☞ DOCTOR BRANDRETH'S ADDRESS TO THE PUBLIC.—There are in the world medicines adapted for the cure of diseases of every form and every symptom. And when men follow the instincts of their natures they use BRANDRETH'S PILLS for the cure of their maladies. And those who have done so, have not had cause for repentance with reference thereto. These Pills, are indeed, quietly becoming the reliable medicine of mankind; for all who use them in accordance with the printed directions, find so much benefit individually, that they recommend them to all such of their friends that may not at the time be enjoying good health. These universally celebrated Pills, take out of the body all diseased, decayed, or unhealthy particles; they eradicate everything from the human body contrary to its healthy condition. No matter of how long duration the complaint may have been, there is every chance of recovery when the Pills are commenced with, and it is utterly impossible for them to injure; nearly a century's use has proved them innocent as bread, yet all powerful for the removal of disease, whether chronic or recent, infectious or otherwise. We have an account to settle with ourselves as regards the pleasures and pains of this life. It is soon stated. Suppose you are highly favored by nature, having a sound mind in a sound body, the lot of but few. You cannot but be afflicted when you observe so much suffering from bodily infirmity around you; which neither riches, nor the palliative prescriptions of physicians are able to obviate.—Even the best health is insecure, unless a certain remedy can be used when the first advances of sickness come on. If then you would avoid this state of things, and if you are anxious to secure your own health, your judgment and long vigorous old age, take Brandreth's Pills; with them you can never err; and you will avoid all the miseries of an infirm, ailing existence. Let every one whose health is not perfect, take them daily for one month; instead of weakening you, you will find all your faculties of mind and body improved; all kinds of food will give you pleasure, and none whatever will disagree with you. Your digestion will proceed smoothly and pleasantly; your stomach will not require the assistance of wine, bitters, or drams; in fact you will soon learn these things are injurious. The reason it is easy to explain. Digestion is effected solely by the solvent power of the bile. This bile is made by, and is secreted from, the blood. It is produced by the same operation from the blood, as is the growth of the body, or any part thereof, as the bones, the hair the eye, or the nails. By the use of Brandreth's Pills you expel out of the body those corrupt humors which impede digestion, and cramp nature in all her operations. Those humors which produce Cancer, Rheumatism, Consumption, Piles; and, in fact, all the long catalogue of diseases to which humanity is subject but which are reducible to one, IMPURITY OF BLOOD. Custom has designated the name of the disease, by the place upon which the impurity of the blood settles or deposites itself; thus upon the lungs, consumption, upon the muscles, rheumatism; if upon the skin Erysipelas, and Leprosy; upon the knee, a white swelling; and wherever pain is felt or any feeling in any part of the body contrary to health, there the impurity of blood is endeavoring to establish its evil influence. So in costiveness it is occasioned by the impurity of the blood which has become seated upon the muscles of the bowels and which prevents the proper action of the bile to produce the daily evacuation of morbid deposites. But all these effects of impure blood are cured or prevented by the use of BRANDRETH'S PILLS. In a word, they will give the power and vigor to the human constitution it was intended to have by nature, and which it possessed before the absurd notions of the great advantages of Tonic or bracing, and mineral medicines were acted upon. Instead of finding your digestive powers and strength diminish, as you will be told by doctors and other interested persons, you will find your strength and digestion daily improve, and all the energies of your mind and body more lively and vigorous. You will soon perceive that you are every day adding to your well being, by these simple operations of ridding your body the noxious humors of the blood the source of all the pain and misery experienced in the human body. Such is the benign operation of Brandreth's Pills that they only take out of the body what is hurtful to it, thus producing its purification and its perfect health.

The Brandreth Pills are the best medicine for families and schools. No medicine is so well adapted for the occasional sickness of children. By having them in the house, and giving them when the first symptoms show themselves, the sickness will be the affair of only a few hours; and in scarlet fever, measles and worms, there is no medicine so safe and so sure to cure. It is all that should be used or that ought to be used. I speak as a father, and from experience.

Ladies should use Brandreth's Pills frequently. They will ensure them from severe sickness of the stomach and, generally speaking, entirely prevent it. The Brandreth Pills are harmless. They increase the powers of life, they do not depress them. Females will find them to secure that state of health which every mother wishes to enjoy. In costiveness, so often prevalent at an interesting period, the Brandreth Pills are a safe and effectual remedy.

There is no medicine so safe as this; it is more easy than castor oil, and is now generally used by numerous ladies during their confinement, to the exclusion of all other purgatives; and the Pills, being composed entirely of herbs or vegetable matter, purify the blood and carry off the corrupt humors of the body, in a manner so simple as to give every day ease and pleasure.

