PROSPECTUS of a new Bank Note Reporter, to be issued on Tuesday, Jan. 4, 1842—From the frequent complaints of want of confidence in the existing publications, the subscriber is induced to offer to the public a new Weekly Paper, under the title of "Thompson's Bank Note Reporter," in pamphlet form, containing sixteen pages.

This paper will give a more perfect report of Banks, Bank Notes, Broken Banks, Counterfeit Notes, and Uncurrent Money, than any paper now published. It will also contain full and accurate tables of Gold and Silver Coin, Stocks, &c. &c.

The rates of Uncurrent Money and bills of broken Banks, will be quoted with the greatest accuracy, the market value in Wall street, at the time, being always the standard.

Fraudulent and unsafe Banks will be pointed out, and the public put on their guard, where failures may be expected, regardless alike of the favor or ill-will of great financiers.

The Reporter will be issued regularly on Saturday morning; but when any thing transpires rendering it necessary to inform our correspondents and subscribers, without delay, an extra will be issued and forwarded by the first mail, so they can have all the benefits of an attentive correspondent without the expense of letter postage.

The first page each week will be devoted to such remarks as will best serve the interest of that class who are constantly receiving promiscuous Bank Notes.

The Typographical department will be conducted without reference to expense, and no pains spared to render the Reporter as perfect as possible.

BRINSMEAD'S HORSEAPATHIAN VEGETABLE PILLS.—A new fountain of health opened and gushing forth its healing streams—a bright and glorious star has arisen—and is cheering thousands with renewed health and life. It is the star of Homœopathic medicine. These pills, let it be distinctly understood, cure disease by a specific homœopathic power, which instantly puts a stop to the action and progress of the disease. As soon as they have operated, you feel that a heavy load has been taken from the body, and the tranquil, buoyant feelings of health, immediately spring up in its place. By stopping the action of the disease, they restore health, and strength, and appetite, and all the functions, to their natural state; and the recovery is rapid, perfect and complete. Their operation on the bowels is abundantly free, but pleasant and natural; they never sicken the stomach or cramp the bowels, but create pleasant and agreeable sensations; and, what is a great object in these Pills, they are always safe; they may be taken on all occasions, and under any circumstances, without regard to the name of the disease, for the operate upon the general constitution, expelling disease from the body wherever it may be seated. Every one who keeps these pills by them will always have a family physician in his own house, and when using them may be confident by reply upon a quick restoration of health. They may be had at 273 and 278 Broadway, 61 and 230 Bowery, 95 and 380 Hudson street, 77 East Broadway, 79 Fulton street, and 268 Greenwich street. WM. WARREN.

"THE GREATEST GOOD FOR THE GREATEST NUMBER."

WHOEVER was the author of the above glorious sentiment (if he acted up to its meaning, deserved to have his name recorded on a monument of adamant) it is to the man every day who in their particular calling endeavor to carry out its maxim. A remedy or cure for any distressing complaint is an agent in performing "the greatest good for the greatest number."

PEASE'S COMPOUND EXTRACT OF HOREHOUND CANDY,

is now considered one of the best medicines in the world for eradicating in their preliminary stages all those complaints of the lungs, which silently eating their way, end in

CONSUMPTION!

This terrible disease commences from a small beginning, and like the worm in the tree, is at first too trifling to be felt, but "constant dropping wears away a rock;" time does its work; the worm destroys the tree, and the slight cold, pursuing its fatal and painful way, closes in

DEATH!

Every body should recollect that to be well, is to be cautious about our health. We go out of a cold or raw day and get chilled or wet; we take no precaution at the moment, the very moment, perhaps on which life may turn, but go for a day or two with a bad

COLD.

Even this we neglect, and we think it will pass away; "we have had colds before, and they left us themselves—why not this?" By and by, the cold, instead of leaving, has increased to a

COUGH.

We rest at night most uncomfortably; we wake up with damp cold sweat all over the body and limbs; we begin to feel a little alarmed, and think it is time to take medicine. Yes! it is time; but all this while disease has done its work; it has gone into the

LUNGS!

Neither modern physic nor modern surgery is then of any avail. Life, delicate even in health, so slight is the tenure of existence, depends entirely upon respiration. The lungs, it ulcerated or affected, operate at once upon respiration. The disease increases day by day; we see the patient expiring by inches, and know that he or she is past hope. It may be a parent, a brother, a sister, a beloved wife, or the cherished child!

