been published. Capt. Townsend is an extremely good looking man, very gentlemanly in his address, and about thirty five years of age. He gives no indication of where he belongs, and even his christian name is unknown. At the conclusion of the testimony, the prisoner was remanded to jail until the 21st inst., when a further examination will be held. Milton Andros, Assistant District Attorney, conducted the case for the United States, and Chas. R. Train and J. H. Prince for the prisoner.

CAPTURE OF TAMPICO BY THE LIBERAL FORCES—ADVANCE OF VIDAURRI ON THE CITY OF MEXICO—DEFEAT OF MIRAMON, ETC.

WASHINGTON, Sept. 11, 1858.

New Orleans papers of Tuesday last, containing Mexican news, are to hand.

Tampico was captured by the liberalists, with 400 frontiersmen, assisted by the revolutionists inside.

Gen. Vidaurri, with 10,000 men and fifty four pieces of artillery, was left at San Luis early this month, to march against Guanajuato and the city of Mexico.

A financial transaction was about to take place between Gen. Vidaurri and the Governor of Zacatecas, by which it was provided that Vidaurri would be placed in the possession of ample means to insure success.

An express arrived at San Luis on the 16th of August, saying that the forces of Aramberri had defeated those of Mejia; that those of Huerta had defeated those of Miramon, stationed at Salamanca; that Miramon was on his way to the city of Mexico; and that the forces of Aramberri had gone in pursuit of the disbanded ones of Mejia, until the latter had entered Queretaro.

The Meeting of the Railroad Presidents.

PHILADELPHIA, Sept. 11, 1858.

The results of the Convention of Railroad Presidents are a general advance of the passenger fare from all competing points to New York, of three dollars, and a very slight advance on the fares to Philadelphia, making the rates to both points about the same as previous to the reduction. These rates, together with an advance on the rates of freight, go into effect after reinstatement by the four lines interested.

The rates of freight from the principal points West to New York, for one hundred pounds, as charged, are as follows:—

AMERICAN ATLANTIC AND PACIFIC SHIP CANAL COMPANY.—This company yesterday despatched their third boat for the river San Juan and Lake Nicaragua. A few invited guests were on board of her, who were landed at Staten Island; after which the boat proceeded on her way. Among the gentlemen present we noticed Senor Yriarrie, the Nicaraguan Minister, and his Secretary, Mr. Vela; Mr. Xiverton, the President of the Company; Mr. Purroy, the Vice President; Mr. White, the Consul; Mr. Lee, the Secretary, and many stockholders and friends of the route. A very neat collation was served; many toasts were drank to the success of the enterprise, and the company separated highly pleased with their trip. This boat, formerly called the Liberty, plying between New York and Astoria, is now called the Laura Frances, in honor of the wife of the counsel to the company. The Catharine Maria, the sailing of which we announced two days since, was named by the company in honor of the wife of the Vice President thereof.

The three boats—the sailing of which we have announced—are designed for the lake service after the month of February next. Prior to that time two of them will ply on the river. Before the month of February two iron steamers, not exceeding sixteen inches draft, will be sent to and employed on the river San Juan; each of them, we are assured, will be capable of transporting 1,200 passengers.

We understand that two excellent sea steamers have been purchased by the company for that part of the route between New York and San Juan del Norte, each capable of accommodating comfortably 800 passengers.

The news of the opening of the route via Nicaragua will no doubt be received with great joy in California, whose interests are so deeply concerned in opening every possible avenue of communication with the Atlantic States. We ourselves must say the more of them there are the merrier, and the better for the interests of commerce.

Yellow Fever and Bilious Affections.—Those who are subject, by contact, or who being obliged to reside or remain in the vicinity of the pestilence, will do well to protect themselves by an occasional dose of Brandreth's pills. They will prevent all danger. If used when the production of all the powers of the body comes on, whether accompanied by delirium, by purging, or by simple dizziness and uncertainty of outward impressions, the first thing to be done is to take a dose of

BRANDRETH'S PILLS.

The very cause of these difficulties will be speedily expelled from the bowels and circulation, and there is no congestion or other evil to be feared from their use. This is not so with calomel, opium or quinine. It is true you may sometimes alleviate pain and fever by their use, but also the fatal sickness, the sudden deaths which follow too often the use of these remedies, are sad experiences for the mothers and fathers who have permitted their loved ones to use them. May it be all cases be done ignorantly and not against light and reason.

