Mint Rushes Coin Making.

SAN FRANCISCO, July 15.—Uncle Sam's money makers in the San Francisco mint are working sixteen hours a day trying to keep abreast of the demand for silver coinage, which seems to be preferred everywhere now to paper money. This preference, it is said, is particularly noticeable in Philadelphia and San Francisco.

CURB MARKET.

The volume of sales in the outside market was small yesterday as compared with the turnovers of recent sessions. It was strictly a traders' affair and no distinct trend was noticeable until the closing hours, when pressure in several independent oils resulted in a decided downward movement. A few oils moved in the opposite direction and one or two industrials were the centre of active buying, which pushed values several points higher.

South American oils declined sharply toward the close on comparatively light offerings. There was little demand for that group of stocks and at the end of the session General Asphalt showed a loss of almost 3 points. Salt Creek Producers and Fensland Oil, however, were slightly higher at the close. National Oil of New Jersey weakened toward the finish.

Bucyrus Company stock came into prominence after being a back number for considerable time. Heavy purchases were made and it responded with an advance of about 4 points. National City Bank rights aided in a better manner, and on heavier trading retrieved part of their Tuesday's loss recorded. Singer Manufacturing was several points higher.

Bonds were again active, but as a rule showed small losses. A few issues, however, showed fractional advances.

Total sales and range of prices follow:
