FINANCIAL AND COMMERCIAL

TUESDAY, March 13—6 P. M.

The stock market opened without much spirit this morning under a further depression of the price of gold, but as the day advanced there was increased activity, and quotations were again in the ascendant. Michigan Southern still continues the strongest of the railway shares, and the brisk movement going forward in it appears to be based upon the improved financial condition of the road and the prospect of its soon resuming the regular payment of dividends. Hence the forthcoming annual report of the Company is looked forward to with interest. The excitement in Erie has died out for the present, which is somewhat of a relief to the market, and business is, on the whole, well distributed. The increasing abundance of money at this centre is stimulating speculation for a rise, by reason of the facilities it presents for carrying heavy lines of stocks, and the indications being favorable to prolonged ease confidence in values is being strengthened accordingly. Loans at call are now made exclusively at six per cent on ordinary railway collaterals and at five per cent on government securities.

At the early session of the open board the market was dull. Michigan Southern (sales 3,250 shares) sold at 76, Erie 82⅛ (a. 3), New York Central 91, Northwestern preferred 53, Fort Wayne 90⅜, Schuylkill Coal 15. At the first regular board speculation halted in view of the declining tendency of gold. Illinois Central closed ¼ higher than at the half-past two board yesterday, Alton and Terre Haute 1½, Western Union Telegraph ⅝. New York Central was ¾ lower, Erie ¾, Reading ⅝, Michigan Southern ½, Cleveland and Pittsburg 1, Northwestern preferred ⅝, Rock Island ¼, Fort Wayne ½, Ohio and Mississippi certificates ⅛, Missouri sixes were active and closed ⅛ higher. Government securities were quiet. Coupon five-twenties of the old issue declined ¼. Coupon ten-forties advanced ⅛. Seven-thirty notes were firm under the extreme monetary ease and ⅛ a ¼ higher.

At the one o'clock sessions the market was firmer, and Michigan Southern sold at 77 a ⅛ (sales 4,800 shares). At the half-past two board there was increased buoyancy, and Reading closed ¾ higher than at the first regular board. Michigan Southern ⅜, Illinois Central 1, Northwestern preferred ½, Fort Wayne 1½, Western Union Telegraph ¼, Canton ¼. Government securities were dull, but firm. Coupon five-twenties of the old issue were ⅜ higher; third issue ⅛. Ten-forties declined ⅛. Seven-thirty notes were steady.

Afterwards there was a very firm and active market, with special strength and activity in Michigan Southern and Cleveland and Pittsburg. At half-past five o'clock the former was quoted at 77⅛ a ⅜, and the latter at 77 a ⅝, New York Central 91⅛ a ¾, Erie 82¾ a ⅞, Reading 99 a ½, Rock Island 108½ a ¾, Northwestern 26½ a ¾, preferred 54 a ¼, Fort Wayne 91¼ a ½, Ohio and Mississippi certificates 25 a ⅛.

Compound interest notes are firm, notwithstanding the resolution offered by Mr. Hooper, of Massachusetts, in Congress, to render them unavailable as bank reserves. It is, however, understood that Mr. McCulloch is opposed to the proposed measure, and we consider very properly so. It would certainly be an invidious distinction to make legal tenders non-legal tenders in such a case, merely because they bear interest. It is known that there is a feeling of rivalry on the part of the Boston banking interest with regard to the banks here in consequence of the latter allowing interest on their deposits, and thereby attracting a large amount of capital from other cities; but it would, perhaps, be unwarrantable to attribute Mr. Hooper's resolution to this, although the effect of its passage would probably be to cause the New York banks to reduce the rate of interest, if not to discontinue interest altogether on deposits, thus ceasing to attract capital from New England and elsewhere. There is but little probability of the passage of the resolution; but, even should it pass, it would exert a very slight influence upon the money market. The reserves of nearly all the leading banks are largely in excess of what the law requires, and if a brisk demand for money set in, compound notes would enter freely into general circulation at par, and in some cases with the accrued interest allowed.

