TO THE BAINBRIDGE.—The hurricane off the brig of war Bainbridge, (which left Norfolk 5th inst.), occurred in lat. 37, lon. [illegible] the vessel on her beam ends, while laying under a balance reefed main try-sail. The guns and her bower anchors were thrown over to prevent her foundering, as their weight was pressing her down, and flooding her decks with water. Her starboard quarter boat and two lanyards of the lower rigging were carried away, tiller broken, and many other casualties occurred, rendering it necessary to return to refit. In getting rid of the guns the officers and men attending to that duty were up to their armpits in water, rendering it a work of difficulty and danger.
