French Hats.—Amidon, 649 Broadway, has just received an invoice of splendid French Hats, new year pattern, to which the attention of gentlemen is invited. F. H. AMIDON, 649 Broadway.

Gentlemen's Hats, Spring Fashion.—Warnocks, 375 Broadway, Irving House, will introduce their spring style Hats on Saturday, the 14th February. The beauty and suitableness of this forthcoming pattern warrant us in anticipating for it universal acceptance.

Excelsior.—Beebe & Co., Fashionable Hatters, No. 156 Broadway, respectfully solicit the attention of their patrons and the public generally, to the Spring Fashion for Gentlemen's Hats, which they will introduce on Saturday, the 14th day of February. B. & Co. feel assured that this style will commend itself to the hat-wearing community, and will insure the same liberal patronage which they have heretofore received. N. B.—Hats of any style, to suit the most fastidious, will be furnished at the shortest notice.

Gentlemen's Hats—Spring Fashion for 1852.—There is no part of a gentleman's attire in which so much taste can be displayed with so great effect, as regards the "tout ensemble" of the person, as in the Hat. N. Espenscheid, of 107 Nassau street, will introduce the spring fashion on Saturday next, the 14th inst., and for perfection of contour, richness and durability of fabric, and general "distinguee" appearance, it most certainly surpasses any Hat hitherto brought before the New York public. When we consider that the standard price is Three Dollars and a Half, while hatters in Broadway charge four dollars for an inferior article, there is little to be wondered at that Espenscheid is so liberally patronized by a discerning public. He would wish it particularly understood, that the Hat which he sells at Three Dollars and a Half, on comparison, be not in every way superior to any of the hats sold in Broadway for four, he will, within a reasonable period of the time of buying, be willing to refund the purchase money to any one dissatisfied. He would say to those who wish to favor him with a call, that, while he presents a hat which he designs to be the fashion, he is ever ready to satisfy the taste and wishes of his customers, and will manufacture to order any desirable pattern of Hat which will be becoming to the wearer, both in shape and style. N. ESPENSCHEID, 107 Nassau street, corner of Ann.

Spring Fashion.—W. P. David, 301 Broadway, near Duane street, will introduce his Spring Fashion for Gentlemen's Hats this day, February 14. He is led to believe that this style will be generally admired. He gives an earnest invitation to gentlemen to call and inspect them.

Again Ahead! The First in the Field!!—Knox has outlived the severities of winter by devoting himself entirely to the perfecting of his spring style of Hat. We have seen it, a favor that Knox has denied to all else, and pronounce it, unhesitatingly, faultless in style, structure and appearance. In the manufacture of a hat could render a man famous, the production of this superb article would enrol Knox among the "few immortal names that were not born to die." Call this day and examine it.

Revolution—Louis Napoleon President. The citizens of France are looking on at the movements of Napoleon; but the citizens of New York are invited to look into the Broadway Hat Store, at the proprietor, this day the 14th day of February, 1852, introduces his Spring Style Hats, which are unsurpassed for style, elegance, and beauty by any hats now manufactured, which he sells for the low price of $3. His motto is, One quality, and one price. He offers every inducement to the wholesale dealers, and orders will be filled at the shortest notice. Sales room, No. 374 Broadway.

Hats that are Hats.—Coleman, 109 Nassau street, issues, this day, the Spring style of Hats, and he has produced the handsomest hat for $3 50 ever offered in New York at any price. Hats that are Hats.

Spring Fashion—Gentlemens' Hats.—The Hat Finishers' Union will introduce on Saturday, 14th inst., a new and beautiful style of Hat for the ensuing season, which, it is confidently expected, must meet with the approbation of the entire people. Standard prices, $3 and $4. HAT FINISHERS' UNION, No. 11 Park row, opposite the Astor House.

N. B.—This is the only chartered company of journeymen hatters formed for business purposes in this city.

Spring Clothing at wholesale.—We beg leave to call the attention of Western and Southern merchants visiting our city for spring purchases, to our stock of Spring and Summer Clothing, which was never so large nor so varied as our manufacture of this season. It embraces every new and desirable style, manufactured with all the taste and elegance for which our establishment is—we think—so justly celebrated, and our prices strictly low and uniform. D. & J. DEVLIN, 33 and 35 John, corner of Nassau street.

Commercial Bank, Perth Amboy.—E. EVANS, 70 and 72 Fulton street, redeems notes on this bank, at 25 per cent discount, for ready made clothing.

Shirts that not merely satisfy, but delight, the most fastidious—Shirts, in which the most keen-eyed connoisseur in dress cannot detect a blemish—Shirts, which fit as if the wearers had been made for them, instead of they for the wearers—are made to order at GREEN'S, No. 1 Astor House.

Watches and Gold Pens.—If you want a first rate watch, either gold or silver, and that is sure to give perfect satisfaction, call on J. Y. SAVAGE, 92 Fulton street. The Richlieu Diamond Pointed Gold Pens, celebrated for their great durability and fineness of finish, can be obtained only at 92 Fulton street.

