GRANDJEAN'S CURLING FLUID, FOR WASHING THE HAIR.—This Fluid contains no spirits in its composition, nor has it any stimulating ingredient that will affect capillary tubes. Its chemical properties are taken from simple plants of a wholesome nature for the hair, such as the Populeum, &c., the oleaginous substance which forms part of its composition, the oil derived from the yolk of an egg is the principal, the peculiar quality of which, when used as a wash for the hair is well known, and properly appreciated. It fills the skin of the head, and the tubes of the hair, from that corrosive action of perspiration, and from the sediment of scurf which it deposits.

The advantages derived from using this inestimable fluid are, that it will preserve the hair in any style or form the fancy may dictate and the most rebellious hair becomes soft and pliable, and can be made to retain any position that can be given to the most beautiful hair.

Grandjean's Curling Fluid possesses the double qualities, not only of making the hair curl, but of keeping it in curl, even in the warmest or dampest weather, leaving an agreeable perfume.

SHERMAN'S WORM LOZENGES.

1,400,000 Boxes sold last year—Further evidence of their wonderful effects—

Capt. Coffin, of Nantucket, consulted Dr. Sherman, on account of his son, eight years old. He had been in a decline several months, and attended by four Physicians who could do him no relief. His symptoms were leanness, pallid hue, offensive breath, disturbed sleep, broken off by fright and screaming, head ache, a distressing cough, itching of the nose through the day, and the same towards night, with alternate discharges from the bowels. The Doctor pronounced the case of worms, and recommended his Worm Lozenges. After the first dose the child ran to his parents, frightened at the quantity of worms that came from him—he began to mend at once, and before he had used one box, was entirely cured.

Henry F. Goodspeed, 130 Sixth Avenue, has always cured his children of worms, by Sherman's Lozenges. He would not be without them in his house on any account.

The Rev. Jabez Townsend's little girl, nine years old, was given up as incurable, by two physicians. She was fast wasting away, and was so miserable, that death was alone looked to for relief. Three doses of Sherman's Worm Lozenges entirely cured her.

Dr. Stevens, one of the most distinguished physicians in this country, says, Sherman's Worm Lozenges are the safest, best article he knows of for destroying worms.

Dr. Hunter, another celebrated physician, uses no other worm medicine in his practice.

Dr. Castle, 297 Broadway, has used Sherman's Lozenges in his practice, for more than two years, and never knew them to fail.

Hon. B. P. Beardsley, Col. L. Clark, Joseph Haines, Esq., Professor Bingham, and the thousands who have used these lozenges, can fully attest to their great and wonderful virtues.

Sold at the Medicated Lozenge Warehouse, 106 Nassau street, N. Y. 139 Fulton street, Brooklyn, and 96 North Sixth street, Philadelphia. n24

12. THE SOLIDAGO OINTMENT, for injuries and common diseases of the skin.

All systems of medicine hitherto invented, whether complete or partial, are liable to objections. The preceding classification embraces no exception, they form a general rule. Totally different from the theories it is dissimilar in one uniform feature, namely, in embracing a series of facts, carefully examined and fully ascertained, respecting the definite action of given remedies on certain organs; or on a fixed or closely corresponding manifestation of symptoms. The attempt at tracing all disorders to one source, and the manifestly absurd and fraudulently base proposition, that one medicine can and that infallibly will positively and impossible maladies with one remedy, has never and never will be made by any one at all entitled to public confidence from his skill in diseases and their most effectual antidotes. Medicine like food, when put to its legitimate use, must be chosen with a view to its specific action upon the particular organ most under distress; and when this is accomplished, must be so varied as to suit the changing phenomena which present themselves. As affection of the brain requires a remedy totally different from disease of the lungs.

In like manner, croupy, a course of treatment distinct from an attack of palsy. All these may be secondary affections, depending on functional derangement or structural disease on some other organ, and will yield to any general remedy, but quickly disappear under the influence of those possessing a peculiar adaptation to the existing phenomena. The above catalogue of remedies and the disorders over which they have been found to exercise a peculiar control is necessarily very brief and general, on account of being intended as a compendium of popular medicine. A PAMPHLET giving fuller details and more minute directions respecting the virtues of the PROPHYLACTIC REMEDIES may be had with the medicine at 11 Bowery and 444 GRAND STREET. Each of the remedies may be relied on as a general principle, in the treatment of disease, and will in most cases be found to answer the all orders for which they are recommended. Under each medicine a great variety of cases could be adduced as proofs of their healing efficacy, let the following serve as a specimen:—

St. C——, 28th street, 45 years of age, dark complexion, middle stature, stoutly made, was seized with intense pain in the bowels, which in spite of vomiting, bleeding, blistering, injections, calomel, opium and the like, continued with unmitigated violence for nearly a week, the bowels remaining obstructive all the time. On the eighth morning ONE TIGER PILL was given, in three hours the pain left and the bowels were freely opened, and in 24 hours the patient was completely restored.

Mr. B——, 19th street, was seized with similar symptoms and been four days in the greatest agony, during which all the ordinary remedies had been tried in vain. On the fifth day one TIGER PILL was given, and in 36 hours he returned to his usual avocation.

W. G——, Grove street, had for some time complained of pain in the chest and general lassitude, was at last seized with severe inflammation of the lungs, incessant cough, difficult breathing, parched tongue, great restlessness, &c. One TIGER was given, which during the day, removed all bad symptoms, and by giving two doses of the ANAGALLIS PILL, in two or three days was completely recovered.