Man will be born to days of bliss compared to what has hitherto been his lot, weighed down as he has been by disease, infirmities and suffering, which no earthly power knew how to alleviate until this discovery was presented to the world. The weak the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, and the worst complaints are removed by perseverance without the expense of a physician. Adapted to all circumstances and situations, they are the best medicines ever invented for families, or to take to sea, preventing scurvy and costiveness, requiring no change of diet, particular regimen, or care against taking cold.

THE BRANDRETH PILLS are sold at 25c. per box, with full directions, at one store in every town in the United States. Let all who purchase enquire for the certificate, on which are fac-similes of the labels on the box, if like the Pills, they are genuine if not, not. There has yet been, I believe, no counterfeit of the new labels, and it is to be hoped there will not, for it is impossible to imagine a greater crime than that of making money by the miseries of mankind.

The public servant,
B. BRANDRETH, M. D

Principal Brandrethian office, 241 Broadway, New York—the retail offices are 241 Hudson street, and 274 Bowery. Mrs. Booth is the agent in Brooklyn, No. 5 Market street, and J. Wilson, Main street, Jersey city. Parker, Broad street, Newark. Price 25c with full directions in English, French, Spanish, Portuguese, German.

☞ TO ELDERLY GENTLEMEN AND OTHERS who have had the misfortune to lose their hair, we would with confidence recommend Oldridge's Balm of Columbia, which never fails to prevent the hair from falling out, and in many cases has restored the hair upon the heads of persons who had been completely bald. As an article for dressing the hair, it is unsurpassed; it gives it a gloss, beauty and delicacy of feeling before unknown. Sold at No. 21 Courtlandt street, and by the true agents of Comstock & Co. in every town in the Union.

☞ I AM AUTHORIZED TO APPOINT AGENTS of good standing throughout the United States, for the sale of Blackwell's Ant Acrid Tincture and Scotch Renovator. Terms made known by applying to R. S. Bernard, 97 Nassau street, New York, general authorized agent for the United States. For Sale by Warren W. Page, agent for Boston; Backus & Bull, agent for Troy.

☞ CONSTITUTIONAL DEBILITY CURED.—The Tonic Mixture, prepared by the College of Medicine and Pharmacy of the city of New York, is confidently recommended for all cases of debility produced by secret indulgence or excess of any kind. It is an invaluable remedy for impotence, sterility, or barrenness (unless depending on mal-formation.)

Single bottles $1 each; cases of half a dozen $5; carefully packed and sent to all parts of the Union.
Office of the College of Medicine and Pharmacy 9 Nassau street.
W. S. RICHARDSON, M. D., Agent

☞ EXTRACT FROM A LECTURE ON FASHION, by N. P. Willis, Esq.:—

Ladies and Gentlemen—I hope
You have heard of Gouraud's Italian Soap?
'Tis the very best thing you can buy until
You can procure his remarkable Poudre Subtile.
Ladies! you must'nt wear down on your faces,
Beards were never in vogue with the Graces!
Gents! your skin must be clear and pure,
Or the belles wont look at you, you may be sure.
Of each and all I beg and entreat,
You'll go to 67 Walker street,
Gouraud will supply you with all you desire,
And leave nothing on earth in his line to desire.

Gouraud's Chemical preparations for beautifying the skin, are to be had in this city only at 67 Walker street, first door from Broadway. Beware of worthless counterfeits.

☞ THE PILES.—How many suffer from this complaint, and have been subjected to its attacks for years thereby frequently causing detention from business, and sometimes even a complete prostration. Such attacks might be prevented, and the complaint entirely cured, by the use of Hoy's Liniment. Numbers in this city have used this remedy, and experienced immediate relief, and are now well. It is not a new medicine but one that has been in use for the last fifteen years, and its certainty in curing the Piles is now established. Sold at 21 Courtlandt street.

☞ "BEWARE OF THE DESTROYER."—Use the proper medicine and you will be safe! Mr Harnburger whose child was nearly killed by worms, heard of Dr Sherman's Worm Lozenges; he used one box. The first dose the child took brought away ten feet of the tape worm, and two or three doses restored the child to perfect health. He has since then recommended them to many families in Beaver Meadow, Pa., the place of his residence, and never knew them to fail in a single instance in producing the desired effect. Many physicians had attended his child, and could not benefit it, nor could they tell what ailed him. Go to Dr Sherman's 106 Nassau street, where you will get the genuine article, or to his agents 277 Hudson street; 188 Bowery; 77 East Broadway; 3 Ledger Buildings, Philadelphia; and 8 State street Boston.

