WASHINGTON, Feb. 5, 1851.

The Leading Points in Congress To-Day.

The case is out—beyond the last possible chance of resuscitation, this session—the House has laid out cold and stiff the New York Branch Mint. It is useless to grumble about it. You must wait a little longer. We believe that the San Francisco branch has been the death of the bill. Southern men in favor of the New York branch, were opposed to San Francisco. They think that California has cost them enough already—that as much as the Californians ought to ask or expect, is the right to appropriate the public lands and the public gold dust free of charge, without putting the public treasury to the expense of erecting a mint for their convenience. A Southern gentleman informs us that had the New Yorkers consented to strike out the San Francisco branch, at least a dozen Southern votes could have been gained to the New York Mint. But the New York delegation were generous, and believed, till it was too late, that they could carry the branch for San Francisco upon the shoulders of the Empire City. The subject goes over to the first Monday in December next. The question then presented, ought to be, and probably will be, the removal of the mint from Philadelphia to New York. The Pennsylvanians having refused a compromise, they will next be called upon to meet the direct issue of the removal of the mint from an interior town to the centre of trade and exchanges, divested of all other appendages. And before the next Congress expires, the thing can be done, provided always, the New Yorkers take the thing earnestly in hand.

In the Senate to day, Mr. Hamlin reported a bill providing for a monthly line of mail steamers, between the United States and Rio Janeiro, in the empire of Brazil It authorizes the Postmaster General to enter into a contract with Ezekiel Lincoln & Co., of Philadelphia, for one-half—the other half to be taken in New Orleans, for four mail steam propellers of a thousand tons burthen, to run between Philadelphia, New Orleans, and Rio Janeiro. Good enough bill, but very likely to go by the board.

Mr. Foote, from the Committee on Foreign Relations, to which committee a large number of memorials from peace societies had been referred, recommending arbitration for the settlement of difficulties with foreign nations, instead of resorting to war, made a report on the subject, concluding with a resolution recommending the adoption of a principle to be followed up in our treaties with foreign nations, so that under the stipulations of such treaties, in cases of international disputes, they shall be referred to arbitrators for settlement, before resorting to war. If such an obligation had existed in 1846, it is almost certain that we should have had no trouble about Utah, New Mexico, and California; or in the gathering and disposing of the gold dust, or in the settlement of California land titles, or in the location and expenditure upon California dry docks. Whether the resolution is intended to put an extinguisher to all further annexation projects, of course we do not know; but it will be the effect of such a measure to suppress all Sierra Madre, Lower California, and Cuba expeditions for the future; and we doubt not that Mr. Webster and Mr. Foote have had some deliberations on this very subject, including the difficulty with John Bull, in Nicaragua. The resolution lies over for further consideration.

Mr Bright has given notice of a bill to amend the Fugitive Slave law. We understand this bill is intended to put the screws to refractory marshals and commissioners, and to increase the pains and penalties for resistance to the law. Such a bill is, no doubt, suggested from the treasonable opposition given to the law in the North, and a bill of increased punishments for disobedience will, doubtless, be a perfectly safe movement on the part of Mr. Bright; but we apprehend any attempt to pass such a bill, this session, will only revive the agitation which is now so rapidly dying out, and afford the very capital which the abolitionists desire.

Mr. Hunter's Warehousing bill is one of those incidental revenue measures necessary to give efficiency and fairness to the existing laws; and as it is recommended by the Secretary of the Treasury, as a measure of necessity, there is every reason to expect that this bill, and the bill for four appraisers at large, will both be passed, cutting off all the high tariff experiments to load them down, when they get to the House, with amendments, for the benefit of cotton factors and coal and iron captitalists.

Another Fugitive Slave Arrested—Singular Case—Acquittal on a Charge of Manslaughter, &c.

