United Retail Candy Stores

This company is now operating seven stores in New York City,—expects to open the eighth some time next week. Additional stores in New York City will follow as fast as the necessary arrangement can be made.

Four locations for stores are now under lease in Philadelphia, three in Newark, the first stores in those cities being scheduled to open some time next month.

Equipped with ample capital, nearly $6,000,000 cash at the present moment, the company plans to develop a nation-wide chain of retail candy stores in this country.

Impelled by fears that a shortage of sugar would handicap the growth of this business, a great many people have sold their candy stock. These fears, which the management have never shared, have now been dispelled.

The future prosperity of this company is well indicated by the fact that every store opened so far has paid for itself right from the start. Good management and the "United" Trade Mark, an incalculably valuable asset, are doing the trick.

The possibilities of this company are not limited to the business in their own stores. There are the stores of the United Cigar Stores Company, nearly 2,000 in number, which will draw their candy supplies from the United Retail Candy Company as soon as manufacturing facilities have been sufficiently expanded.

We have been pioneers in educating investors to the value of United Cigar Stores—we aim to perform the same service in United Retail Candy Stores, which, in our opinion, offers the same opportunities.

NOTICE

Denver & Rio Grande Railroad Company

Seven Per Cent. Cumulative Adjustment Mortgage (Income) Gold Bonds

The undersigned Committee representing the Seven Per Cent. Cumulative Adjustment Mortgage (Income) Gold Bonds of the Denver and Rio Grande Railroad Company has received an offer from the Western Pacific Railroad Corporation to issue and exchange its Four Per Cent. (interest fixed and not dependent upon income) Ten Year Secured Notes, par for par, for said Adjustment Income Bonds.

THE OFFER OF THE WESTERN PACIFIC RAILROAD CORPORATION IS CONDITIONED, AT ITS ELECTION, TO THE OFFER BEING ACCEPTED BY THE HOLDERS OF $7,510,000, PRINCIPAL AMOUNT, OF THE ADJUSTMENT INCOME BONDS PRIOR TO SEPTEMBER 20TH, 1920.

Owners of Adjustment Income Bonds will receive in cash an amount equal to the interest due on said Adjustment Income Bonds October 1st, 1920 (from which date the Notes of the Western Pacific Railroad Corporation will draw interest) less Ten Dollars ($10) per bond to meet the expenses and compensation of the Committee and its counsel, depositaries and agents. If Certificates of Deposit and/or Adjustment Bonds of a sufficient amount for the consummation of the arrangement are not deposited the deposited Certificates of Deposit and Adjustment Income Bonds will be returned without cost to the depositors.

The Committee having given careful consideration to the offer recommends the acceptance thereof.

For the purpose of ascertaining whether the offer is acceptable to the owners of Adjustment Income Bonds, of an amount sufficient to warrant the Western Pacific Railroad Corporation to consummate the proposed arrangement, holders of Certificates of Deposit for Adjustment Income Bonds deposited with our Committee, and owners of undeposited Adjustment Income Bonds, electing to accept the offer, should *promptly* deposit their Certificates of Deposit and/or Adjustment Income Bonds with BLAIR & CO., INC., 24 BROAD STREET, NEW YORK CITY, which will issue its Certificates of Deposit therefor.

Adjustment Income Bonds when deposited must be accompanied by interest coupons due October 1, 1920, and all subsequently maturing coupons.

For further information apply to the Committee or it, Secretary.

JOHN B. DENNIS, Chairman,
OTTO T. BANNARD,
ALONZO POTTER,
BERTRAM CUTLER,
Committee.

RELIGION NO BAR IN U. S.

Cannot Restrain Immigration, Says Department of Justice.

WASHINGTON, Sept. 13.—No discrimination should be made on account of religious belief against any alien attempting to enter the United States, the Department of Justice has ruled, in passing on an appeal raised by George H. Biddle from the attempt of immigration authorities to bar his entrance from Canada.

Biddle is secretary of the "standfast" section of the International Bible Students' Association, which group came into conflict with the Government during the war because of its insistence upon pacificism.

