HONEY MARKET.

WEDNESDAY, Dec 29—6 P. M.

There was a very active market this morning. Immense quantities of Nicaragua Transit were sold, at an advance on the closing prices of yesterday. Cumberland, Parker Vein and Phoenix were in demand, at better prices. Erie, Harlem, and Long Island slightly improved, with large sales. The news from California no doubt, had a favorable effect on the market. When the Georgia arrives, with nearly three millions of gold dust on board, the effect will probably be greater and more general. It is very strange that, with the abundance of money and the spirit of speculation so buoyant and active, the stock market throughout is not materially inflated. Occasionally a fancy will take a start, and, for a time, run up very fast, until it collapses, and settles down again to or below the starting point. The spasmodic movements in single stocks constitute the whole speculation in the market. Prices for stocks generally are not high, and it appears impossible to carry them up in a body. The steady improvement going on in coal stocks, of all kinds, is not the result of speculation, but caused by a better acquaintance with their real merits, and growing confidence in their great prospective value. The progress is slow, but we believe sure and permanent.

At the first board to-day, Nicaragua went up 2 per cent; Cumberland, ¼; Parker Vein, ½; Phœnix, 1; Erie Railroad, ¼; Harlem, ¾; Long Island, 3; Crystal Palace, 2; Morris Canal, ¼. N. J. Zinc declined ¼ per cent. Railroad bonds were in more request, but the transactions were at yesterday's prices. At the second board, N. J. Zinc improved ¼—having recovered the loss at the first board; Crystal Palace, 10 per cent; Long Island, 1; New Creek Coal ½. Nicaragua fell off 1 per cent. At the close the tendency was downward, with a good deal of stock offering. It looks as though Long Island was about receiving another galvanic shock; but it has had so many lately that the effect has been considerably reduced. It is our impression that the advance in Crystal Palace is not warranted by the prospect. It has risen too rapidly. In the principal stocks on the market there is a good basis for a speculative movement upon the opening of the new year, and we have no doubt it will be improved to its utmost extent.

The steamship Africa, for Liverpool, carried out $104,000 in specie. This is about as large as anticipated. The demand for foreign exchange this morning was quite active, but the market was so well supplied that rates receded a little. We quote bills on London at 9¼ a 9¾ per cent premium; on Paris 5f 15 a 5f 13¾; Amsterdam, 41¼ a 41½; Bremen, 79¾ a 80; Hamburg, 36¼ a 36¾.

The receipts at the office of the Assistant Treasurer of this port to-day amounted to $47,168 84; payments, $144,853 26; balance, $2,616,787 31.

The Bank of Commerce has declared a semi annual dividend of four per cent; the Williamsburg City Bank four per cent; Citizens' Bank, Baltimore, four per cent; Bridgeport Bank five per cent; Farmers' Bank, Bridgeport, four per cent.

The importations into this port to-day, Dec. 29, have been as follows:—Coal, 110 chaldrons; hides, 8 casks; potatoes, 17 bbls, from Bermuda.

The Fort Stanwix Bank has declared a semi annual dividend of five per cent; the Rome Exchange Bank, five per cent; the Bank of Rome five per cent.

Thompson's *Bank Note Reporter* of this morning says:—The Farmers' Bank of Onondaga, and the Merchants' & Mechanics' Bank, Oswego, are in bad repute, owing to their circulation being one-third more than the securities deposited at Albany. The notes are thrown out by the other banks, and the brokers will not purchase them better than from fifty to seventy five cents on the dollar.

It will be seen by an advertisement in another column that the Maysville and Lexington Railroad Company will sell at auction, at the Merchants' Exchange on Thursday, the 6th day of January next, five hundred thousand dollars of Six Per Cent Mortgage Convertible Bonds, redeemable on the 1st of January 1873. Interest payable semi-annually in this city. The bonds are in sums of $1,000 each, secured by a first mortgage, held by J. T. Punnet, Theo. Dehon, and Jas. T. Soutter, in trust for the bondholders, upon the entire property of the company, now owned, or which shall hereafter be owned. One very important and favorable feature in the position of this company is the large stock subscriptions. Two-thirds of the total cost of the road will be made up by stock subscriptions, and one third by an issue of bonds. This is very different from the policy pursued by most other companies. It gives greater security to bondholders, and therefore greater market value to the bonds. The bonds now offered constitute the total issue, and will be sold without reserve.