☞ LOOK AT YOUR PANTRIES AND BEDROOMS—Have you Roaches and Bed Bugs in your house? A sure exterminator of these noxious vermin, may be had at 21 Courtlandt street.

☞ PROTECTION.—This significant word has a good deal of meaning protection by a tariff—protection by an efficient navy—protection by the laws of the land—and under the word protection, if properly noticed, we could have a history of the folly of people, legislatures and governments in every age and clime. Under this word protection our government, as well as all others, at all times have oppressed the industry of the countries over which they preside; under the pretence of protection, the industry of France has been oppressed from the time of Colbert down to the present. Examine the history of Spain, and it consists of nothing but protection. In fact we could here mention a thousand other kinds of protection, but the greatest of all is to be protected from sickness by the timely use of Bernard's Diarrhœa Medicine. You can always be supplied with this great protection by calling on R. S. BERNARD, 97 Nassau st. For sale also by W. H. Milnor, corner of John street and Broadway. Warren W. Page, agent for Boston; Backus & Bull, agents, Troy; Rosevelt & Co., Albany. W. J. Mercer, Newark, N. J.; C. Inglis, Jr., Paterson, N. J.

☞ THE CHINESE HAIR ERADICATOR is the most wonderful compound ever invented for eradicating superfluous hair. This may seem incredible to some, but depend upon it the desired effect is certain. It may be tested before buying. Sold at 21 Courtlandt st.

☞ RICORD'S PARISIAN ALTERATIVE MIXTURE.—For the cure of primary or secondary Syphilis and all affections produced by an injudicious use of mercury. The great advantages possessed by this powerful alterative over all other preparations for the cure of Syphilis, is, that while curing the disease it improves the constitution, whilst mercury generally leaves a much worse disease than the one it is administered for. The best recommendation we can give of it is, that it is now extensively prescribed by the medical faculty, who formerly considered mercury the only cure for those complaints. Sold, in single bottles, $1 each; in cases of half dozen, $5, carefully packed, and sent to all parts of the Union. Office of the College of Medicine and Pharmacy, 96 Nassau street.
W. S. RICHARDSON, M. D., Agent.

☞ IT IS ALLOWED BY THE MOST SKILFUL practitioners in physic and surgery, that no distemper incident to the human body is so difficult to be cured as stubborn gleets and seminal weaknesses, from whatever cause proceeding, and their consequences are no less dangerous than their cure is difficult; since they extremely weaken and debilitate the generative powers, render feeble and inactive the whole nervous system, frequently occasion hectic heats, pains in the back, or a nervous consumption, which, if not prevented by some powerful remedy, terminate in death itself. Such, therefore, as have the misfortune to be afflicted with either, or all of these diseases, are guaranteed a safe and effectual remedy in Dr. Blackwell's Ant Acrid Tincture and Scotch Renovator. R. S. Bernard, 97 Nassau street, New York, is the only authorized agent for the United States. I have appointed Warren W. Page, agent for Boston, and Backus & Bull, agents for Troy, New York.

O man, the noblest work of Nature's God,
Sublime in thought and action—can it be
That 'tis his wrath confer'd, his chastening rod,
Work'd on thee thus before eternity.
Thy form, so grand; thy mind, so vast—and yet
Nature disgraced is mark'd upon thy face
In yellowness, in sallowness. Oh, deep regret
Can naught those vile eruptions, tan, erase?
Yes—science, man, has form'd a wondrous soap,
Call'd Jones' Soap, that for all skin disease,
Will wonders work—tan freckles, all elope,
Even at its touch, with mildness and with ease.

☞ Many persons suppose that this Jones' Soap is all "leather and prunella," because it is puffed in the papers, and because they have been swindled by vile counterfeits of it. 'Tis not so. We positively and honestly avow and pledge our word that if persons buy the real and genuine Jones' Italian Chemical Soap and use it, it will remove any disease or disfigurement of the skin such as pimples, freckles, blotches, sun-burn, morphew, scurvy, erysipelas, and it will actually change dark, sun-burnt, or yellowish skin to a fine healthy clearness, softness, smoothness and whiteness. Reader, be careful that you buy it nowhere else in this city but at the sign of the American Eagle, 82 Chatham street, or 323 Broadway. Agents 139 Fulton street, Brooklyn; 8 State street, Boston; 3 Ledger Buildings, Philadelphia, and Pease, Broadway, Albany.

☞ COMSTOCK'S SARSAPARILLA.—For the removal and permanent cure of all diseases arising from impurities of the blood, or ill effects of mercury, viz.—

Scrofulous Affections,	Bilious Diseases
Hereditary Affections,	Affections of the Liver,
Swellings of the Bones,	Skin,
Pimples and Sores upon the Face,	Habitual Costiveness,
Saltrheum, Scald head, and all Cutaneous Diseases.	It also greatly improves and beautifies the complexion, and dispels all sallowness, &c. &c.

