FINANCIAL AND COMMERCIAL.

MONEY MARKET.

MONDAY, May 28—6 P. M.

Quotations for stocks took quite a start upward today, and the market was more excited than we have known for many days. State stocks, railroad bonds and railroad stocks were all in active demand, and sold at prices considerably in advance of those ruling at the close on Saturday. At the first board Indiana 5's went up ¼ per cent; Missouri 6's, 2; Virginia 6's, 1; Erie second mortgage, 1; Illinois Central, ½; New York Central 7's, ¾; Pennsylvania Coal, ¼; New York Central Railroad, ½; Panama Railroad, 1½; Reading Railroad, ¾; Galena and Chicago Railroad, ¾; Cleveland and Toledo Railroad, ¾. The leading dividend paying railroad stocks were operated in to a large extent, and nearly all improved on the opening prices. Reading touched the highest cash price of the season to-day. The coal business thus far this year has been very profitable to all the transportation companies, and it is likely for the rest of the season to be even more profitable. Up to the 24th inst., the quantity of anthracite coal brought to market from the Schuylkill regions was 1,298,722 tons, against 1,132,541 tons to the same date last year, showing an increase of only 166,181 tons in the first six months of the present year. This is not an average increase for that district, and the deficiency must be made up on the last half of the year, which commences on the 1st of June. On the 1st of July the Reading Railroad Company raise the rate of toll thirty cents per ton, and it is therefore for the interest of that company and all other coal carrying companies that the bulk of transportation should be thrown into the last six months of the year, when tolls rule the highest. The Reading Railroad brought down 1,987,854 tons of coal from Dec. 1, 1853, to Dec. 1, 1854. In the first six months of that year only 777,526 tons were brought down, leaving 1,210,328 tons of the aggregate for the last six months. It therefore appears that the earnings of the Reading Railroad in the last six months of the year are about double those for the first six months, caused not only by the additional quantity of coal carried, but by the additional price for carrying. New York Central Railroad stock was particularly active to-day, at better prices, while Erie, its competitor for Western travel and freight, was neglected, without change in market value. There is very little doubt but that at present prices Erie is much the cheapest stock of the two, but, having been compelled to exhibit its financial difficulties to the world, it has a bad name. The only difference is that the Central has not yet been found out. It has not yet had an investigating committee overhauling its accounts and making reports. The Erie Company has passed through all that, and is slowly recovering from its effects. The Central will ultimately have to go through the same ordeal. All these large, overgrown, bulky corporations, after a time, get diseased, and require a great deal of doctoring before they get into a healthy condition again. The New York Central has been a long time in the hands of financiers, and it must be in a very rotten condition.

After the adjournment of the board the following sales of bonds and stocks were made by A. H. Nicolay:—

$5,000 Chicago and Miss. R. R. 7's	int. added	59
5,000 Cleveland and Toledo R. R. 7's	"	84½
10,000 Harlem R. R., 1st mort. 7's	"	88½
1,000 North Carolina 6's	"	87½
6,000 New Ind R. R. (Goshen Branch) 7's	"	88¾
3,000 Missouri 6's		94½
150 shares Reading RR.		88¾
2 " Third Avenue R. R.		74½
74 " Erie R. R.		43½
10 " Chatham Bank		92
25 " Fulton Fire Insurance Co.		83½
26 " "		82¾
5 " Park Fire Insurance Co.		89¾
25 " American Express Co.		100
10 " "		101
1,000 " New York and Shawangunk Mining Co. (hypothecated)		33

At the second board a further improvement was realized. Erie Bonds, 1875, advanced ¼ per cent; Illinois Central Bonds, ¾; Cumberland, 1; New York Central Railroad, ½; Panama Railroad, ¼; Cleveland and Toledo Railroad, ¼. There was more cash stock on the market than usual this afternoon, notwithstanding which better prices ruled.

The transactions at the Assistant Treasurer's office today were as follows:—

Paid on Treasury account	$127,273 36
Received do.	1,111,190 00
Balance do.	2,245,865 99
Paid for Assay office	138,504 57
Paid on disbursing checks	54,520 14

The receipts include one million of dollars transferred from the bullion fund.

A meeting of the stockholders of the McCullock Copper Company is called for Monday, the 4th of June, at the office, 18 Exchange place. We understand that the superintendent, who has just returned from the mines, give most encouraging accounts of the product and condition of the works, and feels confident that a few weeks will give a yield greater than ever before realized. It is important that there should be a full meeting of stock holders.

The warrants entered at the Treasury Department Washington, on the 26th inst., were as follows:—

For the redemption of stock	$2,098 40
For the Treasury Department	169 90
For the Interior Department	11,403 94
For the Customs	36,546 06
War warrants received and entered	124,695 19
Repay warrants	6,872, 99
For covering into the Treasury from miscellaneous sources	117 00
For covering into the Treasury from customs	6,995 63

The redemption of the public debt at the treasury department, Washington, during the week ending the 26th inst., was as follows: Loan of 1842, $5,000; 1846, $2,000; 1847, $6,250; 1848, $9,000—total, $21,250.