Elegant Bridal Cards, Envelopes, Cake Boxes, and Bridal Wafers, of the latest and most fashionable style, can be had at EVERDELL'S, 302 Broadway, corner of Duane street. Mr. Everdell has a branch store at No. 13 Wall street, for the accommodation of his down town customers.

Fine Boots.—To entitle a Boot to praise, it should be made of the finest material; should be got up by an experienced workman in leather, and should fit the foot as if nature had manufactured it as a special instance of her handiwork. Such boots you always find at the store of E. A. BROOKS, 150 Fulton street, whose extensive stock of manufactured shoe leather is not eclipsed, if equalled, by any other dealer in the United States.

Advice to Invalids in Disease or Consumption.—Convince yourselves of the mighty truths of the divine science of electrical psychology as demonstrated by Professor Buchanan, Dr. Dods, and others; and mind I tell you it is as true as holy writ; produce the electro psychological state upon yourselves with Dr. Watt's preparation of electrical fluid or Nervous Antidote; and it is morally impossible to have disease in the system after. You may still require small portions to add to the nervous energy; but disease is broken from that instant. Depot 102 Nassau street. $1 a bottle; $9 a dozen.

Eye.—Drs. Wheeler & Robinson continue to devote their attention to diseases of the eye. Artificial eyes (of the finest Parisian quality) inserted without pain or inconvenience. These eyes move, and are in every respect equal in appearance to the natural organ. Shortsightedness cured. Office, 28 Barclay street. Hours from 8 A. M. to 4 P. M.

Cutting Hair and Whiskers skilfully, beautifully, and in every case entirely conforming to the shape and size of the head, as well as the entire physiognomy of the wearer, by HILL, the inimitable, corner of Pine and Nassau streets.

Gouraud's Liquid Hair Dye is without exception or reservation the very best ever invented; equally celebrated is Gouraud's Medicated Soap, for curing pimples, freckles, sallowness, chaps, chafes, roughness, &c. Poudre Subtile removes hair from any part of the body. Liquid Rouge, Lily White, and Hair Gloss, at 67 Walker street, near Broadway, and Callender, 88 S. 3rd. Philada.

Hair Dye.—Batchelor's celebrated Liquid Hair Dye is the best yet discovered for coloring the hair or whiskers, the moment it is applied. The wonderful ease and certainty with which this favorite and old established Hair Dye performs is astonishing. It is for sale, or applied, at BATCHELOR'S Wig Factory, No. 4 Wall street. Copy the address.

Startling Discovery.—The other day, whilst walking on the street, we were much surprised by a gentleman carelessly tapping us on the shoulder, whom we had just passed. At first we did not recognise him; but when he told us he wanted to pay us a small bill, we discovered it to be an old friend, who had been using Bogle's Electric Hair Dye and Hyperion Fluid on his hair and whiskers. The effect produced was so different, and his appearance so much improved, that we should not have known him if he had passed us a hundred times. Those who wish to change imperfections of this kind, we would recommend to purchase these articles at the store of A. B. & D. Sands, 100 Fulton street; Rushton, Clark & Co., 273, and J. Milhau, 183 Broadway; Wm. B. Cary & Co., 215 Pearl street; and by druggists and perfumers throughout the world.

Wigs and Toupees.—Batchelor's New style of Wigs are pronounced the most perfect imitation of nature yet invented. Those wanting a very superior article, should call at BATCHELOR'S celebrated Wig Factory, No. 4 Wall street, where can be found the largest and best assortment in the city. Copy the address.

Dr. Kellinger again on the Hair—Read, mark, and carefully digest what Mr. A. M. Bininger says, of 323 Greenwich street, the old established importing house of wines, brandies, cigars, teas, &c., so universally known over the United States and the Canadas.—DR. KELLINGER:—Dear sir—It is with great pleasure that I inform you that a short time since that Mr. Rowan, familiarly known as Judge Rowan, with whom I have been intimately acquainted for many years—I knew him to be bald for nearly twenty years—I had not seen him for a length of time—he called in at my store, took off his hat, and ask brushing up his hair. I discovered the change, and asked him what he had done. He informed me that he had used nothing but Kellinger's Magic Fluid. I must confess that I was greatly astonished; for I never thought that the human hair could be restored after being bald so long. For further and most astounding particulars, see advertisements in an other column.

MONEY MARKET.

FRIDAY, Feb. 13—6 P. M.

