JAMES LASCALA informs his patrons and customers in general that he has dissolved his partnership at 187 Broadway and has fitted up a commodious saloon, No. 305 Broadway, (up stairs,) for their reception, hoping that they will continue to bestow on him the same patronage that he has for so long a time enjoyed, and for which he returns his thanks.

Lascala's Medicated Cosmetic was the first who, some six years ago, introduced into the Astor House, introduced the cleansing of the skin, from which time he has diligently endeavored to discover the cause of all diseases of the hair, and has come to the opinion that they all result from an accumulation of humors on the skin, which often impedes the growth of the hair and finally destroys it. It often produces an irritation of the skin, causing redness, dandriff, and a rotting out of the hair as a consequence, when his cosmetic, a dressing of the hair, (a disease arising from the same source,) clearly manifest from observing the comparative thickness and coarseness of the hair when gray, with it in its natural state.

After four years of careful observation he has the pleasure of presenting to the public a liquid called Lascala's Shampoo Water, for washing the skin. Its effects are—First: To stop its abnormal rate falling out in the hair. Second: To remove the dandruff. Third to render the coarsest hair fine and soft, without the use of pomatum. Fourth: To restore gradually the gray hair to a dark color; and lastly, to accomplish what has hitherto been considered a miracle, to make the hair grow where there has been baldness for years.

The principle of Lascala is to cleanse the skin from all its humors, and restore it to health and freshness, which he has proved on his own face, by using a thimble full of this liquid, in his hand, and rubbing it on the skin till dry, imparting to it all the freshness and color of youth.

In order to let the public test fairly this invention he has introduced a washing for the head, at the low price of 25 cents, which indeed is worth the money for the purpose of cleansing the head, while its use will prove to every gentleman how valuable as keeping the head free from odd ots, and those who have the hair good and healthy will readily appreciate its preserving virtues.

To those who prefer Pomatum, Lascala recommends his Cream of Roses, prepared with the same composition as the liquid, and which gives gloss and softness to the hair, removes sores, and heals pain arising from burns, either of which will recommend it to those who have the charge of children.

Price, one dollar per bottle; ten dollars per dozen.

To prevent counterfeiting and adulteration, the genuine one will be only used and sold at his Hair Dressing Saloon, 305 Broadway, up stairs, N. Y. jl 1m*ec

SHARON SPRINGS PAVILION.

SCHOHARIE COUNTY, N. Y.

THIS spacious House, which, since the improvements and additions made to it during the past winter, is believed to be one of the most commodious and comfortable of the largest class of Hotels in the State, is now ready for the reception of company, and will be opened on the 25th day of May next. To accommodate the large and increasing number of people who spend the season at Sharon Springs, the subscribers have, since last fall, greatly extended their premises, by annexing to the Pavilion an entirely new building, which embraces twenty-six spacious spar meuts, besides making large additions and improvements to the interior and business parts of the house.—Blinds have been add d to the windows—the beautiful premises and grounds in front of the Pavilion have been laid out and tastefully planted with shrubs and flowers—the bath rooms have been overhauled and new furniture provided, furnishing every convenience to those who wish to enjoy either a cold or warm bath. No expense or effort has been spared to supply the deficiencies of past seasons, and every exertion will be used, to receive the visitors of the coming season in a manner not to be surpassed at any other place of fashionable resort in the United States.

To those who have not heretofore visited the Sharon Springs, it is sufficient to say, that the qualities of the water (an analysis of which is given below) are very nearly identical with those of the famed White Sulphur Springs of Virginia, except that by the concentrated quantity of all the ingredients they are equalized with both. The Sharon are esteem d the most potent—situated in an elevated region of country, the Pavilion commands one of the most extensive views, and is placed in the midst of the most picturesque scenery in the State of New York. For in its elevated position it has the advantage of a continually dry, cool and refreshing atmosphere. Fish and excellent game abound in the Otsego Lake, and other points equally in creasing from their scenery and their history, offer themselves on every hand—whilst a Billiard room and four spacious Ball Alleys, leave no means unprovided within doors for exercise or amusement.

Of the White Sulphur Water of Sharon Springs, it can be said it is not surpassed by any thing of the kind in the Union, as it has done the cures in dyspeptic complaints, bilious and dyspeptic complaints, and for the cure of erysipelas, salt rheum, scrofula, liver complaint, bronchitis and general debility, as has been certified by some of the most eminent medical professors.

