**More than Oriental Splendor.—We talk of** Roman luxury and oriental splendor, but neither the seven-hilled city of old, nor the Ottoman capital now, could match the magnificence of our "business palaces." ## MONEY MARKET.

SATURDAY, June 19—6 P. M.

The stock market opened firm this morning, at prices current at the close yesterday. Operators in New Jersey Zinc have taken a fresh start, and have taken hold with great avidity. Nearly two thousand shares were sold to-day, at an advance of ½ per cent. Dauphin Coal Company went up 2½ per cent, with considerable activity. Pennsylvania Coal Company improved 1 per cent, on time; Florence and Keyport advanced ¾ per cent; Stonington, ¾; Nicaragua, ¼; Erie Railroad, ½. There is a better feeling among holders of this stock since the dividend, and there is now a greater probability of prices going above ninety, than at any previous time this season. Harlem just holds its own, and it appears to be difficult to do even that. Canton Company declined ¾ per cent; Norwich and Worcester, ¾; Long Island ¾. At the second board prices were well maintained, and in some instances an advance was realized. Pennsylvania Coal Company went up 1 per cent; Erie Railroad ¼; Canton Company, ¼; Panama Railroad, ¼.

The receipts at the office of the Assistant Treasurer of this port to day, amounted to $96,415 27; payments, $81,557 54—balance, $4,354,934 17.

The shipments of specie from this port during the week ending the 19th instant, inclusive, were as annexed:—

SHIPMENTS OF SPECIE FROM THE PORT OF NEW YORK.

| | | |
|---|---|---|
| Steamship Asia, Liverpool, American gold | | $807,350 |
| " | silver | 115,000 |
| | English do | 1,440 |
| Brig Clement, Malaga, French silver | | 18,400 |
| Brig Santiago, Gibraltar, American gold | | 16,000 |
| Bark Peytona, Cadiz, do. | | 20,000 |
| Steamship Herman, Bremen, American gold | | 4,000 |
| | German silver | 24,160 |
| During the week | | $1,006,355 |
| Previously reported | | 10,614,219 |
| Total for 1852 | | $111,621,274 |

In the month of June last the exports of specie amounted to $6,462,367. Up to the 19th instant, this year, the exports have been short of three millions. The shipments for the first six months of 1851, amounted to $19,093,506. This year they will be several millions below that sum. We shall soon again have another steamer in with a large remittance of gold dust from California, most of which will be added to the large amount now in the vaults of the banks.

The receipts of the Morris Canal Company, for the week ending the 12th instant, amounted to $5,514 77, against $3,089 97 for the corresponding week last year, showing an increase of $2,424 80. This looks well for a large revenue.

*Thompson's Bank Note Reporter* announces the appearance of one of the most dangerous counterfeits ever seen. They are fives on the Salem Banking Company, N. J.—Vignette, shield parting two females—the margin of medallion work—supposed to be of genuine die work. The only safety lies in rejecting all the issues of this denomination on the bank.

The Fitchburg Railroad Company have declared a dividend of three per cent; the Hamilton Manufacturing Company four per cent; and the Appleton Manufacturing Company three per cent.

The anthracite tonnage is again large this week. The Lehigh Navigation Company brought down 37,093 tons, the Reading Railroad 36,583 tons, and the Schuylkill Navigation Company 21,383 tons. Both the navigation companies are now ahead of their last season's business to the same time, notwithstanding the late opening in the spring. The Reading Railroad is 52,648 tons behind its last season's business to same time. The tonnage by the three lines is, however, some 25,000 or 30,000 tons ahead of last season's trade to same time; and, no interruption occurring on any of the several lines, the increase will probably continue on to the end of the season.

The subscriptions to extend the Susquehanna Railroad to Sunbury, it is said, amount to $1,040,000, including the $500,000 subscribed by the city of Baltimore, and $250,000 in individual subscriptions in Baltimore.

The Boston *Traveller* gives the annexed extract from the report of the investigating Committee to the stockholders of the Edgeworth Land Company of Massachusetts:—

In regard to the over issue of stock, it appears that under pressing embarrassments, chance to the number of 1,500 were given out as collateral by the treasurer, at the instance of some of the directors, without any other authority whatsoever. The shares thus pledged were sold by the party or parties of whom the loans were obtained, and subsequently repurchased and cancelled by the company at a profit of about $900. It was urged that this glaring excess of authority was necessary to meet the engagements of the company, and that failure must otherwise have resulted. The committee do not find in this excuse any justification for such an unwarranted exercise of power, the shares thus deliberately put forth, were, in point of fact, fictitious representations of property, and their utterance a gross deception upon the public and upon the shareholders. Temporary failure would, in the opinion of the committee, have been much preferable to the adoption of a measure which in effect is calculated to weaken public confidence, and to establish a precedent of the most dangerous character.

The committee would therefore express their unequivocal disapprobation of the act, in whatever plausible form it may be disguised.

After consultation with competent legal advisers, the committee are of opinion that the chartered rights of the stockholders cannot in this case be vitiated by the unauthorized acts of their agents.

The failure of the Boston Tube Company was a severe check to the prosperity of the Edgeworth Company. The suspension of work at the factory threw quite a large number of operatives out of employment. Some of them have been obliged to leave the grounds; but many yet remain in the expectation of the revival of that concern.

The assets of the concern are estimated at $184,938 88; the liabilities $29,604 78—leaving a balance of $155,333 60 for 26,500 shares.