Navigation in the Welland Canal has been suspended for the season. The amount of tolls collected in 1852 was $242,000, against $204,000 in 1851, showing an increase of $38,000.

The Board of Directors of the Panama Railroad Company have declared a dividend of ten per cent on all stock registered on the books of the company at the time of closing the same on the 3d inst., payable in stock on the 15th day of January next. They also give notice that the interest on the bonds of the company, falling due on the 1st of January, will be paid at the Bank of the State of New York.

The interest on the State of Indiana Bank bonds, California State bonds, cities of Pittsburg, Alleghany, Chillicothe, Steubenville, and New Albany, and various county and township bonds, issued for railroad purposes, and on the bonds of a number of Western railroad companies, due on the 1st of January, will be paid on that day at the office of Winslow, Lanier & Co.

The North American Stone Dressing Company of New Haven have declared a dividend of eight dollars per share, equal to thirty per cent.

The annexed statement exhibits the value of imports and exports of the port of New Orleans, during the quarter ending September 30, 1852:—

COMMERCE OF NEW ORLEANS—IMPORTS AND EXPORTS.

IMPORTS.

In American vessels—free of duty	$369,634
Do. do. paying duty	1,107,515
Total	1,477,149
In foreign and equalized vessels—free of duty	316,047
Do. do. do. paying duty	157,488
Total	473,535
Total imports	1,950,684

EXPORTS

Of Domestic Produce and Merchandise to Foreign Ports.

In foreign vessels	1,342,181
In American vessels	4,175,462
Total to foreign ports	5,517,633
Coastwise	3,488,866
Total domestic	9,006,499

Of Foreign Merchandise.

In foreign vessels	3,184
In American vessels	72,594
Total foreign	75,778
Total exports	$9,082,277

The amount of duties paid on the imports of the quarter ending September 30, 1852, was $414,125 44; for the quarter ending June 30, the duties amounted to $375,250 87; quarter ending March 31, $588,828 70—Total for the three quarters, $1,378,205 01. It is estimated that about one fourth of the imports which pass through the New Orleans Custom House pay duties at Louisville, Cincinnati, &c. The foreign trade of New Orleans is principally in the export line, the value each quarter being full four times that of imports in the same time. New Orleans is, as a port of exportation, equal to New York. From the two ports, about three fourths of the aggregate value are shipped.

The quantity of tea exported from China to the United States, in each of the past eight years, has been as annexed:—

IMPORTATION OF TEA INTO THE UNITED STATES.

	Green. Lbs.	Black. Lbs.	Total. Lbs.
Year ending June 30, 1845...	13,812,099	6,950,459	20,762,558
" " 1846...	14,256,082	4,258,166	18,502,255
" " 1847...	13,853,152	4,438,196	18,171,648
" " 1848...	15,345,939	5,993,617	19,328,640
" " 1849...	15,816,700	4,853,600	18,672,300
" " 1850...	14,396,400	7,364,400	21,787,800
" " 1851...	18,215,700	13,546,100	28,763,900
" " 1852...	20,957,300	13,396,300	34,353,600

The increase since 1844 has been very great. We can not satisfactorily account for the rapid increase, if it has been for consumption. It is a favorable feature that the increase in black teas has been so much greater than in greens. In 1845 only about one-half of the total importation was in black; in 1852 full two thirds of the total was black. In Great Britain about three fourths of the total quantity of tea consumed is black, and before the lapse of many years the same proportion will exist in this country.

The annexed statement exhibits the quantity and value of certain articles exported from this port during the week ending and including December 25, distinguishing the destination and extent of shipments to each place:—

COMMERCE OF THE PORT OF NEW YORK—WEEKLY EXPORTS.
