## INSURANCES.

LIFE ASSURANCE.—NATIONAL LOAN FUND LIFE Assurance Society of London.—General Agent's office, 71 Wall street, New York, April 1, 1851.—Capital $2,500,000, and surplus $412,271.—The withdrawal table of the society affords to the assured, who may take out their policies under these tables, the greatest possible present and prospective advantages that can be conferred by life assurance. On this table the assured is entitled, at any time, to receive at interest an immediate advance, to the extent of one-half the amount of the paid annual premiums, without security, personal liability, or deposit. He has policy, but by simple endorsement thereon; or the half premium may be so withheld during the whole continuance of the policy. Also, in the event of the assured at any time not requiring to continue the policy, on its surrender, one-half of the annual premiums will be returned by the society.

At the last annual investigation, reported in May, 1850, the bonuses declared to the assured were—the option of a return of 15 per cent on their premiums in cash, or a reversionary addition to the original sum assured by each policy, varying from 20 to 65 per cent.

Examples of bonuses, already declared, will be found in the society's pamphlet, together with tables of rates, and other information, on application to 71 Wall street, or at any of the agencies, free of expense.

A party may, at a moderate annual premium, insure for life; and if he survives to reach the age of 60 years, the full sum insured, up to $15,000, will be paid to him; or if his death occur before that period, the sum assured will be paid to his family or legal representatives.
