Dirt Cartmen's Meeting.

A meeting of the dirt cartmen of this city was held last evening in Union Hall, corner of Twenty second street and Third avenue, for the purpose of forming themselves into a society in order to protect their interests, and secure a uniform rate of wages. There were over one hundred persons present. It seems that the contractors lately intimated their intention of reducing the cartmen's wages, which have hitherto been fixed at twenty shillings *per diem*, and it was in consequence of this reduction that the present strike has taken place.

At the previous meeting a committee was appointed to call upon the contractors in the city and ascertain whether any of them would continue to give the twenty shillings a day demanded. The result was highly satisfactory—the following being the names of those contractors who gave a favorable answer:—

Thos. McConnell, Michael J. D. McGlynn, James Muddy, Pat. Lynch, Dani. Haden, Mr. Cummings, James James, John Foster, John O'Donnell, Peter Murther, Arthur Mooty, Terence Keon, Mr. King, Sandy Laird, Peter Cooery, Philip McDermot, Luke Curran, James Duffy, and James Robinson.

These are the names of the principal contractors in the city, and a vote of thanks was unanimously returned to them.

The main object of the meeting last evening was to organize the society, a committee being appointed to draft a constitution and by-laws for the same.

Mr. JOHN MCGRATH by invitation addressed the meeting at some length on the cause for which they had been called together. He urged upon those present to demean themselves peaceably, and pay a strict obedience to the law in all their proceedings, and promised to lend the society his assistance until its organization was completed.

We understand that one hundred and eighty persons declared themselves willing to become members of this society at the previous meeting, and that many others joined last night.

CRICKET.—A match between the first eleven of the New York Club, and the first eleven of the St. George's Club, will be played on the ground of the former club at Hoboken, on Wednesday next. The day's play to commence at 10 o'clock; and on the succeeding Wednesday, a match will be played at the same place between the second elevens of the above clubs. The return match between the Canadian friends is now in contemplation, preparations being made for it to come off during the middle of next month at Toronto.

TABERNACLE ORGAN.—Mr. Henry Erben has just completed a very large organ for the St. Stephens (Catholic) church, Twenty-eighth street. It is, with the exception of Trinity, and St. Georges' in Stuyvesant square, the largest in the country. Its dimensions are as follows:—45 feet high, 27 feet wide, 18 feet deep. It has two sets of keys, two octaves, nine pedals, 48 stops, and over 3,000 pipes. It will be performed on this evening. Particulars in our advertising columns.

MILITARY DISPLAY.—Yesterday afternoon the Fourteenth Regiment, of Brooklyn, commanded by Col. Jesse Smith, U. S. A., attached to the Fifth Brigade, under Gen. Duryea, made a visit to this city. Being out on parade in Brooklyn, they crossed the ferry, marched to the Park, through one or two of our principal streets, and then returned home again. They were accompanied by the Brooklyn Brass Band, and showed themselves to be as well drilled as they were pleasing and soldierly in appearance.

FIRE AT HARLEM—ARREST FOR ARSON.—Yesterday morning about 1 o'clock, a fire broke out in the stables on the corner of Third avenue and 128th street. The stables were filled with horses at the time, but most fortunately were rescued from the flames. The firemen were present in large numbers, and managed soon to extinguish the flames; but two of the buildings were destroyed, and others were damaged. The loss was about $2,000—Insured for $1,500 in the Astor Insurance Company. Geo. Taylor, a man who was in the habit of sleeping in the stables, was seen to leave them immediately before the fire was discovered. He was, therefore, arrested on suspicion of arson.

ANOTHER FIRE.—About 3 o'clock yesterday morning a fire broke out in the chair factory in the rear of Nos. 28 and 30 Attorney street, owned by Daniel Smith, of Williamsburg. It was occupied by John Ryerson, William Herman and John Randall, chairmakers. The second and third stories were burned. Loss about $1,500. Insured in the Granite Company for $500; Pacific, $500; Firemen's, $1,000. It is supposed to have taken from a fire in the second story.

Coroner's Inquests.

THE LATE AFFRAY ON BOARD THE SHIP KNICKERBOCKER.—John Wilson, the young man who was stabbed on the 8th instant, in an affray on board the ship Knickerbocker, now lying at pier 6, North river, is lying dangerously ill at the New York Hospital, and doubts being entertained of his recovery, Coroner Hilton was yesterday notified, and proceeded to take his deposition, which was as follows:—"On the afternoon of the 8th inst., the prisoner, Jas. Graham, and myself were on board the Knickerbocker. I went and laid down in my bunk. The prisoner came to me soon after; he had a sheath knife in his right hand. He asked me for $2. I told him I had not the money with me, but would get it out of my chest. I got up, went to the chest and was about getting my key into the lock, when I discovered that it had been broken open. I lifted the lid and saw that two pair of pants were gone; the money was in a pocket of one pair. There was no one else at this time in this part of the forecastle. I was in a stooping posture when I looked into my chest. I told the prisoner that my money and pants had been stolen and that I could not then give him the money. He was close behind me at this time and plunged the knife into my back; I fell over upon the floor and was unable to rise; the prisoner then left, taking the knife with him; soon after this, a boy called Scotchy came in and I told him to pay to the mate and second mate that I had been stabbed; neither the prisoner nor myself were intoxicated at the time, though we had drank together several times during the day; we had had no quarrel together that day, and I believe the reason of his stabbing me was because I not give him the $2." It was only by means of powerful stimulants, that the unfortunate man was enabled to finish the above statement, and when the Coroner left, it was thought he could not survive but a few hours. The prisoner, Graham, was confined in the cells, awaiting the result of his act. Both parties were officers, and belonged to the Knickerbocker.

DEATHS FROM CHOLERA.—Inquests were yesterday held by Coroner O'Donnell, at 372 Cherry street upon the body of John H. S. Shrell and Caroline Dalle, both Germans, the former 28 years, and the latter 38 years of age, whose deaths were caused by cholera. The latter passed lay in the same room, which was a cellar, with earth flooring, and covered with filth; a stable, in which were ten horses, was in the rear of the premises, and the odor arising from this and the cellar together, was sufficient of itself to generate disease. When the deceased was first taken sick, Dr. Lodge was called to attend them, and applied the usual remedies, but without the desired effect. He gave it as his opinion that death was caused by Asiatic cholera, and the jury rendered a verdict to that effect. The deceased were immigrants, and had been but a short time in the country.

DEATH BY DROWNING.—Coroner Wilhelm yesterday held an inquest at 463 Washington street, upon the body of Job McQuade, a lad six years of age, who was drowned on Saturday last, while playing on the pier near the Hoboken ferry. Some playmates were with him at the time, but they were so much frightened when they saw him fall into the water, that they neglected giving an alarm, and he perished. Verdict, accidental death.

ADVANCEMENT OF SCIENCE.—A friend has put us in possession of the annexed information received from Doctor Joseph Dickinson, Local Secretary for the British Association at Liverpool.

At the last annual meeting of the British Association for the Advancement of Science, held at Hull, in September, 1853, it was decided that the next meeting should be held in Liverpool, commencing on the 21st September, 1854. We are authorized to state that this meeting will most probably be the most brilliant and most numerously attended by the savans that has yet occurred.

The Mayor and Corporation of Liverpool will place at the disposal of the association their magnificent new building, St. George's Hall, probably the finest assembly room in Europe. Arrangements are made on the most liberal scale for the reception of visitors, and public and private hospitality will be most generously exercised. The scientific professors and philosophers of America are invited to be present, and are sure to receive a most hearty welcome.
