FINANCIAL AND COMMERCIAL.

THURSDAY, Oct. 24—6 P. M.

The gold market has been somewhat depressed to-day by speculative operations for a fall, stimulated to some extent by a rumor that the Treasury would anticipate the payment of the November coupons and thus increase the floating supply of coin. The opening transactions were at 143¾, from which point there was a gradual decline to 142¾ and a subsequent recovery to 142¾ a 142⅞ at the close, but afterwards on the street 143 was bid. There was a brisk borrowing demand for gold, but the supply was larger in proportion to the demand than it was yesterday. Loans were made at 1-16, 1-32, 1-64, 3-64 and 5-64 per cent per diem respectively in favor of the lender of the coin and without interest. The gross clearings amounted to $235,726,000, the gold balances to $890,537 and the currency balances to $1,428,556.

The money market was well supplied with capital, and there was only a moderate demand for loans from the Stock Exchange, which was freely met at 7 per cent. In the discount line there is, however, no change to note, and even the best grade of outside commercial paper is with difficulty disposed of, either at the banks or among the note brokers, at 2 a 4 per cent above the legal rate, although what little the banks take to accommodate their customers generally passes at 7. The drain of currency westward is at present almost entirely offset by the receipts from that section. According to the abstract of the quarterly returns of the national banks of this city, prepared by the Comptroller of the Currency and telegraphed from Washington, the circulation and deposits amount together to $245,000,000, the legal reserve upon which would be $61,250,000, or $618,000 less than the banks actually hold, namely—$61,868,000. An explanatory note accompanying the despatch states the aggregate of circulation and deposits to be about $190,000,000, on which a reserve of only $47,000,000 would be required, whereas the reserve, being $62,000,000, is 8 per cent in excess of the required amount. There is a discrepancy here which calls for explanation, but probably the abstract is correct and the accompanying note a blunder.

The railway share market has been weak and unsettled, and the bull cliques appear to be at their wits' end to devise ways and means for carrying out their programme. Erie and Northwestern common, two of the most worthless of the non-dividend paying stocks, are the only props that just now support the speculation for a rise, and they are liable to break down at any time, although those manipulating them mean to carry them higher if they can; but it will be like forcing water to run up hill, and the reaction, when it does come, will be sharp, short and decisive. The extreme depression in Milwaukee and St. Paul was due in part to the sale of stock held by a merchant of this city recently deceased. The advance of the stock of the Merchants' Union Express Company to 30, or within 5 per cent of the amount paid up, although followed by a relapse to 27½, is construed as unfavorable to the old companies, and there is some disposition shown to sell their stock in consequence, and in this connection there is a rumor afloat of a proposed consolidation of all the old companies under one common name and management. The bull cliques on the Stock Exchange will probably renew their efforts to rally the market from the depression of the last few days, but they have lost the support of the street to a great extent, and the outside public is indisposed to buy non dividend railway shares at present prices.

Government securities were dull and steady at the counters of the leading dealers during the morning, but in the afternoon there was an improved demand, and the market became strong. There is a large "short" interest still outstanding, and the bears are anxious to "cover" their contracts, but find that they cannot do so without materially advancing prices. The borrowing demand is so active that everything on the list can be loaned without interest, or, technically speaking, "flat." The low prices at which the six per cent gold bearing stocks are now selling are attracting capital from other investments, and the continued glut of capital in Europe is likely to lead to further large purchases of the five-twenties of 1862 and 1865, the only issues which have yet found a foreign market. The semi-annual interest on these will fall due on the 1st of November. At the close the market was firm at the following quotations:—Registered, 1881, 111¼ a 111½; coupon, 1881, 111¼ a 111¾; 5-20's, registered, 1862, 114 a 114¼; 5-20's, coupon, 1862, 112¼ a 112½; 5-20's, coupon, 1864, 109 a 109¼; 5-20's, coupon, 1865, 109¼ a 109¾; do do., January and July, 106¼ a 107½; 5-20's, coupon, 1867, 106¾ a 106⅞; 10-40's, registered, 100½ a 100¾; 10-40's, coupon, 100¼ a 100¾; gold, 142⅞ a 143; June 7.30's, 104¾ a 105; July 7.30's, 104¾ a 105; December compounds, 1864, 118¾; May do., 1865, 117¼ a 117½; August do. do., 116½ a 116¾; September do. do., 115¾ a 116; October do. do., 115½ a 115¾.

The stock market was firm at the commencement of business, at a slight advance upon the closing prices of last evening, and there was an evident disposition on the part of the bull cliques to stimulate an advance in Erie, Reading and Northwestern for the purpose of selling. At the early session of the open board New York Central sold at 111½ a 111¾, Erie, 71½ a 71⅞; Reading, 97⅜; Michigan Southern, 79 a 79¼; Rock Island, 95¾; Northwestern, 47½ a 47¾; do. preferred, 65¾; Fort Wayne 97¾; Western Union Telegraph, 33¾; Pacific Mail, 145¼ a 145½.