The Cumberland *Miners' Journal* of the 25th instant, says:—

From reports furnished us by the several mining companies, we make the following statements of the coal shipments for the week ending Saturday last, May 19: From the Cumberland Coal and Iron Company's collieries, there were sent to market, during the week, 4,468.16 tons. A portion, 2,857 15 tons, of this amount was sent via canal; the balance, 1,570.01, by railroad. The total amount shipped by this company since the 1st of January, 1855, is 49,308·15 tons. Over the Cumberland and Pennsylvania Railroad, from the Frostburg region, there were shipped for the week, 5,310 tons—2,486 tons by railroad, 1,824 tons by canal. From the George's Creek Coal and Iron Company's railroad, the amount of coal shipped for the week, was 5,008 08 tons—the total amount from this region since the 1st of January, is 67,504.10 tons. From the New Creek Company via Baltimore and Ohio Railroad, for the week, 284.11 tons were shipped. For the year, 1,397.10 tons were sent to market.

The following proposed amendment to the State constitution of Missouri, relative to the establishment of banks, has been passed by the Legislature of that State, and is to be voted on by the people in August next. It provides that the General Assembly of Missouri (two-thirds of each house concurring therein) shall have power to establish such bank or banks as may be deemed necessary for the interests of the State; but every bank so established shall be based upon a specie capital, and made liable to redeem its issues in gold or silver; provided that the number of banks chartered shall never exceed ten, and the aggregate amount of capital shall never exceed twenty millions of dollars.

The Lake Superior *Journal* of the 17th inst., says:—

Reports from the mines are thus far, this spring, quite confused and contradictory. Several mines are shipping copper freely, but for the most part they have been embarrassed and unproductive during the past winter, owing in part to the stringency of the money market, and partly to the want of powder, the supply of which, it will be recollected, was lost by the storms last fall. Many of the mines, also, find difficulty in collecting assessments on their stock, and their operations are thus entirely crippled. Stockholders should see that it is their interest to "pay up," and develope as far as possible. There is considerable copper above awaiting shipment, as also at this point. Most of that here is for the Ridge, Forest and Minnesota companies. There have been but two shipments below, as yet, viz:—May 13, per Northerner, for Copper Falls Mining Company, 178 barrels; May 16, per Illinois, Isle Royale, 362 barrels; Minnesota, 299 barrels.

The annexed statement exhibits the average daily condition of the leading departments of the banks of this city for the week ending Saturday morning, the 26th of May, 1855:—

The last returns, compared with those of the previous week, show a—

Decrease in discounts of	$514,982
Decrease in circulation of	148,993
Decrease in deposits of	585 478
Increase in specie of	89,476

The increase in the amount of specie on hand has not been as large as anticipated. The heavy receipts from California, and the limited shipments to Europe, induced us to expect a much greater addition to the supply of specie than that reported. The exportation during the present week will be large, and without an arrival from California with remittances of gold to a much greater extent than usual by the Nicaragua line, the next bank statement must show an important decrease in the stock of bullion in hand. The falling off in discounts is in accordance with the general expectation. It is well known that the banks have for some time past found it difficult to get all they wanted of the right kind of paper, and the contraction is more a matter of necessity than choice. The aggregate line of discounts is now lower than it has been since the 17th of February last, but a little larger than at this time last year. The variations in deposits and circulation are of secondary importance, as they do not bear so closely upon the money market as movements in the other departments.

CITY TRADE REPORT.

MONDAY, May 28—6 P. M.

BREADSTUFFS.—Flour—Market 12½c. lower on common to good grades, State, Western, and Canadian. The sales footed up about 9,000 a 10,000 bbls., included in which were common to good State and Western, at $10 25 a $10 50; Canadian (1,900 bbls.) at $11 50 a $11 37; Southern moderate. Sales at about $11 50 a $11 87. Being scarce, it closed buoyant. Wheat—Sales of 1,500 bushels white Michigan at p t. Corn—Acutve sales of about 60,000 bushels at $1 06 a $1 10 for Western mixed, and $1 13½ a $1 14 for Southern white and yellow. Rye quiet. Oats in less supply, and 4c. a 5c. higher. Sales of State and Western were made at 76c. a 80c.

COFFEE.—Sales embraced about 1,200 bags of Rio at 9¾c. a 9¾c., including one small lot at 10¾c.; and 350 do. Maracaibo at 10½c. a 10¾c, and 10¾c. The market closed at rates in favor of purchasers.

COTTON.—The sales reached from 4,000 a 5,000 bales, the tendency of the market being in favor of the seller.

FREIGHTS.—To Liverpool, 5,000 bushels of corn were taken at 3½d., in bags. Square cotton was at 5-32d., and 100 bales of Sea Island were engaged at ¾d.; and 1,000 bbls. tar at 2s. To London, 200 bbls. oil were engaged at 17s. 6d., and 2,000 bbls. rosin at 1s. 6d. To Glasgow, 1,200 bbls. rosin were engaged at 1s. 6d. To Hamburg, 200 bbls. rosin were taken at 1s. 9d., and 50 tons measurement goods at 20s. To Havre cotton and bone were at ½c., other articles were unchanged. To California rates were unchanged.

HAY.—Sales of about 300 a 500 bales were made at $1 12.

IRON.—Small sales of Scotch pig were making at $27 50 a $28 at six months.

NAVAL STORES.—400 bbls. spirits turpentine were sold at 43c., and 2,000 bbls. rosin at $1 85 a $1 90 per 310 lbs., delivered.

HIDES.—Prices favored purchasers, with some less activity; the stock on hand was about 85,000.

LEATHER.—The market was less active during the past week, though prices ruled firm at 22c. a 23c. for best Buenos Ayres, hemlock middle weights at 20c. a 21c. for Orinoco.

PROVISIONS.—Pork—The market was easier, with sales of 1,300 bbls, including old mess at $16 68, and new do at $17 62 a $17 75, and new prime at $14 50.
