FINANCIAL AND COMMERCIAL.

MONEY MARKET.

THURSDAY, May 3—6 P. M.

A slight improvement in the stock market was realized at the first board to-day. There was more activity, and better prices ruled. Virginia 6's advanced ¼ per cent; New York Central 7's, ¼; Canton Company, ¼; Reading Railroad, ¼; Hudson River Railroad, ⅛; Michigan Southern Railroad, 1; Cleveland and Toledo Railroad, ⅛. For some days past railroad bonds have been more firmly held. The sales have not been large. The bears find it difficult to get stock for delivery on their contracts as they mature, without paying an advance, and they are therefore large borrowers. Holders of stocks are well able to carry them, and the shorts are afraid to put out contracts on long dates. Transactions seller and buyer three days, are more plenty than any other time, and they hope in this way to keep the market from rising. So long as the different railroads continue to show such large earnings, and the money market continues so abundantly supplied with capital, the shorts will not make much out of their bearing operations. Western railroad stocks are gradually improving. The sales of these stocks in this market are only to a moderate extent. We believe most of them are doing a large business, but they will not for the future pay dividends, anything like those they have paid. We notice a sale to-day of Hampshire Coal Company stock. A small lot of fifteen shares sold at eighteen per cent. This stock was put upon the books of the Board of Brokers a few days since, after a rigid and thorough investigation into the organization and resources of the company. The committee appointed for the purpose reported unanimously in its favor, and it was accepted. This is a sufficient endorsement, and a guaranty that the affairs of the company were in a sound condition. Its future productiveness is a matter depending upon the management; of that there is very little doubt. It is a snug, compact concern, and a moderate business will give large dividends. The Reading Railroad Company will report a large business this week. The coal tonnage will be greater than that for the week previous. The demand for coal continues active, and the receipts at tidewater do not accumulate.

After the adjournment of the board, the following sales of bonds were made at auction by Simeon Draper:—

$73,000 Buffalo and N. Y. City RR., secured by first mortgage on road from Attica to Buffalo.
$11,000 do. do. do., secured by first mortgage on road from Attica to Hornelsville, sold together for $53,466

The following sales were also made at auction by A. H. Nicoll:—

$10,000 Fox and Wisconsin Improvement Co. 8's, interest added 81½
9,000 Cleveland, Painesville and Ashtabula RR. 7's, interest added ..... 84½ & 83½
8,000 Lake Erie, Wabash and St. Louis RR. 1st mortgage, interest added 73½
5,000 Camandaigua and Corning RR., 2d mortgage, interest added ..... 64½ & 68½
2,000 Erie 2d M bds. 65
1000 Erie 2d M bds. 72
160 shares Erie Railroad 50½
100 do. Reading Railroad 86½
25 do. Shoe and Leather Bank 98
40 do. Williamsburg Gas Light Co 66½
20 do. Columbia Fire Insurance Co 87½
40 do. Ohio Diamond Coal Co 80½

At the second board the market was not so firm. Some of the leading fancies were quite active at prices a fraction below those current at the first board. Erie Railroad fell off ¼ per cent; Reading Railroad, ¼; Cumberland, ¼. There was a sale of Galena and Chicago Railroad at an advance on previous prices. Michigan Central Railroad sold at 83 per cent, which is an advance. Operators are waiting the arrival of the Atlantic, with later news from Europe. As soon as they have properly digested her advices, they will be looking out for the next California steamer; and so they go on continually waiting for something. Quotations for consols have an especial charm for that class of speculators. We have never known stocks better held than at this moment. Holders will not sell without a profit, and the shorts, as a general thing, are required to make deliveries, instead of settling differences, at the maturity of contracts.

The transactions at the Assistant Treasurer's office to-day were as follows:—

Paid on Treasury account	$98,183 54
Received on Treasury account	82,104 48
Balance on Treasury account	2,325,410 00
Paid for Assay office	2,078 62
Paid for disbursing checks	42,801 83

The Chatham Bank pays three and a half per cent semi-annual dividend; the National Fire Insurance Company, a semi-annual dividend of fifteen per cent.

