market in the afternoon, and the street rates ruled ¼ a ⅜ per cent premium. The banks sold at ¼ a ⅜ per cent. Owing to a scarcity of vessels in the river, shippers did not offer so much produce paper, and the leading banks were scarcely so hard run as for two or three days past. Still there was none to spare at any of the institutions, and some of them had to resort to throwing out checks till collections were made of the bankers.

The Philadelphia *Bulletin* of last evening says:—

There is a moderate demand for money both at the bank and on the street, but it is freely met and the rates are unchanged. Trade in some departments is improving, yet we hear of frequent complaints of dulness.

Official notice has been given of the readiness of the Michigan Southern company to fund the coupons on their second mortgage bonds:—

The holders of the second general mortgage bonds of this company are hereby notified that the Treasurer will, after the 30th inst., fund all unpaid coupons of said class of bonds, of earlier date than November, 1859, and the four coupons of November, 1859, May and November, 1860, and May, 1861, by giving in exchange therefor the second general mortgage bonds of this company at par. For all coupons offered in full sets the bonds given in exchange will bear interest as of November, 1860. The holders of the plain unsecured bonds of this company may exchange said bonds for first mortgage bonds of the Detroit, Monroe and Toledo Railroad Company at par. For the coupons now due thereon scrip will be issued, convertible in like manner.

The buyer of these bonds, if his interest bonds bring 60, gets about 12 per cent for carrying them fourteen months, or about 18 per cent interest on his money, and then has a 7 per cent bond at about 67.

GRAIN MOVEMENTS AT THE WEST.

The water in the Mississippi and Minnesota rivers is so low that fears are entertained that a large portion of this year's wheat crop will have to be stored in the Northwestern States until the opening of navigation in the spring.

The receipts at Milwaukee on the 6th inst. were over 80,000 bushels of wheat, and showed signs of a continued steady increase.