This Extract of Sarsaparilla has now been in use for several years, and during that time, the numbers that have been cured of scrofulous affections, hereditary diseases and constitutional debility, is a sufficient recommendation for the article. All who are afflicted with cutaneous diseases, may reply upon it that this preparation contains no mercury, and as a general alterative and purificator of the system, there is nothing before the public which can equal it. Let the public recollect, for their own interest, that the price of this Sarsaparilla is only 50 cents per bottle, or $4 per dozen—just half price of any other. Sold at 21 Courtlandt street.

☞ VELPEAU'S SPECIFIC PILLS FOR THE CURE of Gonorrhœa, Gleet, and all mucopurulent discharges from the urethra. These pills, prepared by the New York College of Medicine and Pharmacy, established for the suppression of quackery, may be relied on as the most speedy and effectual remedy for the above complaints. They are guaranteed to cure recent cases in from three to five days, and possess a greater power over obstinate discharges and chronic gleet, than any other preparation at present known, removing the disease without confinement from business, tainting the breath or disagreeing with the stomach. Price $1 per box.

Sold at the Office of the College of Pharmacy and Medicine, 96 Nassau street.
W. S. RICHARDSON, M. D. Agent

☞ WE HAVE MUCH FRIENDSHIP TOWARDS the human family, but here and there circumstances occur that harrow up our feelings. Often does the palled cheek and wasted form of some little urchin cause us to blush for that mother's want of affection to her own darling offspring. Day after day these helpless unoffending little creatures are doomed to suffer the pangs of agonizing death for want of such a remedy as Bernard's Diarrhœa Medicine. Cholera Infantum, Summer Complaints and all diseases of the bowels meet with prompt resistance and speedy cure by the use of this invaluable preparation. Proprietor's office, 97 Nassau street, New York. For sale also by Dr W. H. Milnor, corner of John street and Broadway; Warren W. Page, Boston, Mass; Backus & Bull, Troy N Y; Rosevelt & Co., Albany; W. T. Mercer, Newark, New Jersey; C. Inglish, Jr, Paterson, New Jersey.

☞ SICK HEADACHE.—Dr. Sphon's remedy for this complaint is always effectual. Whole families in this city, every member of which was subject to this complaint, have been entirely cured by this drink, and are now free from its attacks. Two table spoonsful of this Elixir will relieve the worst attack in a short time. Sold at 21 Courtlandt street.

MONEY MARKET.

Tuesday, Sept. 17—6 P. M.

Stocks are all down to-day. It is almost impossible to keep the run of prices. Yesterday there was a very general improvement, and to-day there has been a very general decline. At the Old Board Long Island fell off 1½; Canton 1¾; Mohawk ½; Harlem 1; Norwich and Worcester 1; Stonington ½; Reading Railroad ¾; Erie Railroad ¼; Farmers' Trust ¾. Ohio 6's closed at yesterday's prices. The sales were very limited, and the present appearance of the market indicates a further decline.—Money continues very abundant, and the rate of interest at four and five per cent. Foreign exchange continues firm at 9¾ a 10 per cent. There is at present very little doing. The Silvie de Grasse, for Havre, takes out $95,000 in specie. Domestic exchange continues very in active, and the quotations very much reduced.

DOMESTIC EXCHANGE, SEPT. 17, 1844.

Ireland		671 324
		£3 467,824

The stock of bullion shows a decrease of £258,000 on the month, and an increase of £3,254,000 on the year.

The Secretary of the Treasury sometime since issued a circular by which the Collectors and Naval officers of the ports of entry in the United States, were to be governed in charging duties on the articles referred to. Among others coffee imported into the United States, in the vessels of Netherlands, from Netherland ports, was ordered to be entered the same as if imported in American vessels. Coffee arriving in this country from the Netherlands in the vessels of that government, has been subjected to a duty of twenty per cent, while coffee imported in American vessels from the place of its growth, has been entered free. The Minister of the King of Netherlands complained to our Government of the manifest infringement of the treaty in existence between the two countries, and the circular of the Secretary annulled the clause of the Tariff at levying the duty, and ordered the conditions of the treaty to be hereafter fulfilled.

