcelona, This leaves it discretionary with Captain McLean, of the Cincinnati, the senior officer present, to send the Topake or go himself with the Cincinnati. The vessel which remains will be prepared to land bluejackets at Porto Cabello in case of necessity.

Injunction Refused.

Little Rock, Ark., Special.-Chancelor Martin has refused to grant the injunction asked by the regular Republicans of this State against Secretary of State Crockett, to restrain him from having printed on the State ticket, to be voted September 1, the name of Charles D. Greaves, as a Republican candidate for Governor. The application was made by Harry H. Myers, the nominee of the "regular" Republicans, ent quashing his Greaves being the nominee of Republicans outside the regular organization. The tickets were today ordered printed with "Republican" after each candiontrary, his date's name. Chancellor Martin held that he had no jurisdiction.

Telegraphic Briefs.

United States Senator James Mc-Millan, of Michigan, died suddenly at Manchester-by-the-Sea, Mass.

The fourteenth week of the thracite miners' strike begins with no break in the ranks on either side in

A highway robber who was wounded near San Jose, Cal., committed uicide when cornered.

> Georgia Populists. nta, Special-The Populist State ve committee met here Tuesnamed Judge James K. Hines, a, for Governor. Judge Hines, positively declined to run, pittee of three was thereto make a nomination, for the other offices on t were made as follows: , J. H. Traylor, Troup oller General, W. W. county; Attorney ey, Bartow county; griculture, W. L. ty; School Comellner, Forsyth

EXTRA SESSION. SOUTHERN INDUSTRIAL A LIVELY CAMPAIGN

A North Carolina Enterprise.

Mr. M. DeW. Stevenson writes from New Berne, N. C., to the Manufacturers' Record as follows:

"The proposed Pamlico, Oriental & Western Railroad is to extend from the city of New Berne via Bayboro, Stonewall, Oriental and Vandemere to a point near the mouth of Goose Creek, all except New Berne being in Pamlico county. It is about fifteen or sixteen miles from New Berne to Bayboro, which is the county town of Pamlico; about ten miles from Bayboro to Oriental, about six miles from Oriental to Vandemere and about twelve miles from Vandemere to the mouth of Goose Creek, making the whole road about forty-three miles long. There will be a bridge across the Neuse river at New Berne, where the road will connect with the Atlantic & North Carolina Railroad, which runs from Morehead City to Goldsboro. New Berne is also the northern terminus of a branch of the Atlantic Coast Line Railroad, which runs from Wilmington to New Berne.

"Pamlico county is finely situated letween the Neuse and Pamlico rivers and Pamlico Sound. Bay river runs from Bayboro to the Sound, and is navigable up to Bayboro. The lands of Pamlico are very productive, the principal crops being cotton, corn and truck, and there are large quantities of timber, mostly pine. I understand that there have recently been sales of large tracts of land in this county to citizens in a Western State. Pamlico is one of the few counties of North Carolina in which there are no railroads. The people of the county are anxious to have the road built. They have recently voted to issue \$50,000 of 30-year bonds to make a subscription to the capital stock of the company. It is contemplated that the city of New Berne will also subscribe."

Textile Notes.

It was recently mentioned that Philadelphia (Pa.) capitalists had in contemplation the establishment of a \$1,000,000 knitting mill at West Point, Va. The names of the projectors have not as yet been announced, but it is stated that H. J. Dagit of 435 Chestnut street, Philadelphia, has plans for the enterprise. It is reported that the main building will be 50x300 feet, to be equipped for manufacturing underwear; building 50x130 feet, to be equipped for hosiery manufacture, and 40x40-foot building to accommodate the boilers. About 500 horse-power will be generated by the steam plant, and 500-horse-power electric generators will transmit the power throughout the

Poulan (Ga.) Cotto ported at length, ha 5,000 spindles and 160 Lowell Machine Shops Mass. Some of the building now ready for the machinery, 40-foot addition will be erected t main building; also a warehouse about twenty cottages. Specificatly for these are about ready for bids. The power plant is complete, and delivery of the textile machinery is to begin October 20. W. K. McKerall is secre-

Hartsville Cotton Mills on Martsville, S. C., has been completed recently, and is now arranging to begin active manufacturing. Its equipment of 12,000 spindles, 300 looms and complement of steampower, etc., has been tested and found entirely satisfactory. The company has a capital of \$25,000 and sufficient space for doubling its equipment whenever such enlargement is deemed advisable. C. C. Twitty of Spartanburg, S. C., is president and treasurer.

