ASTROLOGY.

DEAFNESS CURED—A WONDERFUL CURE, AFTER a deafness of twenty-three years' standing. I was cured in six weeks by Dr. Rohack, and I can now, although sixty-one years old, hear as well as ever in my life. At different times, during my twenty-three years' deafness, I applied to some half dozen or dozen physicians, all of whom told me nothing could be done—that the drums of my ears were gone, and that nothing could be done to bring them back. I determined to call on him and be successed in making a perfect cure. Three weeks after I called on him, I could hear a little better, and in six weeks the triumph was complete, through the scientific conjurations of this great doctor. All my friends were astonished at this unlooked for result. I am extremely grateful to Dr. Rohack, and shall ever remember him with the liveliest emotions. Should any one who may read this be afflicted, I invite them to call on me at my residence in Gay street, opposite the Railroad, Monongahela, Pa.

FINANCIAL.

PROPOSALS FOR LOAN.—$200,000 $100,000 AND Hocking Valley (Ohio) Railroad First Mortgage Guarantee seven per cent Bonds, issued by the Hocking Valley Railroad Company, offer for sale $200,000 of their Seven per cent Mortgage bonds with Coupons.

They are in sums of $1,000 each, payable the 1st of November, 1873, with interest at seven per cent, coupons attached, 1st of November and 1st of May, in the city of New York, at the option of the principal on sales payable. They are secured by a first as family mortgage, or deed of trust, to A. P. H. Lander, Esq., of New York, in trust for the bondholders.

They are issued under acts of the Legislature of Ohio, authorizing them and the mortgage to secure their payment. The amount of bonds thus to be issued under the mortgage is $400,000, of which $100,000 have been disposed of or issued to the Company, and $200,000 are now offered for sale.

The mortgage covers that part of the road lying between the city of Portsmouth, on the Ohio river, and Jackson, in Jackson county, Ohio, a distance of forty-six miles, during the company, when completed, shall expend $200,000, in the first and only line thereon, and the only debt of the company. The whole line from Jackson to Portsmouth is under contract for completion, twenty miles of which are nearly ready for the rails. Two thousand two hundred tons of rails have been received at Portsmouth. Rails for the residue of the line have been purchased. The whole road to Jackson will be completed and in operation early next year.

The means to construct and equip this road are provided by stock and bonds. The sum of $400,000 has been subscribed to the capital stock of the company, about $300,000 of which has been paid in and expended on the line; the residue will be regularly paid on calls of the company. To raise the remaining means this loan is resorted to.

The mortgage gives full power to the trustee to take possession of the road, its personal effects, depots, grounds, &c., and to sell the same with its franchises to raise money to pay either interest or principal, in case of default.

This road is one of much consequence to that part of Ohio, and the country lying on the ohio river west of Pittsburg.

It is intended to extend it finally north to Newark, 100 miles from Portsmouth, where it connects with the roads to Sandusky and Cleveland.

For the present it is the purpose of the company to complete it to a point on the Cincinnati and Marietta road, 53 miles from Portsmouth, the eight miles lying between Jackson and the Cincinnati and Marietta road will be completed as soon as that road is made. The county of Jackson abounds in coal and iron ore to a greater extent than any other in Ohio, as will be seen by the geological report of that State; that report estimates the quantity of coal throughout that county and a portion of Scioto, equal to nine millions of tons per square mile, easily mined, and of superior quality, much of it superior to Pittsburg coal.

That iron ore, of good quality, exists in the same district, to the extent of three million of tons to the square mile.

This mineral wealth, so near to the Ohio river, has been of comparatively little value, for the want of facilities of transportation to market.

It is thought the transportation of coal and iron alone will afford a handsome support to the road. There are already some twelve furnaces in full blast on and near the line of this road, producing large quantities of iron for transportation to the Ohio river. This number will soon be doubled.

This road gives the nearest and most direct communication to the Eastern and Northern cities to this part of Ohio, and that part of Kentucky lying south and west of Portsmouth, including the populous towns around Maysville and Lexington, as the Cincinnati and Marietta road will connect at Wheeling with the Baltimore and Ohio Railroad and the Hempfield road.

Sealed proposals will be received for any sum not less than $1 000 until Thursday, the 8th day of July, at 3 o'clock, P. M. Proposals will be addressed to the agents of the Company, Messrs. Winslow, Lanier & Co., No. 52 Wall street, endorsed "Proposals for Scioto and Hocking Valley Railroad Bonds."

Twenty-five per cent of the purchase money will be required to be paid on accepting the bids, the remainder in equal monthly instalments of 25 per cent. Any purchaser will be at liberty to pay in full at once—interest on the bonds will run from day of payment.

The above $200,000 will be sold absolutely and without reserve to the highest bidder.

A printed exhibit, with a map and all necessary information in relation to these securities, can be had by calling at the office of the agents of the Company, No. 52 Wall street.
