FINANCIAL.

PROPOSALS FOR LOAN.—$300,000 DAYTON AND Michigan Railroad seven per cent first mortgage convertable bonds.—The Dayton and Michigan railroad company offer for sale $100,000 of their mortgage bonds, with coupons. They are in sums of $1,000 each, payable the 1st July, 1867, with interest at 7 per cent, to be paid annually in the city of New York, on the 1st of January and the 1st of July of each year, where the principal sum is also payable. They are secured by a first and only mortgage, or deed of trust, to Joseph K. Varnum of the city of New York, in trust for the bondholders. They are issued under acts of the Legislature of Ohio, authorizing them and the mortgage to secure their payment. The amount of bonds thus to be issued under the mortgage is one million of dollars. They are convertible into the capital stock of the company at the option of the holder. The amount of bonds at present to be issued under the mortgage is three hundred thousand dollars, of which only one one hundred thousand dollars will now be offered for sale. The mortgage covers the entire line of the company, their property, real and personal, commencing at the terminus of the Cincinnati and Dayton railroad, at the city of Dayton, Ohio; thence by Troy, Piqua, Sidney, Delaware, Lima, Perrysburg, Maumee City, and Toledo, to the Michigan State line, in the direction of Detroit, one hundred and forty miles long. The mortgage provides that the company shall only issue, and the trustee certify under it, $300,000 of bonds; until after the road is finished and in operation to Sydney 36 miles; $200,000 more after the same is finished and in operation to Lima, 65 miles, and no more until the line is completed from point to point, and the money needed to purchase iron rails, &c. is the first and only lien thereon, and the only debt of the company. That part of the line lying between Dayton and Sydney is nearly graded and bridged, the rails have been purchased, and now in the course of arrival—will be completed and in operation by the first of June next. An arrangement has been made with the Cincinnati and Dayton road to run it for the present. The entire line from Dayton to the Michigan State line equipped for one year, is estimated to cost $2,500,000. That part lying between Dayton and Sydney, $650,000. It is the purpose of the company to complete the line to Sydney first, the residue from point to point continuously as the means of the company will permit. To complete the road to Sydney the company has an available stock subscription of about $400,000, which has been mostly collected and expended on the line. To raise the remaining means this loan is resorted to. Active measures are in progress by the company to raise the necessary stock subscriptions to complete the entire line. A considerable sum has already been subscribed. The entire line, it is expected, will be placed under contract for grading and masonry early next year, and completed within the year following. The mortgage gives full power to the trustee to take possession of the road, its personal effects, franchises, depot grounds, &c., and to sell the same to the highest bidder, to raise money to pay either interest or principal in case of default. The country through which the road passes, with its connecting link to Cincinnati, is not surpassed in resources by any country of equal extent in the Union, in fertility of soil, capability of sustaining a dense population, and in all the elements of wealth and prosperity. The report of the Auditor of the State of Ohio, for 1851, shows that about one-fourth of the entire taxable property of that State was found in the twelve counties through which this line passes, from Toledo to Cincinnati. The northern portion of the line passes through the most populous and fertile portions of the United States—half a century ago it was an unbroken forest. At Sydney this line crosses the Bellefontaine and Indiana Railway; at Lima, the Ohio and Indiana, which will prove a valuable tributary, opening to it the immense trade of the region around Fort Wayne, and that west and north of it. At Toledo it connects with the Michigan, Southern, and Lake Shore Roads. The line will soon be extended to Detroit. At Dayton it connects with the road to Cincinnati south, and to Indianapolis west, and Columbus east. The road will probably pay its shareholders quite as well as the Cincinnati and Dayton road, whose stock is now at or above par. An examination of a map of this line will show that it occupies a most important position, nearly, if not quite, equal to any other in that State. Sealed proposals will be received at any time not later than 3 o'clock, on Saturday, the 25th day of this month, at three o'clock, P. M. Proposals will be addressed to the agents of the company, Messrs. Winslow, Lanier & Co., No. 52 Wall street, indorsed "Proposals for Dayton and Michigan Railroad Bonds." Twenty-five per cent of the purchase money will be required to be paid on accepting the bids, the remainder in equal sums in the installments of 25 per cent. Any purchaser will be at liberty to pay in full at once. At present the bonds will run from the day of payment. The above $100,000 will be sold absolutely, and without reserve, to the highest bidder. A printed exhibit, with a map, and all necessary information in relation to these securities, can be had by calling at the office of the company's agents, No. 52 Wall street, New York.

New York, Sept. 6, 1852.

CITY LOAN—STATE GUARANTEE.—$300,000 CITY of Wheeling Six per Cent Coupon Bonds, guaranteed by the State of Virginia, payable in twenty years. Coupons for interest payable semi-annually, (July and January) at the Banking house of Duncan, Sherman & Co., in this city. These bonds are issued to the Baltimore and Ohio Railroad Co., for the subscription of the city to its stock. They are issued under full powers from the Legislature, and are guaranteed by the State of Virginia. The guarantee was given before the adoption of the new Constitution, which prohibits for the future any pledge for or credit of the State for such purposes. These bonds, under the guarantee of Virginia, are considered as safe as any security in the Union. Sealed proposals will be received for these bonds (which are of the denomination of one thousand Dollars) at the office of the subscriber, until three o'clock, P. M., on the 15th day of September. Bids will be made without regard to accrued interest, for all accrued interest will be added when the bonds are paid for. The premium will be paid on the day after the opening of the bids, and payment for the accrued interest may be paid at the option of the bidder any time before the 6th of January next, thus giving capitalists an opportunity to secure a most reliable and permanent investment without precipitately disturbing their money arrangement. Bids should be directed "Proposals for Wheeling Bonds," and sent to the subscriber by three o'clock, P. M., September 15th.

TO CAPITALISTS.—THE ADVERTISER HAS INvented an improvement in the art of printing, by which a "dress of type" for a daily paper of large circulation will endure for twenty years, and a plan of printing from the same, by which 100,000 copies may be produced in one hour after the matter is in type. The cost of a press for the same will not exceed $2,000, nor is type casting necessary. Address, D. C. V., Herald office.

TO BRASS WORKERS AND PLUMBERS.—THE ADvertiser, a practical workingman, is desirous of finding business or work in New York, either as partner or otherwise, where a small capital could be invested to advantage. Address F. L., American Hotel, corner of Broadway and Barclay street. Being a stranger in the city, would have no objection to start business with a workman acquainted here

ASTROLOGY.

KOSSUTH IN ENGLAND.—LETTER TO DR. ROback.—Dr. C. W. Robacк, the celebrated Swedish Astrologer, whose wonderful predictions have astonished both hemispheres, has just received from an intimate acquaintance of Louis Kossuth, a letter, from which the following is an extract:—"Governor Kossuth is a good deal depressed. Your prophecy that Hungary will be liberated, but not by him, seems to have moved him greatly. Knowing your great reputation as an astrologer, he cannot make up his mind to treat the nativity you prepared with so much care, with levity or lightness. The preponderance of adverse stars in his horoscope is fearful. The conjunction of Saturn between the and Mars, the Italian patriot. The latter, I believe, is about to send you the date of his birth, and such other particulars as will enable you to draw a full nativity of that illustrious man." DR. C. W. ROBACK has furnished twenty thousand nativities in this country, and can be consulted throughout the day, on business, love affairs, trade, robberies, &c., &c., at his residence, No. 6 White street.
