The total amount put upon the market during the past week was $1,057,149; last week, $741,923; week previous, $920,813. It will be seen that there has been a slight increase in the quantity and value of foreign dry goods put on the market during the week ending the 17th inst., compared with the week previous. The importation continues large for the season, and the aggregate is far in advance of last year. There has been a more active demand during the past week for dry goods of all kinds, and the probability is that we shall have for several weeks after canal navigation is resumed, a pretty brisk business in this branch of trade. There is, however very little prospect of any important improvement in prices.

The amount of coal transported on the Reading Railroad during the week ending the 17th inst., was 31,179 tons. Total this season, 513,204 tons. Same time last year, 304,269 tons. Increase, 208,935 tons. The Schuylkill canal brought down 12,132 tons. Total this season, 25,418 tons. The Lehigh canal brought down 16,196 tons. Total for the season, 29,897 tons.

Books for subscription to the capital stock of the Tremont and Mount Eagle Railroad Company, will be opened in Philadelphia on the 14th of May. The capital authorized by the charter, with power to increase it, is $200,000, or 10,000 shares at $20 per share. This road is an extension of the Mine Hill and Schuylkill Haven Railroad, from Tremont in Schuylkill county, to the Dauphin and Susquehanna Railroad, near Mount Eagle. It is ten miles and a half long, and, when completed, will form a complete connection between the Reading and the Central Railroad. The business of this road promises to be valuable in supplying Schuylkill county with lumber and agricultural produce from the valleys of the Susquehanna and Juniata, which is estimated at $2,000,000 annually, and which is now chiefly wagoned, at great expense, a distance of from thirty to sixty miles. It will also open a fine anthracite coal field, and bring to the Schuylkill Navigation, Union Canal, and Reading Railroad, the semi-bituminous coal of Dauphin county.