CURB CLOSES WITH NUMEROUS GAINS

Much Early Advance Is Lost as Market Turns Irregular When Oils React.

After slight hesitation at the opening prices for leading curb issues moved yesterday to substantially higher levels on buying that came mainly from short interests. Following the upward trend the market turned irregular when several oils reacted. But, although a large part of the early improvements were wiped out, numerous issues ended the session with net advances. Business was active in the morning, but toward the afternoon became rather listless, and it did not take much to move stocks either way.

Heaviest activity was again in independent oils. White Oil advanced 2 points in the morning to its highest level of several weeks, but could not hold the improvement. Simms Petroleum developed a weak tone in the late afternoon, selling down more than a point, and Guffey Gillespie was subjected to profit taking after selling to a new high for the present movement. General Asphalt closed near the top with a good gain.

Industrial trading presented more of a mixed tone from the outset. United States High Speed Tool rose more than a point in anticipation that a statement favorable to the company would be made in a few days. Submarine Boat was heavy in late trading and Indian Packing fell to a new low of 4.

Bonds, as a rule, were lower.

Total sales and range of prices follow.

LAW FORBIDS SUGAR COMBINE WITH CUBA

Porto Ricans Say They Cannot Join to Keep Up Prices.

SAN JUAN, Sept. 13.—The Porto Rican Sugar Producers' Association has replied to a request to join Cuban sugar interests in an effort to prevent refiners from forcing down the price of raw sugar that, while the local association could not join officially with Cuba in such an effort because of Federal laws, Porto Rico would not make shipments of sugar except as sold.

The cable received from the Association de Hacendados y Colonos de Cuba said:

"In view of the unjustified lowering in prices of raw sugar which endangers sugar growers' interests to the exclusive benefit of refiners, we invite you to inform us if you think it possible to obtain joint action to adopt legitimate measures to avoid grave losses in the present and coming crop."

Following the receipt of this cable a meeting of the board of directors of the Sugar Producers' Association was called, and Eduardo Gonzales was authorized to send this reply for the association:

"Federal legislation prevents joint action. We assure you that our policy is to sell before shipment and not to offer in advance."

GRAIN MARKET.

December wheat's rise of 6¼ cents a bushel featured yesterday's market and helped March to move up 1¼ cents. The rise was due to light offerings, improved milling demand and higher cash prices. Although domestic demand was better, foreign countries showed little interest because of the rise in futures and weakness in exchange. Receipts are governed by the holding attitude of the farmers, who are endeavoring to obtain higher prices for their grain.

The corn market was unsettled from its start. But prices became firm later, when the offerings decreased and on predictions of frost during the latter part of this week. The Government forecast suggested frost over the Northern sections in the latter half of the week and immediately caused shorts to cover. Some firmness was traceable to wheat's better tone and higher cash prices. Sentiment in this market, however, is bearish.

Trading in oats continued narrow except near the close, when selling developed on the increase in the visible supply. This market is ruled still by professionals and outsiders display little interest in it.

Provisions sold higher at the outset, but later reacted.

WHEAT—In the local cash market No. 2 red and No. 2 hard were quoted at $2.79 spot c. i. f. track New York.

CORN—In the local cash market No. 2 yellow corn was quoted at $1.66¼ c. i. f. New York, ten days' shipment.

OATS—The local cash market was quiet: No. 1 white quoted at 78c.; No. 2 white, 76c.; No. 3 white, 72c.; No. 4 white, 70c.; fancy clipped white, 83@83½c.; ordinary clipped white, 78c., all elevator.

RYE—Market firm on reports of export sales of about 500,000 bushels. No. 2 Western quoted at $2.31½ f. o. b. and $2.19½ c. i. f. New York.

BARLEY—Market firmer. Feeding, $1.21; malting, $1.30, c. i. f. New York.

HAY—Market steady. No. 1, $2.35@$2.45; No. 2, $2.25@2.35; No. 3, $2.10@2.20; shipping, $1.85@2.05.

STRAW—Market steady. No. 1 rye, $22@24 a ton.