Merrimack Manufacturing Huntsville, Ala., states that there is no truth in the rumor that it will build a duplicate mill, nor is it intended to establish a bleachery in connection

with the plant. The directors of the Mount Vernon Cotton Duck Co. and of the United States Cotton Duck Association, of which the first named is a constituent company, held a directors' meeting in New York city last week. The United States Company declared a dividend of 3 per cent. out of the ten months' earnings on the cumulated preferred stock, and the Mount Vernon Company decided to pay the interest on the income bonds for the last six months.

Southern Delinting Co. of Rockingham, N. C., reported last week with \$50,000 capital, was incorporated by H. S. Ledbetter, R. S. Ledbetter, Jas. P. Leak and W. C. Leak. The company proposes introducing a machine recently invented which separates every particle of lint from the cottonseed and makes it ready for export. The first plant will have a capacity of forty

tons per day. Messrs. Margolius & Co., Norfolk, Va., will erect two large factories for the manufacture of cotton-jute bagging and knitted goods. They will erect two buildings 100x170 feet each for the installation of the machinery. Most of the machinery has been obtained and a portion of it will be removed from

a plant now at Charlotte, N

HEMPHILL AND LATIMER FIGHT

Latimer Resented a "Cussing" From Hemphill and Landed a Blow on His Head.

Columbia, S. C., Special.-One candidate for Senator McLaurin's seat Thursday resented being "cussed at" by another candidate for the same place, and so precipitated a fight. The campaign party was at Gaffney, which has developed into a sensational campaign meeting Former Congressman John J. Hemphill objected to a statement by Congressman Latimer and in turn made. a declaration about an inconsequential matter. Latimer contradicted Hemphill, who immediately showed anger and repeated his statement. Latimer denied it. Hemphill stepped before him angrily and said:

"- damn you, you know that what you say is untrue."

Both are large, strongly built men. Latimer made a tremendous lunge, landing hard on Hemphill's head. The latter struck heavily, but the force of his blow was broken by strong me! pulling them apart. Hemphill swun his closed umbrella for Latimer head, but the force of the blow wi broken by men rushing between the They were finally overpowered. Hen hill being brought to earth by seve men. The fighters were required go before the mayor and put up

Another Account,

Charleston, S. C., Special.-The N and Courier's campaign reporter graphs from Gaffney, S. C., as foll There is something either in the or the atmosphere that calls fo difficulty of some sort every time didates or officials speak here. It will be remembered that it was at this place that Senators Tillman and McLaurin found that arguments availed nothing and both tendered their resignations to Governor McSweeney; and the incident of the "Jim" Tillman-DeCamp episode, a few weeks ago, is still fresh in the minds of the people. But today two would-be Senators came to actual blows, and all about a small matter. It happened in this way: At the senatorial and congressional candidates meeting held here in the court house Thursday, Congressman Latimer was the last speaker. When his turn came the dinner hour had arrived and a majority of the 500 in the audience left. Latimer did not want to speak to the depleted crowd and asked permission of the chairman to be allowed to postpone his speech until after dinner, the time lotted to the Congressmen. The matr was left to a vote and it was orred that his speech should not be tponed. Latimer juniped up and "I want you all to come back and hear me, for these five lawhave been jumping on one poor r and I am going to answer As they were leaving the bar of the court room, Hemphill said: "Latimer you ought not to say that, for none of us have been jumping on you today, and you know it. It has always been our rule to end a meeting

gressmen." Latimer: "You want to make me speak to empty benches; you care noth-

before we stop and will not be right

to infringe upon the time of the Con-

ing for the Congressmen." Hemphill: "I do care for the Con-

gressmen, and you know it." By this time they were facing each other, and both very angry.

Latimer: "I know that you don't care

for them."

Hemphill: "G-d d-n you, you know that is not true."

Latimer then drew back and hit Hemphill a stunning blow on the cheek. Several men jumped in between them and the driving blow sent by Hemphill at his antagonist fell short of its mark. and tried to hit Latimer over the heads of the intervening men, but he could nat reach him. Several men grabbed hold of both antagonists, who were making desperate efforts to get at each other and in the scurle Hemphill was pushed back between two chairs in th jury box, but was instantly helped his feet again. This ended the nno as far as this correspondent so heard. It is reported that followed Latimer out of the and asked him why he stry Latimer replied: "Because

me," to which Hemph did not curse you "Well, if you did n ogize." This latt hearsay, but the and was hear
