The miners having resumed work, the sale of coal at public auction, announced by the Board of Managers for the 23d day of December, 1862, will take place on Wednesday, the 25th day of February, 1863, at 12 o'clock M., at the room now used as the Merchants' Exchange, Nos. 26 and 28 Exchange place, corner of William street, SIMEON DRAPER, Auctioneer, at which time and place they will offer for sale 30,000 TONS OF FRESH MINED SCRANTON COAL, embracing all the usual sizes, and deliverable at their depot, Hoboken, N. J., after the 1st of March next. They will repeat such auction sales on or about the 20th of each month, during the year 1863. The sale will be positive. Each lot put up will be sold to the highest bidder, no bids, in any form whatever, being made for account of or on behalf of the company. Fifty cents per ton, in bankable funds, to be paid at the time and place of sale, and the balance in like funds, on receiving the order for the coal, which must be called for within ten days thereafter, and the coal taken away within thirty days from the day of sale, unless navigation is obstructed. Buyers who wish, however, can have an additional thirty days for taking the delivery of their purchases, by making a further deposit of fifty cents per ton, within the ten days above specified. Interest, at 7 per cent per annum, will in such case be charged on the balance, from the time stipulated for payment until paid; and twenty-five cents per ton to cover the expenses of stocking the coal—both to be paid on delivery of order. The other conditions of sale will be substantially those hitherto accepted by all purchasers, by private contract, of coal delivered at Elizabethport, so far as applicable. The coal will be delivered direct from the cars on their arrival from the mines, when practicable—otherwise from the stock. These conditions will be modified to meet the wants of ocean steamers, whose arrival cannot be definitely fixed. With a reliable avenue from the Lackawanna and Wyoming valleys by railroad, open every day in the year (Sundays excepted), requiring but 12 hours for the transit of the trains, the advantages of such sales, and the superior condition in which the coal will be delivered, are so apparent, they cannot doubt this mode of selling will commend itself to the favorable consideration of both the trade and consumers, whose co-operation is respectfully invited.