A colored woman was arrested, early this morning, in Kensington, as the fugitive slave of William T. J. Purnell, of Worcester county, Maryland—having been absent since 1829. She has six children, the oldest being seventeen years and the youngest an infant at the breast—all born in this State. Her husband is also in custody, as the slave of another person in the same county. She was arrested by the name of Mahala, but is known by her owner as Tamor Williams. Her husband owned the house in which they lived at the corner of Fifth street and Germantown road; and the fugitive has been a member of the Union Methodist Church since the birth of her first child. She was first taken before Commissioner Ingraham, who postponed the hearing until four o'clock this afternoon; but the counsel for the defendant, dreading the hasty decisions of that officer, brought her before Judge Vane on a writ of *habeas corpus*. The hearing came off about one o'clock; when R. C. McMustrie appeared for the claimant, and Wm. S Pierce and D. Paul Brown, Esqs., for the fugitive. Five of her children surrounded the unfortunate, and she evinced the utmost distress of mind at the prospect of being torn from them. The long absence of twenty-two years, will render it difficult for the claimant to prove her identity; and many nice points of law will doubtless be raised by her ingenious counsel to baffle the object of the claimant. The Judge postponed the consideration of the case until three o'clock to-morrow afternoon.

The car driver, alluded to yesterday as being under trial for involuntary manslaughter, in causing the death of an aged female, has been acquitted by the verdict of the jury in the case.

Superior Court.

Before Hon. Judge Mason.

FEB 6—*Henry Robinson against Richard Venables.*—This suit is brought to recover the amount of a note, with interest, for $350, made by the defendant to the order of one John Pemberton, and endorsed by him and one Arthur Mooney. The making of the note was admitted by defendant's counsel; but it was contended by him that the note was fraudulent and void for the reason that it was taken in violation of a composition deed entered into between John Pemberton and his creditors—said creditors, of whom plaintiff was one, having, in said composition deed, consented and agreed to take ten per cent upon the amount of their claim—and that this note of $350 was the result of a private arrangement between the plaintiff and Pemberton, by which the plaintiff was to receive that amount in addition to the ten per cent above alluded to. Verdict for plaintiff for amount of note and interest, $373 75.

Mark Stephenson against The New York and Harlem Railroad Company.—This suit is brought by the plaintiff, who is a physician, to recover of the defendants the sum of $227 50, for surgical and medical services rendered by him to a child which was run over by the cars of the defendants on the 9th of June, 1849, in this city, near Broome street. The defence is, that the superintendent who employed plaintiff, if he did so employ him, to give his professional services to the child, had no authority from the company for that purpose. A motion for non-suit was pending at the adjournment of the court.

Before Judge Duer.

FEB 6—*Wm. Caldwell vs. Thos. Murphy.*—This is an action of trespass, to recover damages for the death of plaintiff's child, and for injuries received by the plaintiff himself, by the upsetting of one of defendant's stages. The defendant is owner of a line of stages which plies between Harlem and this city, and in November, 1849, one of these stages, (on the top of which was the plaintiff and his child, a girl two or three years old) while passing through the Third avenue, was driven against or came in contact with a large stone, and was upset. In consequence of which the child was killed, and the plaintiff was, as he alleges, so much injured that he has since been unable to follow his usual occupation. He further alleges, that the stage was full of persons, both inside and outside, and that the occurrence was the result of the negligence of the driver, and of the weight of the unusual number of passengers in the inside and outside of the stage. The evidence for the plaintiff was not closed when the court adjourned, so that the defence is not known. It is, however, supposed, that the defendant will seek to show that it was one of those accidents over which the driver had no control.

Court of General Sessions.

Before the Recorder and Aldermen Franklin and Dooley.

FEB. 6—*Sentenced.*—Thomas H. Johnson, black, who was yesterday convicted of grand larceny, in stealing a watch from Mr. John A. Ridgway, of No. 220 Broome street, was this morning sentenced to the State prison for the term of two years and six months.

Convicted of Petit Larceny—Second Offence.—Charles Hayden, who has been repeatedly tried and convicted of petit larceny, was this morning placed at the bar, to stand his trial for "petit larceny, second offence." The larceny with which he was charged consisted in his stealing $8 in money from the till of Charles Clawson's grocery store, at the corner of Anthony street and West Broadway. The offence charged was proven, and the record of a former conviction in the Court of Special Sessions was produced. The jury returned a verdict of guilty, and the court sentenced Hayden to the State prison for two years and eight months.

