COTTON MARKET.

Responding to the unexpected in the way of Government condition reports, the cotton market rose sharply yesterday on heavy short covering. The report, which placed the condition of cotton at the end of July at 74.1 per cent. of normal, against 70.7 last month, 67.1 on July 25, 1919, and the ten year average on July 25 of 75.6 per cent., was at least 1 per cent. less than it was generally expected to be. The indicated yield was placed at 12,500,000 bales and at 170.4 pounds an acre. The New Orleans *Times-Picayune* report of 74.4 came closest of all the private reports to the official figure. There was little else of feature in the market yesterday. The advance, which ranged from 50 to about 100 points, was partly aided by a statement of the secretary of the New Orleans Cotton Exchange placing the world's consumption of American cotton for the season at 12,700,000 bales. Comparatively little attention was paid to the day's weather news, which on the whole continued favorable for crop progress. There were no Liverpool cables, owing to yesterday being a holiday in the British cotton centre.

At the outset here business was moderate, and the list was unchanged to 27 points down from Saturday's closing. The market did nothing particular during its first two hours and the majority in the trade awaited the Government report. There was some evening up from Wall Street interests and a little scattered pressure from the South and Liverpool. Bulls called attention to the opening improvement in securities, but later on in the day the reaction in stocks became somewhat of a bearish factor in contract prices. Feeling in trade circles was mixed.

COFFEE MARKET.

The coffee market opened yesterday at 10 to 20 points more than Friday's closing prices and declined 10 to 30 points, only to rebound on talk of a firmer Santos market, final prices showing net gains of 15 to 27 points, or close to the day's best point.

Firm offers from Santos were unchanged to ¼c. to ½c. higher, but local importers reported only a small business doing. Rio 7's sold at 9.95c., American credit, which was 15 points more than its last previous selling price. The local spot market was quiet and its business was on a hand to mouth basis only, interior buyers not being disposed to purchase heavily in an unsettled market.

GRAIN MARKET.

The wheat market was more active and displayed a better tone yesterday than it had for considerable time. Heavy selling, which depressed prices last week, was lacking. There was some selling, but the pressure was less and there was a better class of buying orders. The buying was by representatives of elevator interests and shipping houses. A better demand for wheat was reported at the seaboard and Italy was buying. Further deterioration has occurred in that country and her import requirements are estimated at 110,000,000 bushels, against 80,000,000 bushels last month. Shippers were credited with making fair contracts for Italy. At the opening pit traders sold and the deliveries broke about 5½ cents. The bear pressure was prompted by favorable weather in the West, large receipts and high money. That break was followed by a sharp rally, which carried prices up as much as 9½ cents a bushel. But the rally was of short duration, as prices were again pressed. The market afterward was feverish until near the close, when futures advanced to more than Saturday's final quotations.

Corn was pressed at the start, but when the market failed to respond to activities of bears sellers turned to the buying side and, with other shorts covering and limited offerings, prices advanced easily. The market became erratic after the bulge due to free selling by longs and commission houses. Bullish sentiment, however, was encouraged by absence of rain and the unpromising outlook for needed moisture, but buying came mostly from shorts, and there was no indication that the country was alarmed about conditions. Oats trading was narrow and local, following wheat and corn. Some commission house buying of September against sales of December was reported. Weather and crop conditions were favorable. Prices were lower in provisions, with pork dropping $1 a barrel from the day's high.

WHEAT—In the local cash market No. 2 red, $2.37; No. 2 hard, $2.37, c. i. f. track, New York export, last half August shipment.
