Counsel for the Feeble, and Important suggestions for the health.—Morse's Invigorating Cordial. Our climate brings down thousands of strong men every summer, yet by the use of this peerless invigorant the muscular and nervous system may be so braced up, and the digestive powers so thoroughly and permanently restored that neither sudden changes of temperature application to study, physical exertion, nor the most arduous labor of thought or muscle will subdue the energies developed; we might almost say, created by its influence. This is the season during which the system should acquire the necessary stock of vigor. Especially should ladies who suffer from hysteria, depression of spirits, bodily weakness, headache, nervous tremors, neuralgia, extreme lassitude, or any of those diseases or disabilities incident to a derangement at the delicate and complex physiological organization of the sex, brace and strengthen the relaxed physique by a course of this cordial. The Invigorating Elixir is recommended to both sexes as an established, guaranteed, and infallible cure for nervous affections, dyspepsia, debility, mental depression, confusion of ideas, incipient consumption, cough, sleeplessness, palpitation of the heart, tendency to weep, specific physical incapacity, paralysis, irritability, biliousness, and every species of complaint proceeding from the excessive use of any physical or mental functions.
