The receipts at the office of the Assistant Treasurer of this port to day amounted to $246 452 49; payments, $96 556 76—balance on hand, $6 274 457 48; of which $3,796 109 25 was on account of the Treasury Department, $201,619 73 of the Post Office, $155,000 interest fund, and $127,728 45 special deposits. These items make the above total, which is larger than ever before known during the existence of the Independent Treasury system.

The anthracite coal trade continues remarkably light. The Reading railroad brought down, for the week ending on Thursday last, 41 958 tons; and the Schuylkill Navigation Company 25 214 tons; giving an aggregate for the week from the Schuylkill coal region of 66 252 tons, and for the season of 1 541 596 tons, against 1,602,111 tons to the same time last year, showing a loss of 60,515 tons. The shipments of coal on the Lehigh, for the week ending with Saturday, the 20th inst., 14,065 tons; and for the season 586,119 tons, again st 659 114 tons to the same time last year. From the above, it will be seen that as yet there is no improvement in the weekly supply from that quarter. The heavy falling off for the season, the stagnation throughout the entire region, and the grievous discouragement to industry, are chargeable exclusively to the protracted suspension of navigation on the Delaware division. In order to repair a leak in the first level below Easton, the water was again drawn off on the 22d inst. On the 23d it was let on; and on Monday next, the 25th, it is expected that navigation, after an interruption of more than a month, will be resumed.

We give below the first weekly sale this season of Messrs. Bowen & Holmes, of Cincinnati. These sales are composed of stocks in which our capitalists are largely interested, and we believe that any business in stock securities entrusted to the above named house, will be promptly and honorably attended to.
