FINANCIAL AND COMMERCIAL.

THURSDAY, June 2—6 P. M.

The terror which the announcement that Secretary Chase was again to make a visit to Wall street caused, and the flutter which the proposed issue of a new batch of government bonds occasioned, having vanished, the stock market became buoyant to-day, and better prices were realized, although the transactions continued light. Compared with the best cash sales at the first meeting of the Board of Brokers yesterday, New York Central advanced 1¼ per cent, Erie Railway 1¼, Hudson River 2½, Reading ¾, Michigan Central 1¼, Michigan Southern ¾, Illinois Central 1, Galena and Chicago 5, Chicago and Rock Island ¾, Pittsburg and Fort Wayne 2, Chicago and Northwestern ¾, Cumberland Coal 2, Quicksilver Mining 1¼, and Mariposa ⅛.

The corner which was inaugurated about three months since in Harlem Railroad stock culminated yesterday in a sale at 285. To-day it fell 25 per cent, selling at 260.

The market in the afternoon maintained its buoyant tone. The following were the closing quotations:—New York Central 133¾, Erie 118, Erie preferred 109, Hudson River 144¾, Reading 149¾, Michigan Central 145¾, Michigan Southern 96¼, Illinois Central 128¾, Cleveland and Pittsburg 112¾, Galena and Chicago 144¾, Chicago and Rock Island 113¾, Toledo and Wabash 71, Chicago and Northwestern 59¼, Pacific Mail 236, Quicksilver Mining 75¾, and Cumberland Coal 82¾.

Government stocks were firm at improved prices, the registered five-twenties selling at 105¼, and the coupons of 1881 at 113¾. The closing quotations were for coupon five-twenties 106, and for seven and three-tenths Treasury notes 110.

Gold was rather more active to-day. It opened at 189⅞, and sold up to 191.

The report of the Assistant Treasurer to-day is as follows:—

Amount on hand	$23,062,125
Receipts from customs	98,000
From other sources	2,547,088
Total	$25,705,213
Payments	1,917,906
Balance	$23,787,307

The exports from Boston last week were $384,080, against $460,306 for the corresponding week in 1863. The imports were $911,076, against $566,254 for the same period in 1863.

The condition of the banks of the three principal cities of the Union is exhibited in the following table, which gives the aggregates of their last weekly statements:—

	Loans.	Specie.	Circulation.	Deposits.

Decrease in circulation				531,765
Decrease in deposits				462,240

The following statement shows the movements of the banks organized under the general banking law of Missouri since the 1st of January, 1861. The number of banks which went into operation under that law was nine, which, with thirty-three branches, made the total at one time forty-two. Within a year or two several of the branch banks have been discontinued, and the Southern Bank has been converted into a national bank, and is now known as the Third National Bank of St. Louis:—

	Jan. 1, '61.	Jan. 1, '62.	Jan. 1, '63.	Jan. 1, '64.
Loans and dis.	$17,072,944	11,243,288	[illegible]4,175	8,802,979

Deposits	3,352,879	2,068,473	3,434,262	5,675,134

—By these statements it will be seen that the loans and discounts have, during the period covered by the war, been reduced from seventeen millions to eight millions eight hundred thousand, while the circulation has been reduced from eight millions to two millions. The amount of specie, though it fell off from 1861 to 1862 nearly a million, is now not six hundred thousand dollars less than it was at the beginning of the period—with this great difference in another point of view, that, while in 1862 the specie on hand would not pay off half the circulation, it now suffices to pay it one and a half time over.

The returns of the Bank of England for the week ending May 18 compare with the statement of the previous week as follows:—

	May 12.	May 18.
Public deposits	£7,299,494	7,566,661
Other deposits	12,901,160	12,962,462

Other securities	21,356,943	20,973,429
Notes in circulation	20,958,850	20,819,535
Specie and bullion	12,705,251	13,267,446

The Philadelphia and Erie Railroad is rapidly nearing completion. Only about sixteen miles of road are to be completed to connect its eastern and western ends, and all but three miles of this part of the road is ready for the track layers, and the iron is being laid as rapidly as it can be procured. The month of July next has been named as the time for its formal opening.
