Billiard cloth, balls, &c., of every description, and of the best quality. Price lists sent on application. FITZ & DECKER, 96 Ann street.

FINANCIAL.

$100,000 OF THE RESERVED CAPITAL STOCK of the Saline Coal and Manufacturing Company, will be sold by A. H. NICOLAY & CO., by public auction, at the Merchants' Exchange, in the city of New York, on Thursday, June 22, 1854. The stock of this company consists of 10,000 shares of $100 each, fully paid up and liable to no assessment, of which 2,000 shares are the property of the company. The mines are located on the Saline river, about 25 miles from Shawneetown, in Gallatin county, Illinois. The company owns over 7,000 acres of excellent farming lands free from incumbrance, about 6,000 acres of which is underlaid with seven workable seams of coal of an aggregate thickness of 30 feet. The greatest portion of the surface is covered with valuable timber, much of it white oak of the very best quality. Besides the coal there are inexhaustible quantities of marble, freestone, fire sandstone, fire clay, common clay, building and moulding sand, and salt. It is well situated, with reference to markets for all of these products, especially coal, which sells readily for cash, at a large profit, upon the spot of mining and delivery. The company have three coal mines open and in working operation, over forty houses built and others in process of construction, for families alone, one forge, one steam sawmill, one machine shop, one carpenters' shop, one steam sawmill, two steam tug boats, thirty coal boats, about two miles of Tyson railroad, and a large amount of live and rolling stock, tools, &c. All the works and erections are new, having been constructed within the last twelve months for cash. The producing point has but recently been reached since which the company has paid over ten thousand tons of coal, which has realized a profit of not less than fifteen thousand dollars, and the Treasurer's estimates show that by the first of August a dividend will have been earned of 2½ or 3 per cent, and for the next six months following of 6 to 8 per cent. After that period it is expected that the earnings will increase in a still greater ratio, as the outside railroad will be completed, and the underground galleries are and will continue to be pushed forward day and night, for the purpose of getting working room to mine constantly increasing quantities of coal. At a meeting of its stockholders on the 6th instant, the company determined upon the following line of policy, viz.—1st, the company will incur no permanent debt; 2d, so much of the reserved stock shall be sold as may be necessary to complete the construction without the use of current earnings; 3d, the current earnings shall be divided semi-annually among the stockholders. Under this policy the vast property will be kept free from embarrassment, and the stock will pay regular dividends; and as it is in the nature of fast property, it is believed that all that class of persons who are seeking safe investments which will prove the largest income, will find it for their interest to embrace this opportunity to invest in this stock. The company has no debt except floating liabilities, which this sale of its stock is intended to cover, and provide for further improvements, so that the net earnings may be divided among the stockholders without the pay upon the diminution for the purposes of construction. For further particulars application may be made to J. M. WOODWARD or H. B. Canty, at the office of the Shawnee Coal Company, No. 1 Pearl street.

$83,000 TO LOAN—AT SEVEN PER CENT, ON bond and mortgage on improved or unimproved real estate in this city, Brooklyn or Williamsburg, in sums to suit applicants. Also, $6,000 to invest in the purchase of mortgages in the cities above referred to. Apply to J. R. COOK, Jr., No. 4 New street, near Wall.