Fate weaves its web; all hope is gone;
We watch life's slow decay;
The fatal moment soon draws on,
To bear the soul away!

Reflect for a moment—at the first symptom of the cold a remedy could have been found. A to trifling expense life would have been saved. A package of

HOREHOUND CANDY,

used in time, would have saved, within the last two years, the lives of THOUSANDS!

The best way to be prepared against colds, is to have constantly by you a package of Candy. When wet or chilled use it; it acts upon the system thoroughly, but gently. While it aids the lungs, it is a mild purgative; the bowels are kept open—this prevents

RHEUMATISM.

Some people have constitutions so strong that a cold does not affect the chest but clogs the stomach and bowels, acting violently upon the system, and closing in

BILIOUS FEVER.

Now, the Candy has as much effect upon the system here as if it operated upon the lungs, perhaps more so; for you may linger with consumption, but a bilious fever is of short duration, either for life or death. Men with broad chests and full habits should therefore be as careful of colds as those with the weakest constitutions.

ASTHMA, WHOOPING COUGH, CRAMP,

in all these complaints, at the outset, be prepared at once to meet them with a remedy. Let that remedy be

SANDS' REMEDY FOR SALT RHEUM—Salt Rheum, Ringworm, Tetter, Scald Head, Barber's or Jackson Itch, Eczema, Psoriasis Palmaris, and other diseases of the skin, are safely, certainly, and effectually cured by the use of Sands's Remedy, which has now been tested in nearly twelve thousand different cases of the above diseases, without having failed in any where the directions are all used. The unparalleled success of this remedy in curing the diseases of the skin is without equal in the history of medicine. The Compound Syrup of Sarsaparilla is recommended to be used with the remedy, as it tends to throw out from the blood and system generally all the unhealthy humor connected with the disease, and the application of the remedy externally at the same time, entirely eradicates it from the system. The remedy is perfectly harmless in its operations, and may be applied with perfect safety even to the skin of the tenderest infant. Testimonials of its efficacy are daily receive, and the following are selected for publication, which, it is thought, will satisfy the mind of every candid person of its extraordinary virtues.

B. & D. Sands—Gentlemen, I certify that I have been cured by Salt Rheum of twenty standing, by the use of your remedy. Salt Rheum is one of scrofula, and a scrofulous person then died with this dreadful disease in any form would call on me, and I can safely tell them that your medicine will cure them perfectly. LUCINA CORDIAL.
MAGNIN'S LUCINA CORDIAL,

FOR the sure and speedy cure of Incipient Consumption, Barrenness, Impotency, Fluor Albus, or Whites, Gleet, Obstructed, difficult or painful Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general preparation of the system, no matter whether the result of inherent causes, or of causes produced by irregularity, or illness.

The wide-spread celebrity of this wonderful and inestimable cordial in both hemispheres, is a sufficient guarantee for its quick and positive success in curing all the above affections and complaints. Nothing can be more surprising than its invigorating effects on the human frame, whose all weakness and lassitude before taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness or looseness of the female frame, which is the only cause of barrenness; and which, prior to Dr. Magnin's discovery, was considered to be incurable. And it speedily removes the impediments produced by physical prostration, which frequently deter men from getting married. Language, indeed, cannot do justice to the merits of the Lucina Cordial, which is regarded by the heads of the faculty in all parts of the world, as one of the most important medical discoveries of any age.

ABERNETHY'S BOTANICAL PILLS.—Let the unfortunate rest assured, that there is no exaggeration in asserting these pills to be a speedy and radical cure for Gravel, Gleets, Irritation of Kidneys, &c. They were for several years prescribed by the celebrated Abernethy, in all stages of the above diseases. In the first stages one box is usually sufficient to effect a cure in a few days. In long protracted chronic stages, obstinate gleets, &c., they are equally certain having cured hundreds who had been taking other medicines for months, which tended more to destroy the constitution than to cure the disease. They never leave the parts subject to the troublesome weakness which so frequently occurs after taking other medicines. They have no unpleasant taste or smell; any one taking them might frequent the most refined society without having their misfortunes suspected. They are composed entirely of vegetable ingredients, which invigorate the system generally. For sale only in New York, by Wm. Watson, Apothecaries' Hall, 36 Catherine street, and in Brooklyn by Blinstrow, druggist, Fulton street ds 1m*

COVERT'S BALM OF LIFE.—We invite the particular attention of our readers to this most excellent medicine, advertised in this paper. If we may rely on the united testimony of large numbers of the first physicians in this country, there can be most admit this mixture to be one of the most valuable articles for the cure of chronic bronchitis ever discovered. And observe, in this respect, how much it differs from the numerous nostrums so much puffed in the papers. Not one of those medicines, whether pills, powders, or syrups, has received the approval of any considerable number of the medical profession. But it is not so with Covert's Balm of Life. It is a remarkable fact that this medicine has been approved by a large number of regular physicians, to whom the receipt has been submitted, a fact that cannot be affirmed of any of the quack medicines which abound at the present day.—[N. York Watchman.]

