lines, whence he received permission to return to his duties at Brussels.

Vienna letters say that the preparations made by the veteran Prince Paul Esterhazy, of Austria, now in his 71st year, and who will probably be the senior by age of all ambassadors at Moscow, tend to outrival in splendor those of M. de Morny. Among other magnificent articles he carries with him four costumes or changes of dress (one national Hungarian) and a suite of horse furniture sparkling from aigrette to spur with diamonds and precious stones. His own collection of jewellery is worth more than a "Jew's eye," and this has been augmented by loans from Vienna jewelers, and from other members of his family, who, it may be observed, are all possessed of the same taste for collecting jewelry.

The presence of the Empress mother of Russia, at Wildbad, has given unusual animation to that otherwise sober little bath, which is seldom selected by visiters unless absolute valetudinarians, as it possesses none of the usual attractions of German spas, such as theatre, gambling, or ball room. There is always a good orchestra there, however, and during the Empress's sojourn, the band of the Wurtemburg squadron of Life Guards has been detached to play in the park.

M. Kisseleff, the Russian Envoy at Rome, presented on the 5th July, his credentials to his Holiness the Pope.

The Grand Duke Michael of Russia, has been betrothed at Wildbad, to Princess Cecily, youngest sister of the Prince Regent of Baden.

The London *Post* says:—Among the most distinguished guests at the Duchess of Wellington's ball the presence of Lord Lyndhurst created exceeding interest. He was looking remarkably well, and while he remained was surrounded by groups who seemed to take great interest in approaching one who, even at this late period of life, has shown himself of the highest order of statesmanship and eloquence.

The Duchess of Wellington gave a grand ball at Apsley House on the 12th of July. Among the guests were his Excellency the American Minister and Mrs. Dallas, Miss Dallas, and Mr. P. Dallas.

In England Field Marshal Viscount Hardinge was progressing favorably towards recovery. On Friday, 11th of July, his Lordship had nearly recovered the use of his hand.

Mlle. Dubourdieu, daughter of Vice Admiral Dubourdieu, maritime prefect of Toulon, took the veil of the congregation of St. Joseph de Lavoor, on Wednesday, 9th July. This congregation, established in Paris, under the name of Notre Dame des Arts, by the Countess d'Anglais de Beaugnac has for object to educate the orphan daughters of artists, literary men and civil employes.

The Bengal *Hurkaru*, of June 3, says:—The King of Oude is still in Calcutta, and it is a matter of considerable doubt if he will ever embark for England. The Governor General has advised him not to leave India. Lord Canning declined to grant him an audience for the purpose of discussing questions bearing upon the annexation of Oude, and gave him to understand that he would probably meet with similar refusals from men in power in England. Meanwhile the King is threatened with actions in the Supreme Courts, by steam and carriage companies, for demurrage and breach of contract, and going to England he will possibly jump out of the frying pan into the fire, as several individuals having enormous claims against the Oude States, are said to intend taking legal proceedings against him on his arrival in London.

Where are the Garbage Cartmen?
TO THE EDITOR OF THE HERALD.
NEW YORK, July 29, 1856.

The City Inspector, in his communication, intimates that every householder, by a little personal exertion, can assist in keeping the streets clean, and should be willing to do so.

I am a householder and have used a little exertion, but all to no purpose. The parties who merit the most censure are persons that none of the officials think of looking after. These parties are the garbage cartmen; they only come around once a week, sometimes twice; and at this time, some of them have so much political business on hand, they don't have time to come around themselves, they send children whose aim appears to be, not to collect garbage, but to get what they call 2:40 out of the horses.

Anybody can readily conceive that it is far more preferable, in this hot weather, to let garbage diffuse its miasma in the street than in the house. If you put it in a vessel and place it on the sidewalk, you would have to take it in at night, or the vessel would be missing in the morning, and there are some folks that can't afford to lose their household fixtures in that manner. HOUSEHOLDER.

To Strangers and Citizens.

August.

Here August with his daughter comes,
A sheaf of wheat her hand doth bear,
And golden corn and poppy blooms
Are tangled in her flowing hair—
Oh, glorious month of crimson dawns,
And sunsets lingering, soft and red—
How lovely look the smiling lawns,
How fair the fruit hangs overhead!

Oh, month of ripeness! ne'er depart;
Oh linger long and late below;
But dangerous to the health thou art,
With all thy changing chill and glow;
Thy midnight dews are cold and sad,
Thy sultry noons oppress the breath—
And thousands, if not fitly clad,
By thee are ushered into death.

But glorious art thou unto those
Who stand prepared to face thy changes,
In suits of such well fashioned clothes
As Smith can give to friends and strangers,
In Fulton street, at Smith's, you'll find
The latest styles for fall and summer,
Economy and taste combined,
They sell for cash, and keep no "drummer."

"Congress Water" Surpassed—"Saratoga Water" excelled.

"Empire Spring" superseded—Pure Iodine Water triumphant.

It is a conceded fact among physicians that the medical value of the most celebrated and popular spas or "waters" in the United States arises chiefly, if not entirely, from

THE IODINE THEY CONTAIN,

and that they are only effective remedial agents in proportion to the amount of iodine they hold in solution.

ANDERS' PURE IODINE WATER,

therefore, which Dr. James R. Chilton certifies to be a "Solution of Pure Iodine in Water," and to embrace "about half a grain of iodine to each fluid ounce of water," is necessarily

SUPERIOR TO ALL THE MEDICATED SPRINGS,

which invalids submit to such a waste of time, comfort and money, to visit. The "Congress Water," the "Saratoga Water," as well as the "Empire Spring" Water, only contain a trifling proportion of iodine of magnesium, but Dr. Anders' Iodine Water embodies the

GREATEST AMOUNT OF PURE IODINE EVER KNOWN

to be held in solution by pure water itself, and hence, being free from all extraneous or antagonistic matter, may be considered a

REAL SPECIFIC FOR FEVER AND AGUE,

as well as for all other disorders in which the use of Iodine is particularly indicated. Its effect in the

RADICAL CURE OF DYSPEPSIA

is beyond all ordinary conception; while for the

PERFECT CURE OF SCROFULA, IN ALL ITS FORMS, AND

the entire range of pulmonary complaints, it stands perfectly unrivalled in the whole catalogue of pharmaceutical preparations. Sold, wholesale and retail, by

ANDERS & FOSDICK,
No. 3 Second avenue and 862 Broadway,
J. D. Young, Chicago, and druggists generally.

I have analyzed the "Iodine Water" prepared by Dr. Anders, and find it to be a solution of pure Iodine in water. It has long been a desideratum to prepare Iodine so that it can be administered in its uncombined state. This preparation by Dr. Anders enables us to effect that object. Each fluid ounce of the Water contains about half a grain of Iodine. I consider it a valuable preparation, and one which will prove serviceable in all those cases where the use of Iodine is indicated.

JAMES R. CHILTON, M. D., Chemist.

NEW YORK, May 22, 1856.