Pleaded Guilty to Stealing Money.—A woman named Mary Hennessey pleaded guilty to a charge of grand larceny, in stealing $106 in money from John Lynn, of No 196 Franklin street. She stated in her examination that she had "been great" with the complainant for some months, that he was about to forsake her, and she took the money, as she thought she had a right so to do. The court sentenced her to the State prison for two years.

CITY TRADE REPORT.

THURSDAY, Feb 6—6 P. M.

ASHES.—There was increased heaviness in the market for pot ashes to-day, with only a very limited demand, at $6 62½ per 100 lbs. Pearls continued firm, but quiet, at the same rate. Only 50 bbls. have been sold since our last report.

BREADSTUFFS.—*Flour, &c.*—Western and State flour ruled dull and heavy, with only a moderate local demand. There was nothing of importance doing for the East or for shipment. The inferior grades of State were less firm, and there was more pressing on the market. Other qualities have not varied. The transactions of the day did not exceed 3,500 barrels, closing at $4 31 a $4 50 for No. 2 superfine; $4 68 a $4 75 for ordinary to straight State; $4 75 a $4 81 for common Ohio by the way of New Orleans; $4 81 a $4 94 for mixed to straight Indiana and Michigan; $4 94 a $5 for fancy do.; $5 a $5 06 for pure Genesee; $5 25 a $5 44 for fancy Ohio; $5 25 a $5 50 for fancy Genesee; $5 62 a $5 75 for extra Ohio, and $5 75 a $6 62 for extra Genesee. A moderate demand existed for Candian; the firmness of holders, however, restricted the sales. Some small parcels were selling at $4 75 a $4 81½. Southern flour was more plenty, and with a very light local inquiry, prices favored the purchaser. The transactions reached only 500 barrels, at $4 94 a $5 06 for mixed to straight brands, and $5 25 a $5 62½ for fancy. In rye flour very little change has taken place, but the market was less active, the sales amounting to only 50 barrels at $3 87 a $3 94. Corn meal was quiet, though firm. Jersey, in lots, brought $3 12½, and Brandywine $3 25. A moderate business was done in buckwheat fleur, without marked change in value. We quote at 70c. a 75c per bag of 25 lbs., $2 25 a $2 37½ per 100 lbs, and $4 75 a $5 50 per barrel. *Wheat* was more plenty, but buyers and sellers being as wide apart as ever in their views, no sales of moment transpired. Purchasers could be found for Ohio wheat, for milling, at $1 03 a $1 05; but this rate would not be accepted by owners. In Canadian, the tendency was downward, and the market nominal at $1 05 a $1 12. *Oats* were in fair demand, and the market continued firm, with sales of Jersey at 47c. a 49c.; River, at 49c a 50c.; and Canal and Canadian at 50c. a 51c. *Barley* remained in light supply, and if anything, more wanted at $1 a $1 12½. The lower rate could be easily obtained for poor samples. There was more disposition displayed by holders of *Rye* to realize, and the market, in consequence, was well stocked; large parcels could not be sold without owners submitting to a material decline. Some trifling lots were run off at 78c. a 79c., showing a slight reduction from the quotations given in our last. There was more activity in the market for *Corn*, but at lower rates. The demand for immediate use was fair, and the sales reached 10 000 bushels new Southern yellow at 66½c. a 67. A moderate inquiry prevailed for it, to arrive, and we heard of sales of 15,000 bushels Western mixed, for July delivery, on terms not made public.

BRICKS.—In North River hard there was but little doing, and prices were easier. Sales were making today at $7 50 per M, cash.

COCOA.—The operations within a few days include 300 bags Para, on terms not ascertained. It was taken for domestic consumption.

COFFEE was less active to day, without important change in value. The sales were confined to 50 bags Rio, at 11½c., and small lots of other descriptions at former rates.

COPPER.—The market for new sheathing was firm, and the business doing was fair at 21½c per lb. Old copper and yellow metal were dull and firm, with sales of the former at 18½c., and of the latter at 16½c., 6 months.

