**Latest News from Cuba.—Let the Suffering read.**—The following is the translation of a letter received by Dr. Brandreth the past week, the original of which may be seen at his office:—

SAN ANTONIO, May 10, 1854.

MR. B. BRANDRETH—Sir—Enclosed is a testimonial of the benefit I have received from your excellent medicine, entitled "Brandreth's Pills." Excuse my freedom. Your friend and humble servant,

PEDRO RODRIGUEZ Y CALDERON,
of the Island of Cuba.

TO THE EDITORS OF THE NEW YORK PRESS:—

Gentlemen—Please to insert in your valuable journals the following lines not only as an act of gratitude to the meritorious Dr. Brandreth but also for the benefit of suffering humanity, thereby aiding to make public a radical cure for some of the diseases so prevalent in this climate. I had suffered some three years with the bleeding piles, accompanied with the most dreadful pain every time that I obeyed the calls of nature which frequently continued eighteen or twenty hours, causing tumors of the size of a hen's egg to protrude, thus incapacitating me for every kind of labor. Well, sir, a friend of mine paid me a visit, and advised me to try Brandreth's pills. I immediately sent to Havana for a dozen boxes, for which I paid a quarter doubloon, ($4 25.) I commenced by taking five pills, gradually increasing the doses until I had taken five boxes, which entirely cured me of my cruel sufferings, and I now find my usual health and strength entirely established—in fact better than it has been for many years—for which I am very thankful, and I desire for Dr. Brandreth that which I desire for myself and family—which is what I most esteem in the world. I subscribe myself, gentlemen, your most humble servant and friend.

PEDRO RODRIGUEZ Y CALDERON,
Town of San Antonio, in the Island of Cuba.

Infectious diseases depend for their propagation on the impure condition of the animal economy. Brandreth's pills, established 1751. These celebrated pills are greatly valued for their mildness, innocence and virtuous qualities as medicine for cleansing the stomach and bowels and blood from all impurities. Their use prevents, or greatly moderates diseases of a contagious nature. It is a fact well established that when a person is seized with an infectious disease, it is because there is something in the state of his animal economy which fits it to receive the poison of infection. Brandreth's pills take this something out of the system, upon which contagion finds a resting place. Those who use them may walk through pestilential places without fear.

They are daily and safely administered to infancy, youth, manhood and old age, and to women in the most critical and delicate circumstances. They do not disturb or shock the animal functions, but restore their order and re-establish their health. In cases of boils and all eruptive diseases, they are unequalled for good. They are now relied upon by hundreds of thousands of families in preference to other medicines twenty years' experience of their qualities having greatly added to their reputation. The following modest note from Mr. Bemis, of Dudley, Mass., for a supply, tells its own story:—

DUDLEY, Dec 7, 1853.

B Brandreth—Dear sir:—I sold all the pills I had of yours, and the money is ready when you will send my receipt. Please to send more pills as soon as you can; send to Webster station. I have sold $117 worth of your pills, and they give universal satisfaction.

Yours, with respect PHINEAS BEMIS

Brandreth's pills are sold at 25 cents per box, with full directions, at 68 Lispenard street, at 274 Bowery, and at 241 Hudson street. After the 1st of July, Dr. Brandreth's principa office will be removed to the

BRANDRETH BUILDING,

**New York Lung Institute, No. 6 Bond** street.—This institution is established for the exclusive treatment of all diseases of the lungs and throat by the inhalation of medicated vapors, the only effectual treatment; for no drug of any kind is given into the stomach. Physicians are cordially invited to witness its success in cases of consumption, bronchitis or asthma. The plan of inhalation adopted at the Lung Institute is entirely new and novel, and we are happy to say meets with the sanction and approbation of all medical men who have examined it. Patients, besides using the remedy constantly, whatever their duties may be, have access to rooms fitted with medicated air daily or otherwise as their case may require. Its success in bronchial complaints is truly astonishing, even after a few days' treatment. All patients are allowed the benefit of one week's trial without charge if they desire it. Patients received from 9 to 4 every day. Under the charge and direction of Dr. G. D. SANBORN.

### PERSONAL.

CARD—IN ADDRESSING AN AUDIENCE AT DR. Pennington's church, on Saturday evening last, in reference to the recent arrest and return of three fugitive slaves, I stated that Mr. Tallmadge, son of the late United States Marshal of this district, had spoken unkindly to me in reply to a personal inquiry about these slaves. In this I was in as error, and I desire thus publicly to correct my remarks in reference to that gentleman. He was not the one to whom I alluded. I have known Mr. Benjamin M. Tallmadge for three years past, and the acquaintance has favorably impressed me as to his character for honor, truth and integrity. My allusions were intended for a gentleman of a different name, whom I had always taken to be a son of the late marshal. As this explanation may not be seen by all who heard me on that occasion, it will give me great pleasure to correct what I then said as publicly as the assertions were made, upon the next occasion when I address an audience on the subject of slavery, or in any other appropriate manner. E. D. CULVER.