We understand that all the preferred stock of the New Jersey Zinc Company—par value $12 50—has been taken, and more could have been disposed of. The company are now in funds for an active prosecution of both the paint and iron business.

The steamship Star of the West brings about half a million of dollars in gold and government drafts, besides what came in the hands of passengers. This is just about what we anticipated. The assignee of Page, Bacon & Co. received by this steamer about one hundred thousand dollars, which will be appropriated to the payment of the preferred claims. The mail steamer, which will be due this time next week, will, without doubt, bring a remittance nearly equal to old average. We look for full a million in gold by her, independent of drafts and what passengers bring, which is considerable.

The State Treasurer of California writes to the financial agents here, under date of April 5, that the money to meet the July payments of interest will be forwarded to this city by the first steamer in May; also that fifty thousand dollars, set apart for the redemption of bonds due in 1861, will be forwarded at the same time. After the payment of the fifty thousand dollars, the debt of California will be under two millions, which will be further reduced by the sales of real estate belonging to the State.

The following sales were made at auction in Philadelphia on the 1st instant:—

52 shs.	State Bank, Camden, N. J.	$70
86 "	Girard Life and Trust Company	$28 25
15 "	County Fire Insurance Co.—par $50, $40	
30 "	Germantown and Perkiomen Turnpike Company	$21 25
58 "	Schuylkill Nav. (common stock)	$21 12½
10 "	Philadelphia Exchange Company	$64 50
5,425 "	Cambria Iron Co., per share	$1
10 "	Camden and Phila. Steamb't Ferry Co.	$63
$3000	Philadelphia Co. Loan, 1860	86 per cent

The Boston *Telegraph*, of the 2d inst., says.—

The stock market was dull and lifeless this morning, with transactions very much limited, though buyers were in excess of sellers, and Maine, Providence, Worcester, Eastern, and Michigan Central, could not be had at a small advance on yesterday's price. Old Colony is as in demand at 70½ bid, 80 asked. There is very little stock of any of the above in the market, and a slightly increased demand would improve prices materially. Vermont Central touched 3 to-day for the first time since March 19, and the stock sold for 2¾, April 23. Vermont and Massachusetts sold 14¾. Grand Junction sold at 32½, and this is below the market for any considerable lot. Wilmington is in a little better demand, and 32½, the price of yesterday, was bid for small lots. Ogdensburg hangs heavy at $5, although no amount of stock is offered at that price. At the auction to-day, stocks generally sold low. Western 94, Worcester 93, and Mercantile Marine Insurance 92, for which 94½, 93½ and 94 was bid respectively at the board this morning.

The veto of the Governor of Massachusetts of the loan of State credit to the Vermont and Massachusetts Railroad Company was taken up in the lower house of the Legislature of that State, yesterday, and resulted in 302 votes, of which 171 were yea and 131 no—the constitutional vote required to carry the measure against the veto, being 262 in the affirmative to 100 in the negative. The bill, however, will come up again, for reconsideration, but its friends are a good deal disheartened by the adverse decision of the House.

The liability of the commonwealth for loans of scrip to railroad corporations from 1837 to 1842 is stated at $5,050,000. The debt on account of 10,000 shares Western railroad stock subscribed for, is $995,000. The sinking fund to redeem the scrip issued in 1837, to pay for 10,000 shares Western railroad stock, amounts to over $1,100,000, and includes the remaining half of the proceeds of sales of lands in Maine since 1837. Ample provision has been made for the payment of all the railroad scrip, and for $200,000 of that issued on account of the public institutions, leaving $1,000,000 standing against $705,000 of Western railroad stock, and the rights in the sinking fund therewith; but the committee suggest caution as to a further use of the State credit.