We annex the portion of the Treaty in relation to this subject:

"Goods and merchandise, whatever their origin may be, imported into or exported from, the ports of the United States, from or to the ports of the Netherlands in Europe, in vessels of the Netherlands, shall pay no other or higher duties than shall be levied on the like goods and merchandise, so imported or exported in National vessels. And reciprocally goods and merchandize whatever their origin may be, imported into or exported from the ports of the Netherlands in Europe, from or to the ports of the United States, in vessels of the said States, shall pay no other or higher duties than shall be levied on the like goods and merchandize so exported or imported in National vessels, &c."

This Treaty was made on the 19th of January, 1839, and this clause places the vessels of the Netherlands in many instances, on a better footing in entering our own ports than the vessels of the United States. According to the tariff act, coffee imported from Netherlands into the United States, in Netherland cottons, must pay a duty of twenty per cent—according to the treaty it should be free. A lengthy correspondence of this subject has recently taken place between a very extensive Baltimore house and the Secretary of the Treasury. We annex two letters showing the point at issue.

BALTIMORE, 31 September, 1844.

To THE HON. GEO. M. BIBB, SECRETARY OF THE TREASURY, WASHINGTON, D. C.:—

SIR—On application at the Collector's Office of this port, for return of duties paid on the following importations of coffee:—

1842. September 23, per Metamora, Capt Lowe—300 bags Sumatra Coffee: duty $546 60
1844. February 21st, per Katharine Jackson, Capt Stafford—200 bags Java Coffee: duty 330 20
Total $876 80

We were informed that your circular of August 5, instructs the Collector to return the duty on coffee, levied by Dutch vessels, whereas no such return would be made for importations by American vessels. Such a measure would so manifestly injure the national flag that we cannot think this course of action was contemplated by your Department, and we therefore respectfully request a consideration of our above claim, and your reply at your earliest convenience. Remaining,

Your obd't servants,
(Signed) OELRICHS & LURMAN.

TREASURY DEPARTMENT, September 6th, 1844.

To MESSRS. OELRICHS & LURMAN, BALTIMORE:—

GENTLEMEN—Having referred your letter of the 3d inst. to the Collector of Baltimore, for a report of the facts of the case presented, I learn that the coffee in question, although originally from Java and Sumatra, was imported into the port of Baltimore from Rotterdam, under which circumstances, as you will perceive by the enclosed circular instructions, being brought in American vessels, it becomes liable to a duty of 20 per cent ad valorem, under the provisions of the tariff act of 30th August, 1842, as an unenumerated article.

Very respectfully your obd't servant,
(Signed) GEO. M. BIBB,
Secretary of the Treasury.

The distinction made between the vessels of the two nations and the disadvantages under which American vessels labor, from the requirements of this treaty, are so unjust that the evil calls for the immediate attention of our government, and the earliest attention of Congress.—This is one of the evils arising from a hasty adoption of tariffs, and from the neglect of our real and national interests, to advance those of a few speculating politicians. The present Secretary of the Treasury has, since his acceptance of the office, been compelled, from the numerous complaints made by foreign powers, to alter and modify the present tariff act in more than half a dozen cases, to prevent its any longer conflicting with existing treaties. The most aggravating case of all is the one in relation to the importation of Coffee from any other country than that of its growth. Any tariff act the Congress of the United States may pass, cannot conflict with existing treaties, and should a feature at any time be found so doing, the tariff act, or so much of it as interferes with such treaties, must be sacrificed. The politicians of the present day hardly give these things a thought, or either through ignorance adopt an act containing these objections. The only end considered is the advancement of the particular party they may happen to belong to. Such discoveries as those made by the present Secretary make it more important that this tariff act should be taken up and thoroughly overhauled and modified. It is the very quintessence of free trade to extend facilities to the vessels of other nations, greater than those extended to our own. This even goes beyond the most liberal system of free trade demanded by the most ultra free trade advocate. The Secretary of the Treasury has no alternative, the treaty taking precedence; our commercial interests must for a period, suffer, as the trade heretofore carried on, through the Netherlands, must, hereafter, suffer serious restrictions. It is stated that the advantages resulting from the treaty in favor of the vessels of the Netherlands in the ports of the United States, are fully compensated by the advantages resulting from the treaty in favor of the vessels of the United States in the ports of the Netherlands. These advantages are not an offset to the effect of the policy on our own shipping, as it is a position no other nation in the world would adopt.

Ship Masters and Agents.

We shall esteem it a favor if Captains of Vessels will give to ROBERT SILVER, Captain of our News Boats, a report of the shipping left at the port whence they sailed, the vessels spoken on their passage, a list of their cargo, and any foreign newspapers, or news they may have. He will board them immediately on their arrival. Agents and Correspondents at home or abroad, will also confer a favor by sending to this office all the Marine Intelligence they can obtain. Nautical information of any kind will be thankfully received