For sale at 126 Fulton, and 131 Nassau street, New York.

CHAPPED hands, face or lips cured, or the money (only 37 cents returned, if Jones' Florida Cream, sold at 82 Chatham street, does not cure chapped flesh. There can be no deception in this. Pimples, blotches, freckles, tan, and all eruptions of the skin cured by Sir W. Blizzard's receipt, called Jones' Indian Balm, sold at 82 Chatham. Price 50 and 75 cents. A certain cure. Good shaving soap—but one that makes the hair, and should any be in doubt as to the existence of this disease, especially after perusing his little volume, he will, without expense or the least pain, explain and assure him whether he has or not. Let it only be remembered that, if he really has a stricture, not all the medicine in the world, alone, will ever cure it. d16 6t*

TO BREWERS AND DISTILLERS.—The subscribers offer for sale all that valuable property, situated in Auburn, and known as Wilson and Son's Brewery and Distillery, with a Dwelling House, outbuildings, machinery and fixtures connected therewith. Said property consists of about two acres of land, lying on the south side of the Owasco river in said village; a brick dwelling house, a dwelling house, a distillery capable of distilling 150 bushels of grain per day, a large and convenient brewery and malt house, with two kilns 21 feet square, and ample storage for 20,000 bushels of grain, a barn, sheds, stable, pens for 500 hogs, and an office situated thereon.

Connected with the distillery and brewery there is a steam engine of 20 horse power with two cylinders—ample machinery for grinding, and a superior rectifying establishment, containing one of John Wright's patent alcohol copper stills.

The whole establishment is of a superior kind, well finished and convenient in all its arrangements, situated in a rich and flourishing grain growing country, is now in complete order, and in full operation.

Having become necessary to sell the same in consequence of the decease of H. Watson it will be disposed of at a bargain. One third of the purchase money will be required on the delivery of the deed, and the balance may be left on bond and mortgage for a term of years if desired.

For reference inquire at Wm. Leitch's, 78 Hudson street, New York, or of the subscribers in Auburn, N. Y.

TO MARRIED LADIES.

MADAME RESTELL'S PREVENTIVE POWDERS.—These invaluable Powders have been universally adopted in Europe, but France in particular, for upwards of thirty years, as well as by thousands in this country, as being the only mild, safe and efficacious remedy for married ladies whose health forbids a too rapid increase of family.

Madame Restell, as well known, was for thirty years Female Physician in the two principal Female Hospitals in Europe—those of Vienna and Paris—where invested by her great experience and opportunities, she attained that celebrity in those great discoveries in medical science so specially adapted to the female frame for which her medicines now stand unrivalled, as well in this country as in Europe. Her acquaintance with the physiology and anatomy of the female frame, enabled her—by tracing the decline and ill health of married females, scarce in the meridian of life, and the consequent rapid and often apparently inexplicable causes which consign many a fond mother to a premature grave—to their true source—to arrive at a knowledge of the primary causes of female ills, obvious—especially of married females—which, in 1808, led to the discovery of her celebrated "Preventive Powders." Their adoption has been the means of preserving not only the health, but even the life of many an affectionate wife and fond mother.

The advertiser feeling the importance of this subject, and estimating the vast benefits resulting to thousands by their adoption, would most respectfully arouse the attention of the married, by all that they hold near and dear, to the considerations. Is it not wise and virtuous to prevent ill, to which we are all subject, by simple and healthy means within our control? A very impressionable, virtuous, and enlightened mind will unhesitatingly answer in the affirmative. This is all that Madame Restell recommends or ever recommended. Price five dollars a package, accompanied with full and particular directions. They can be forwarded by mail to any part of the United States. All letters must be post paid, and addressed to MADAME RESTELL, Female Physician, Principal office, 148 Greenwich street, New York. Office hours from 9 A. M. to 9 o'clock P. M.