Reading and Erie Railroad nearly monopolize the attention of speculators in the stock market. At the first board, to-day, the transactions were to about the usual extent, and at prices current at the close yesterday. It appears difficult to move Reading up even a fraction of one per cent, and holders begin to feel the weight of the large lots of stock which have accumulated in their hands. Outsiders are shy, and will not touch it. They have now before them the expansion and explosion in Delaware and Hudson, and it would be almost insanity on the part of capitalists to buy such a worthless stock as the Reading, at anything like present prices. The clique who have inflated it must carry it. Like all cornering combinations, this is destined to collapse, and leave those who have figured up large profits on paper, not only minus their gains, but a portion of the amount invested. It is the easiest thing in the world to inflate prices for any fancy stocks, but it is one of the most difficult things to get outsiders to take the stock at prices ruling from day to day. If a certain number of speculators can command capital enough to carry the entire capital stock of any company, and are willing to hold it, they may inflate prices to any extent, but not otherwise; and the great cause of all the collapses in these operations is the want of means, and the impossibility of taking all the stock offering. If the parties engaged in the purchase of Reading Railroad stock really wanted it for investment, they could have bought all they wanted without putting prices up two per cent; but that was not their object. With a large quantity of stock in hand, at low prices, to begin with, they have bought considerable since, on time, buyer's option, at the advance. The bears have been getting shorter and shorter daily, and the bulls flatter themselves they will make the stock so scarce that it will be in their power to command any price, when certain parties come into the market to fulfil their contracts. This game has been practiced so often, and has so often failed, that it seems strange to us how men of shrewdness and experience can be induced to involve themselves in such a movement. At the close, to-day, Reading sold at a decline of ¾ per cent. Delaware and Hudson is running down faster than it run up. It fell off to-day 2¾ per cent, making the total depreciation, in less than three days, six per cent; Hudson River Railroad went down ¾ per cent; Canton Co., ¼; Nicaragua Transit Co., ¾. At the second board, Canton Co. fell off ⅛ per cent; Erie Railroad, ⅛; Morris Canal, ⅛. The market closed weak, and appearances are decidedly in favor of an important depreciation throughout the entire list. The spirit of speculation, except in Reading, has disappeared, and when that bubble explodes, the panic will carry prices for every other stock, down with it.

The receipts at the office of the Assistant Treasurer of this port, to-day, amounted to $79,050; payments, $44,180 28. Balance, $3,231,374 52.

The news from California, by the steamship Daniel Webster, from San Juan, is by no means calculated to give an upward impetus to the stock market. The steamship California, which left San Francisco on the 16th of January, for Panama, has on board only one million and a quarter of dollars in gold dust, of which $986,557 was for New York, $233,387 for London, and $30,499 for New Orleans. This we shall receive by the steamer from Chagres. The Daniel Webster, from San Juan, has $70,000 on freight. This does not look well, and our supply of precious metals is likely to be seriously reduced. The probability is that our exports this month will be double our receipts. From the mining regions of California our advices continue favorable; but the shipments of gold dust from San Francisco do not confirm the glowing accounts received relative to the product.

The revenue of the Baltimore and Ohio Railroad Company, for the month of January, amounted to $88,629 44, of which $64,628 55 were from the main stem, and $24,000 89 from the Washington branch.

The first annual report of the Cleveland, Columbus and Cincinnati Railroad Company gives the annexed exhibit of receipts and expenditures for the six months ending Dec. 1, 1851:—

CLEVELAND, COLUMBUS AND CINCINNATI RAILROAD.

The gross earnings of the road for six months, from June 1 to Dec. 1, were	$341,680 93
From which deduct running and other expenses	110,711 68
Balance, net earnings	$230,969 25
Appropriated as follows:	
Six months' interest on debts of the company	$56,315 00
Dividend on stock, (8 per cent)	102,012 99
Balance to reserve or surplus fund	72,641 29
	$230,969 29

From this statement it appears that out of six months' earnings a fund has been reserved of over 2 4-10 per cent on the entire cost of the road and equipments, or 5¼ per cent on the amount of capital stock issued, which is believed to be ample to provide for contingencies, cover depreciation, and insure regular dividends. The entire cost of the road, represented by capital stock funded and unfunded debts, on the 30th of Nov., 1851, was $3,025,888 27.

The annexed statement exhibits the value of foreign dry goods entered at this port, for consumption, for warehousing, and the value withdrawn from warehouse, during the week ending the 12th inst.:—

The value of foreign dry goods put upon the market during the week was $2,803,278. The amount warehoused last week was considerably less than usual. This will swell the aggregate for the month very much. The Pacific, from Liverpool, has a large cargo of dry goods on board, which will be entered so as to come in to next week's report.

The Auditor, Comptroller, and State Treasurer of Pennsylvania have furnished the annexed exhibit of the cost, revenue, and expenditures of each division of the public works of that State, up to the close of the last fiscal year:—

The Auditor says:—"The revenue comprises the amount actually paid into the State treasury, whilst the expenditures are made up of all disbursements (whether of an ordinary or extraordinary nature) attendant on or consequent upon the operation of the works. In short, it is believed that nothing has been omitted or erroneously included in the statement, to render it other than a full, fair, and unreserved exposition. The revenue strictly belonging to a particular line cannot, of course, be ascertained, as tolls are paid at the end of one line through to the termination of another. No other mode, therefore, could be adopted, than to apply the tolls to the several divisions, according to the offices at which they were received—the amount received at Northumberland being apportioned to the three lines terminating at that point. The course thus pursued, however, although it may affect the details somewhat, as to the question of profit and loss, when applied to a particular line, cannot, in any manner, do so with regard to the aggregate of the lines."
