FINANCIAL AND COMMERCIAL.

MONDAY, March 27—6 P. M.

The stock market was firmer this morning than it has been for the last fortnight, and quotations improved in most cases upon the closing prices of last week. New York Central was 2¾ higher than at Saturday's first board, Hudson River ¼, Cleveland and Pittsburg ¾, Rock Island 1, Fort Wayne 1, Cumberland 1¼. Michigan Central was ¼ lower, Reading ¼, Michigan Southern 1¼, Illinois Central 2¼. Northwestern 1¼. Government securities were firm.

At the open board, at one o'clock, the market opened strong, at an advance of 1 a 3 per cent, but closed rather heavy. At the second regular board prices submitted to a decline of ¼ a 1 per cent, excepting for governments, which were steady. At the open board, at half-past three, the market was dull and irregular. The Western list was strong, and Fort Wayne advanced 2.

Money has been abundant to day, and the announcement that the government has seventy millions of compound six per cent notes at its immediate disposal, to replace five per cent notes withdrawn from circulation, imparts confidence in an easy market to lenders. The bank statement for the week indicates the severe contraction that has been going forward. Call loans are made at 7 per cent, but commercial paper is not in demand.

Foreign exchange is steady at 109 a ⅛ for sixty days b[illegible], and 110¼ a ½ at short sight.

The gold market was influenced slightly by the favorable reports from Grant and Sherman, but it subsequently recovered. There is an impression in the room that government securities may be returned here from Europe for sale, but this is improbable, for the news of the fall in gold on this side will produce a sharp advance in five twenties on the other sufficient, in all probability, to more [illegible] difference, and meanwhile a rise in the gold premium is likely to oppose a still greater obstacle to a return of our bonds. The quotations during the day were:—

10 30 A. M.	155¾	2 30 P. M.	153¾
11 30 A. M.	154¼	3 25 P. M.	153¾
12 40 P. M.	154¾	4 00 P. M.	154¼
1 35 P. M.	154¼	5 00 P. M.	154¼

We are glad to hear that the Secretary of the Treasury will shortly issue a statement of the public debt, and that the unpaid requisitions have been reduced to a mere fraction of what they were popularly supposed to be a few days ago. Such a report will do more good than all the advocacy of the so-called Loyal League fraternity, and silence the assertions and insinuations of the "copperheads," whenever they may be. But it should be published periodically, and give the same details as the reports of 1864. The people have every disposition to assist the government, and they, for the most part, have perfect faith in the future. It, therefore, the Treasury should be in want of money [illegible] time it will be its own fault.

National stocks are firmly held all over the country, and the recent decline in their market value, it has transpired, was more in consequence of "short" sales by the leading "bears" in the gold room than by those on legitimate account. But when all around stocks were tumbling down a sympathetic movement in governments was natural. The decline, however, was excessive, and it has as yet been only partially recovered from. Five-twenties, which gold as high as 114 last April, are now only 105¾, although they carry nearly five months' accumulated interest. Gold was then as low as it is now. Tenforties, in the same manner, are more than six per cent below what they were a month ago, less interest. The government has its immense expenditures still going forward, and its only dependence is upon the seven-thirty loan. The subscriptions to this are of course affected by an undue depression of the market price of its long bonds. But under existing circumstances it is desirable that the price of government securities should be disassociated from that of gold as much as possible, for the caprice of speculation may send the latter up or down without cause, and therefore governments ought to be the slowest to move and the most stable of all investments.

The following figures compare the last weekly statement of the New York associated banks with the returns of the previous week:—

BRIG WILLIAM BEAUFORT (Br), from Prince Edward Island for New York, was totally wrecked on Sable Island on the 20th inst.

BRIG TROPIC BIRD—The cargo of the brig Tropic Bird, ashore on the beach at Atlantic City, consists of 250 bales of cotton. The cotton has been discharged, and is housed in Atlantic City. The Secretary of the Treasury has not yet decided whether to allow the cotton to be reshipped to New York, or to require it to be sold at Atlantic City, according to law. The vessel cleared regularly from Matamoros, Mexico. The cotton was insured in Hamburg and consigned to New York. The wreck has been condemned by the survey, and was to be sold at auction on Saturday.

SCHR ANGLER (Br), Shannon, from Port au Prince for Boston, cargo of cotton, coffee, logwood, &c, went aspore on the morning of 22d inst, during thick weather, on the west side of Block Island. The cargo has all been landed on the beach, a portion of it in a damaged condition. The vessel has bilged, and is full of water, but it is thought she may be saved if the weather continues favorable.
