Wolfe's Aromatic Schiedam Schnapps, manufactured by the proprietor exclusively, at Schiedam, in Holland, for medical use, is entitled to eminent consideration. It is made from the best barley that can be obtained in Europe, at any cost, with an aromatic vegetable decoction of the most salutary and efficacious properties from the botany of Italy. No other medicinal beverage at present in use in the United States combines such peculiar virtues with so uniform an innocuousness. In gravel, gout, chronic rheumatism, and obstructions of the kidneys and bladder, its effect is so prompt, decided and well-confirmed, as to need neither the testimony of patients, nor of physicians. It is in continual and increasing demand in the practice of the latter, and its inestimable properties in such cases, and many others, are attested by the highest written authorities. In all cases of tropical tendency it is generally the only remedy required when adopted in the early stages of the disease. In dyspeptic cases, when taken in proper quantities, as a diet drink, and especially at dinner, it is found to be effectual in the most obstinate instances, when the use of other medicines has been pursued in vain. The debility caused by protracted chronic maladies, sluggish temperaments and exhausted vital energy, by whatever cause induced, is almost certainly obviated by its judicious adoption; while its absolute freedom from every deleterious ingredient, and the perfect purity of all its materials, exempt it from the liability of injuring even the most impaired constitutions characterized by such symptoms.

It is put up in quart and pint bottles, handsomely wrapped, with a fac simile of the proprietor's signature on the label. For sale by all the respectable druggists and grocers in the United States. UDOLPHO WOLFE,
Sole Importer and Proprietor, 22 Beaver street.

I beg leave to call the attention of the reader to the following testimonials in favor of the schnapps:—

Dr. Deck writes as follows:— LABORATORY, New York, May 2, 1853.

Mr. Udolpho Wolfe—Dear Sir:—I cannot speak too highly of the purity of your schiedam schnapps. It is decidedly superior to anything of the kind in the market. It is perfectly free from the admixture of fusil oil, or any of those acrylic compounds which produce such a mischievous and irreparable effect upon the constitution, and which very few samples of alcoholic distilled liquors are without—most of them being largely impregnated with it. I have personally inspected the various processes of distillat on practised at Schiedam, and I know that unusual care is taken to separate the noxious elements from the pure alcohol; and your schnapps is a striking proof of its success. As a medicinal agent for urinary and renal affections, I have successfully prescribed it, and recommend it as an agreeable cordial and harmless stimulant, and shall continue to do so, as well as to use it as a source of pure alcohol for chemical investigations and experiments. Your obedient, ISAIAH DECK,
Consulting Analytical Chemist.

Dr. Charles A. Lee, Commissioner of Health, Baltimore, writes as follows in relation to the value of "schnapps" as a remedy in chronic catarrhal complaints, &c. The letter is dated July 27, 1853:—I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient servant, CHAS. A. LEE, M. D.

Dr. Chalmer, of Philadelphia, who is well known to be opposed to the use of ordinary alcoholic stimulants, thus endorses the schnapps:—

PHILADELPHIA, July 15, 1853.

Mr. Udolpho Wolfe, 22 Beaver street, N. Y.—Dear Sir:—Last season the writer received through your agent in this city a bottle of your aromatic Schiedam schnapps, and since that period has prescribed the same in certain forms of urinary complaint, in the cases of feeble habit, in aged persons. So far, the schnapps has been of much benefit to those using it. In conclusion, where a diuretic and stimulant is required I should use the aromatic Schiedam schnapps. Thanking you for your kindness, I am, respectfully yours, A. D. CHALMER, M. D., 180 South Eighth street.

Dr C. Robbins, of Boston, celebrated for his cure of epilepsy, chorea, &c., complains of the great difficulty of procuring a pure Holland gin, and speaks of the Schiedam schnapps as follows, under date of October 5, 1852:—I have commended your article in four cases, two in Connecticut, one in Vermont, and one in Rhode Island. An article of this character is much needed. I have been unable to find a substitute in the materia medica for pure Holland gin. Yours, C. ROBBINS.

Dr. D. Calkins, town physician and surgeon, at Lyme, Connecticut, says, in a letter dated October 14, 1852:—I consider your Schiedam schnapps a superior article, and one that will not come short of our highest expectations. It is an article that we medical men have long wanted, and have used it so far with every apparent success. Please forward me as soon as you can conveniently twelve bottles. D. CALKINS.

In conclusion, I beg leave to say that the whole medical faculty and professional chemists in the United States were invited to accept of a bottle for analysis and trial, nearly four th usand accepted the offer, and upwards of two thousand have furnished their written endorsements, nor have practitioners and chemists alone furnished their testimonials. The public rests in almost every principal city and town has boldly spoken in its favor in its editorial columns
UDOLPHO WOLFE, sole importer and proprietor.