In any painful disease let four or six of Brandreth's pills be taken every few hours. This method will relieve the pain as soon as opium or other anodynes, and there will be no evil after effects. Another and yet another purgation may occur, and the patient may fear he will purge himself to death, but if he have the courage and understanding to continue the pills he will have the advantage of recovering his health sooner than by any other method.

FINANCIAL AND COMMERCIAL.

MONEY MARKET.

SATURDAY, September 11—6 P. M.

The stock market was pretty well sustained today, and in some stocks a trifling advance was realized. The feature of the stock movement of this and the past day or two has been free purchasing stock by the bears, who apprehended that a rise would follow any adjustment of the Erie and Central dispute at Philadelphia. It is presumed that since Wednesday five thousand shares of Central, Erie, and Rock Island have been bought by the bears to cover their outstanding contracts. Judging from this morning's movement, the caution of the bears was laudable but unnecessary. It was known early in the morning that a basis of adjustment had been carried out by the railroad presidents at Philadelphia; but neither Erie nor Central felt the effect of the news as much as might have been expected. Central opened at 79¾, at which price over a thousand shares were taken, doubtless for the bear account; the stock then moved upward, without much activity, and after the Board, when the news of the settlement was generally known, touched 80. Erie was steady at yesterday's highest price, transactions being limited. The Western stocks were sluggish, though there were more transactions than usual in Rock Island. This latter stock did not move much from yesterday's price. Toledo, after rising ¼ above closing price yesterday, fell back to that figure; Michigan Southern, common and preferred, were steady and looking promising; Illinois Central—probably on the strength of an order from Europe—was nearly ½ better. Reading continues to be sustained by the sales of the bears. But for the demand arising from them, the loss of business would naturally cause a serious decline in the stock. Pacific Mail, which is also hotly assailed by the bears, holds its own well. Panama is dull. The only transactions in bank stocks were a sale of Continental at and a sale of American Exchange at a shade below yesterday's prices. Missouris seem to have a declining tendency again, though the business done was perhaps too small to enable one to judge. Illinois bonds have declined ¼; Hudson River 3d mortgage bonds have risen 3 a 4 per cent in the past month or two, and are much sought by capitalists. A single La Crosse land grant bond sold this morning at a decline of ¼.

The market closed pretty strong, and after the board rather better prices ruled. In accordance with a vote of the members of the Stock Exchange, and seemingly to the dissatisfaction of the older and graver members, there was no second board this afternoon.

There is no change in money to report. In some quarters it is reported as easy as 3½; in others hard to get at 4. But in reality there appears to be no change; the brokers are using as much money borrowed at 3 and 3½ as at 4 and 4½. An effort is being made by the banks to tighten the market: it is likely to succeed. Exchange on Europe for the North Star closed as noticed yesterday. We quote sterling at 119½ a 110, francs 5.12 a 5.10. The North Star took out $193,430 in specie.

The exchanges at the Bank Clearing House this morning were $14,753,948 66, and the balances $943,625 60. The Metropolitan certificates remain at $3,000.

The following was the business at the Sub-Treasury to-day.

CAUTION TO SOUTHERN MERCHANTS.
I understand a large quantity of counterfeit and imitation Sebiedams aromatic schnapps has been sent to this market from Philadelphia, and so did to some of the wholesale grocers, druggists and liquor merchants who are offering it much below my wholesale price. I would caution Southern and Western merchants from purchasing the vile stuff, as it is nothing but American whiskey flavored with juniper, and reduced some thirty per cent below proof.

GREAT FIRE IN THE BOWERY.
STILL ANOTHER TRIUMPH OF VALENTINE & BUTLER'S ALUM PATENT SAFE.
NEW YORK, Tuesday, Sept. 7, 1858.
MESSRS. VALENTINE & BUTLER:
GENTLEMEN—In the 3d inst. the premises No. 13 Bowery, occupied by us, were entirely destroyed by fire. All our books, valuable papers, &c., were preserved in one of your Alum Patent Safes. The safe was subjected to a severe trial, having been in the centre of the building, which was five stories high and ninety feet deep. It remained in the ruins thirty hours, having fallen into a large bin of burning charcoal, which rendered it very much heated. It cooler on opening it we found, to our gratification, all its contents uninjured excepting the bindings of the books, which were started by the steam—valuable papers, bank bills, &c., being in as perfect a condition as when deposited. These evidences of the great value of your safe, when subjected to an intense fire, we shall be pleased to submit for examination when called upon to do so. Respectfully yours, &c.
