A Card.—Steamer Prometheus, at Sea, August 14, 1852.—The undersigned, cabin passengers on the steamer Prometheus for San Juan have much pleasure in hereby tendering to the officers and owners a just tribute of praising. It is found from experience that justice has seldom meted out to the deserving. We think great injustice has been done to the officers and owners of this line, arising from the difficulties to always difficult to overcome in a new enterprise. We need not refer to the particular instances, for the public mind is already instructed on the subject. Suffice it for us now to add our names as living witnesses against the injustice done from many of the complaints referred to, for we have, in no instance, found a ship better regulated and furnished for the comfort of passengers. Mr Vanderbilt has, as far as we can see and learn, manifested a liberal spirit in not only the furnishing, but management of his steamers. Having honorably, and with his usual unswerving spirit, entered the field of competition, we wish him success. Captain Churchill we have found to be open, frank and a gentleman. Notwithstanding illness during a portion of the voyage, he found time to mingle with and cheer us by timely and social remarks. Purser Lord we consider an efficient and experienced officer. His varied unquestionable talents and easy manner have secured our regard. Mr. Siew, the chief officer and Mr. Pickering, the second, were faithful ever ready to make the ties home, and were often commended for their happy way in overlooking perfectly excusable faults on our parts, common at sea, and generally if not allowed, resulting in ill will. Mr. Sanders, the caterer of the steamer, has secured by his uncommon efforts to please, the good will of all. It has been generally remarked that he never was so well served before, from his as usual, social, and agreeable qualities. Dr. Owen, known to many California travellers, alike deserves commendation for his marked kindness and attention. The chief engineer, Mr Falls, has also our kind remembrance and thanks. The ladies tender their special thanks to the officers, as also to the excellent stewardess and waiters. Going about to part, across the Isthmus, we leave our best wishes, and trust amid the vicissitudes and changes of life, they may ever remember that in thus planting the seed of good will and fellowship, it may spring up on ground they may hereafter be treading on as strangers, and reap to them a cheering harvest. We also extend to Mr. Vanderbilt and owners our united thanks; and may their success in the great work of steam navigation, and cementing more closely together the West and binding the Pacific with the Atlantic, already so rapidly advancing the interests of the United States, continue. We say not this only to them, but to all now so nobly striving in the like laudable work.