The gold market opened with a very unsettled tone at 129⅞, from which it declined to 129⅝, and then advanced to 130⅛. It subsequently relapsed to 130, and at five o'clock this was the price bid. There was an active borrowing demand for coin, which was loaned flat and at interest ranging from two to four per cent. The weakness of the market is a source of surprise to the government and the mass of the commercial community, and is directly traceable to the operations of the speculators in the room, who have been almost exclusively "bears" since the last sales of gold by the Sub-Treasury were made. When these men find that they cannot get the premium any lower they will turn about on the "bull" tack, in which the Treasury will again aid them by not selling gold. Thus this tampering secretly with the market is productive of mischief to legitimate trade by unsettling values based upon the specie worth of the greenback dollar, and producing stagnation on all sides. Gold is to be sold by the Treasury it should be done openly and previously announced by advertisement, after being presented, or upon the presentation of vouchers, to meet the demand for customs duties.

The transactions in foreign exchange were limited, and, notwithstanding the heavy decline in gold, importers showed no disposition to remit at current quotations. Meanwhile drawers were at the same time equally indisposed to relax their rates. Bankers' bills on England at sixty days were quoted at 108⅞ a ⅞; three days, 109⅞ a 110; commercial, 107 a 108⅛; francs, at long sight, 5.20 a 5.2 3⅞; short sight, 5.17 a 5.18⅞.

The discount market is not active for first class commercial paper, which is being closely scrutinized, seven per cent and the second class being abundantly supplied with from eight to twelve.

The new financial bill introduced in the Senate to-day by Mr. Sherman shows the conservative tendencies of Congress with regard to the currency. The bill provides that the aggregate amount of legal tender notes shall not fall below four hundred and twenty millions of dollars, and that all the surplus in the treasury over twenty millions of coin, and the same amount in currency, shall be used to satisfy the accruing indebtedness for the purchase and retiring of bonds and interest bearing notes, and it is further provided that the same legal tender notes shall not be reissued the interest bearing legal tender notes shall not be reissued faster than at the rate of five millions per month.

The business at the Sub-Treasury to day was as follows:—

Total receipts	$1,821,117
Payments	805,509
Balance	90,497,076
For customs	552,000
On account of government loan	2,000
Coin certificates	616,000

CITY COMMERCIAL REPORT.

TUESDAY, March 13—6 P. M.

ASHES.—Receipts, 20 packages. The market was quiet and nominal, as much for want of supplies as anything, though the demand was very limited.

BREAD-TUFFS.—Receipts, 9,004 bbls. flour, 60 do. and 5,183 bags corn meal, 7,250 bushels corn, 5,100 do. oats, 500 do. rye and 750 do. malt. Inferior grades of State and Western flour again declined 10c. per bbl., under a limited inquiry. Ordinary to prime parcels remained quite steady at previous quotations, though, if anything, medium grades were rather in buyers' favor. The sales, including all qualities, were less than 4,000 bbls., at our revised quotations subjoined. Southern flour was in moderate demand, at previous prices for good and choice brands, but common and inferior grades were neglected, and prices, though not decidedly lower, strongly tended downward; the sales were about 500 bbls. The under grades of Canada flour were sold 5c. a 10c. lower; good to prime qualities were held firmly, with sales of 300 bbls. at our quotations. Rye flour continued inactive and nominal. Corn meal was dull and heavy, with no sales of moment reported. We quote:—

—The wheat market was again quiet and heavy, spring reling nominally 1c. a 2c. in buyers' favor. The sales were very small, comprising only about 10,000 bushels, at $1 75 a $1 77 for amber Iowa and $1 70 for fair new No. 1 Milwaukee. The transactions in corn were very light, and prices were again heavy, closing nominal at a decline of 1c. a 2c. per bushel. The sales were only 50 000 bushels mainly at 69c. a 73c. for unsound, and 74c. a 76c. for sound mixed Western in store and delivered. Oats were heavy and droop'ng under a continued limited demand. The market closed nominal at 35c. a 43c. for unsound and 53c. a 54c. for sound, 55c. a 55½c. for State, 54c. a 56c., for Canada—the latter rate an extreme, and 51c. for Jersey. FINANCIAL.

COLUMBIA FIRE INSURANCE COMPANY.

Since the failure of the Columbia Marine Insurance Company a rumor has obtained circulation (probably from a similarity of names) that the Columbia Fire Insurance Company intended to wind up its business and was not taking fire risks. The object of this note is to say that there is not and has not been any intention on the part of the Board of Directors to discontinue its business; on the contrary, the business has been and now is constantly on the increase, and the Company is prepared to issue policies as usual on all good and desirable risks and to pay its losses promptly.