COTTON.—The letters per the steamer Canada were rather more promising than the printed advices, and it was consequently easier to sell to-day—the business reaching 1,200 bales at ⅛ a ¼c. decline. We omit quotations for the present.

FEATHERS.—The last sale of western live geese was at 35c. cash, for good. Prime were held firmly at 37½c., with a moderate business doing.

FISH.—New Massachusetts mackerel were in some request, but prices were scarcely so firm. No 1 sold from store at $19 a $10 12; No 2 at $9 a $9 12½ and No. 3 at $5 87 a $6 12. A cargo of Halifax, just arrived, was held at $11 for No. 1; and $10 for No. 2. There was but little movement in dry cod, for which the market was quite nominal at $2 87. A cargo of 800 quintals, received here a few days since, was held at this price. Gibbed herring sold to some extent at $3 12 a $3 25. Box herring were quiet and firm at 50 and 60c., for scaled and No. 1 respectively.

FREIGHTS.—Rates were some firmer to-day, owing chiefly to the advance in Southern ports, which has induced several vessels to be ordered south, and especially to Mobile and New Orleans. A private despatch received in town from New Orleans, quotes freights at ⅝d For Liverpool, to day, cotton was offering pretty freely at 3 16ths Flour stood at 9d. There was but little grain offering, and rates were nominal. Dead weight varied from 12s a 15s. To California, clippers were making engagements at 75c. a 86c. per foot measurement, and ordinary sailing vessels at 40c. a 50c. There was no change in rates to Havre or London.

FRUIT.—The market, as is usual at this time of the year, was very quiet to day, and the only sale we heard of was one of 350 boxes bunch raisins at $1 80 a $2 12; the latter rate for a choice article.

HAIR.—Of Buenos Ayres mixed, some 15,000 lbs. have changed hands, at 18c., usual credit.

HAY was steady but not active; 250 bales sold at 75c. cash, for Staten Island.

HOPS were in moderate demand, and firm at 30c. a 35c. cash, for Eastern and Western.

IRON.—Further sales of 200 tons Scotch pig were made at $21 50 a $22, 6 months, chiefly to arrive. The stock here was limited and holders generally demanded an advance.

LIME has been without change of interest, but rather quiet. 300 barrels common Rockland brought 95c. cash.

MOLASSES.—New Orleans was in good request for the city trade, and with a steady market. Some 300 barrels were disposed of at 36c., short time. Nothing doing in other qualities.

NAVAL STORES were firm, but not very active. The transactions embraced 50 a 100 barrels spirits turpentine, at 34c. cash; 100 barrels common North county rosin at $1 27 from yard and 50 barrels white rosin at $2 50.

OILS.—There was a steady feeling in the market for whale oil, and selected lots were saleable at 45c. At the East, 1,000 barrels changed hands a few days since, at that rate; and 1,400 bbls. crude, at 42½c. cash. Linseed was firm, with an upward tendency; and sales of 3,000 gallons, at 90c a 91c. cash, for American from store. An invoice of English, expected to arrive here about the end of the month, was held at 88c., with 83c. bid.

PROVISIONS.—Pork—The market for old was dull and heavy to-day, with a slight tendency in favor of buyers. Sales of 300 barrels were made at $12 06 a $12 12 for mess; and $9 12 a $9 18 for prime. New was preferred to old, and holders of this description were not disposed to force sales. New Ohio mess was in fair demand, at $13 25, and prime at $11. Dutchess county mess was scarce and firm, at $14; and clear ditto at $15. Beef moved to the extent of 250 bbls. at unchanged rates, including 150 bbls. old prime at $4. Dressed hogs were nominal, and very quiet at 6¼c a 6¾c. Beef hams were dull and quiet at $15, and prime mess beef at $15 a $16. Cut meats were scarce and wanted at 8c. a 8¼c for plain and extra sugar cured hams; and 5¾c. a 6c for shoulders Lard was pretty active and firm, with further sales of 150 bbls. old and new at 8¼c. a 8½c. Butter and cheese remained as noticed in our last, with a fair business doing.