By a recent analysis made for the proprietors of the Springs, made by one of the most eminent Chemists in this country [Professor Reid of New York] the following results have been obtained from one gallon of water:—

Bicarbonate of Magnesia	24 grains.
Sulphate of Magnesia	34 "
Sulphate of Lime	85 4
Hydrosulphate of Magnesia and Lime	3
Chloride of Sodium and Magnesium	2 7
Solid contents	149 1 grains.
Hydrosulphuric Acid Gas, or Sulphureted H, degree	29 5 cubic in.

The Springs are within a few hours ride of Albany, Troy, Saratoga, Schenectady, Utica, &c.; are accessible either from Canajoharie, on the Albany and Utica railroad, three post coaches daily meet the arrival of the morning cars from Schenectady and Utica, to convey visitors to the Springs, a distance of about eight miles, arriving in time for dinner; or by the Cherry Valley turnpike, by daily stages, being about forty-five miles west of Albany, on a good road. Persons leaving New York in the evening boats for Albany, arrive at the Sharon Springs the next day in time for dinner.

Advice and medicine furnished without charge until the patient is satisfied a cure will be made. Physicians having obstinate cases of scrofula, &c. may, by introducing me to their patients, have them cured on the same terms. BROADWAY AGAINST THE WORLD.

THIS noted thoroughfare is now admitted to be the greatest mart for the sale of gentlemen's wearing apparel in the United States, and the impression that has heretofore existed in the minds of many that "purchasers in Broadway are obliged to pay an exorbitant price for an article of dress," is fully rebutted, from the known reputation as to the charges established by EDWARD FOX, proprietor of the City Cash Tailoring Establishment, No. 202 Broadway. Here is an advantage to merchants and others visiting this city to avail themselves of an outfit from a very extensive assortment of ready made clothing, manufactured from the best materials and in the most fashionable style. The attention of the public is particularly called to visit this establishment and examine the late style of twilled and fancy Cassimere Office Frocks, designed for the approaching season.

Also, an assortment of rich Chene Velvet and Brocade Vestings, Fancy French Cloths and Cassimeres, by the late arrivals from the celebrated manufactory of F. Bioley Fils, and selected expressly for the spring fashions. Garments superbly made up to order, and if required at a few hours notice.

LADIES ARTEMIAN BRACE.

THE Subscribers offer to the special patronage of the Ladies, the PATENT ELASTIC ARTEMIAN BRACE, which must eventually prove an indispensable article of the female wardrobe. It combines, in its manner of construction, all the graceful proportions without any of the injurious tendencies of the corset—such as the unnatural compression of the chest, including the free and healthful action of the lungs, and its great tendency to bring on consumption, &c. &c. To children, of either sex, who have acquired the habit of stooping, they will be found highly beneficial—possessing the corrective power of keeping the person erect and the shoulders symmetrical. It will improve the outline and general appearance of the figure, strengthen and expand the chest, and will not impede the free use of the arms. For the better and speedier accomplishment of the Ladies favoring them with their patronage, the subscribers have opened an apartment, devoted exclusively to their accommodation, which will be under the immediate superintendence of a Lady perfectly acquainted with the structure and fitting of the article.

THE MOST COMMON SAYING

is

that I

would not

give one bottle of

DR. SWAYNE'S COMPOUNDING SYRUP OF WILD CHERRY, for half a dozen of any other preparation. I have tried all the popular ones, but this stands unrivalled for the cure of the following diseases, viz: Influenza, Coughs, Colds, Consumption Spitting of Blood, Palpitation of the Heart, Whooping Cough, Tickling or Rising sensation in the throat, Bronchitis, Asthma, or weakness of the Nervous System, or impaired constitution from any cause, and to prevent persons from falling into a Decline, this medicine has not its equal.

And when too much calomel or quinine has been used, this medicine will prevent its evil effects on the system, and repair the biliary functions. As a proof of the above medicine giving great strength and clearness to the voice, a gentleman from Philadelphia, who has been using this Syrup, says that it is the greatest medicine to cry on he ever saw. Of course, the Minister or Lawyer who have to use their voices, would be equally benefitted. Reference will be given to the auctioneer, by calling at my office.

CAUTION—All preparations from this valuable medicine, the original Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY, are fictitious and counterfeit. Prepared only by Dr. Swayne, whose office is now removed to N. W. corner of Eight and Race streets, Philadelphia.

Agents—Dr. Wm. H. Milnor, cor