At the first regular board the market was active but unsettled in tone, although there was no marked decline in any but the Milwaukee and St. Paul stocks and Mariposa preferred. New York Central closed ⅛ higher than at the same time yesterday; Erie ⅛, Reading ¾, Cleveland and Pittsburg ¾, Fort Wayne ⅜, Atlantic Mail ½, Quicksilver ⅛, Western Union Telegraph ⅛. Michigan Southern was ⅛ lower; Northwestern ⅛, do. preferred ⅜, Milwaukee and St. Paul 1⅛, do. preferred 1¾, Ohio and Mississippi certificates ⅛, Pacific Mail ⅛, Mariposa preferred 2. Government securities were steady and coupon five-twenties of 1862 closed ⅛ lower; new issue of 1867 ⅛. State stocks were dull.

At the open board at one o'clock the market was steady and New York Central sold at 110¾; Erie, 71⅛; Reading, 96¾; Michigan Southern, 78¾ a 78⅞; Cleveland and Pittsburg, 81⅛; Rock Island, 94¾ a 94⅞; Northwestern, 46¾; do. preferred, 65⅛ a 65¼; Fort Wayne, 97⅜; Western Union Telegraph, 33¼ a 33½. Subsequently the market improved, and the demand for Erie was stimulated by rumors concerning a proposed change in its management, circulated for speculative effect. At six o'clock it was steady at the subjoined quotations:—New York Central, 110¾ a 111; Erie, 71¼ a 71½; Hudson River, 125 a 126; Reading, 96½ a 96¾; Michigan Southern, 78 a 78¼; Cleveland and Pittsburg, 81 a 81¼; Rock Island, 95 a 95½; Fort Wayne, 97½ a 98; Northwestern, 47¼ a 47½; do. preferred, 65¼; Pacific Mail, 145¼ a 144¾; Ohio and Mississippi certificates, 29½ a 29¾; Western Union Telegraph, 33½ a 33¾.

The statement of the highest and lowest prices of the leading speculative stocks published yesterday was for the years 1865 and 1866, not for the month of October in those years, as printed. The highest and lowest prices in the month of October were as subjoined:—

	1865. Lowest.	1865. Highest.	1866. Lowest.	1866. Highest.

Mining shares were extremely dull. At the first board Edgehill Mining sold at $4 40; Quartz Hill (s 3) $1 35; Walkill Lead, 41c.; New York and El Dorado, $1 90.

The foreign exchange market was firm and rates advanced under a brisk demand for bills, stimulated by the decline in gold. Bankers' bills on England, at sixty days, were quoted at 108¾ a 109; at three days, 109¾ a 109¾; commercial bills, 108 a 108¼; bills on Paris, at sixty days, 5.20 a 5.17½; at three days, 5.16¼ a 5.16¼. Other bills were rated thus:—

A Montreal journal in referring to the failure of the Commercial Bank of Canada says that the bank had the largest capital of any in the province except the Bank of Montreal, having $4,000,000 paid up. According to the last account from the Audit Office its total assets were $9,068,821, against liabilities as follows:—

Deposits	$3,033,462
Circulation	1,226,439
Due other banks	225,343
Total	$4,585,244

The assets were:—

Coin, government securities and notes of and debts due by other banks	$1,507,222
Landed property	277,687
Notes discounted	6,783,129
Other debts	500,683
Total	$9,068,741

This is a large apparent surplus; but little more than a month ago a competent committee advised the cutting down of the nominal capital by forty per cent, so that these figures cannot be taken to represent any important facts. The report, however, may be taken to afford a fair guarantee for the stock being not wholly worthless, although it is of course known that the bank has suffered loss from the failure of Buchanan & Co. and otherwise since that report was made.

The Milwaukee and St. Paul Railway Company's earnings for the third week in October were:—

1866	$188 577
1867	258,000

At Chicago the money market is more active, and a journal of that city, of Tuesday, thus describes the local monetary situation:—

The week opens with a brisk and pressing demand for money, and in most bank parlors the market is working stringent. The calls from the country for currency were on a much larger scale than at any time within a week or ten days past. One house remitted $150,000 to-day to its country correspondents. The offerings of grain paper—time bills on cargoes and for speculation here—are on the increase, while the miscellaneous demand is steadily growing. The return flow of currency is quite moderate. The merchants are getting considerable in the way of collections, but very little is being received from the country banks. In the open market the demand is steadily improving. First class names are taken at 12 a 15 per cent, but others cannot be done for less than 20 a 24 per cent.

The offerings of New York funds were light, and as nearly all the banks were buyers, the market was decidedly firmer. Round lots sold at ⅛ a 1-10 discount—closing with more buyers than sellers at the outside figure.

The Chicago Clearing House statements of the past eight weeks compare as annexed:—

Certain shareholders in the British and American Bank have addressed a requisition to the directors in favor of winding up. The circumstance of a call of £5 per share being proposed is the cause of this movement; but the directors consider a dissolution would be inexpedient, because the business thus far has realized their expectations, and they are of opinion that if the call be met they will be able to do an extensive and remunerative business.

—The market for wheat opened dull and heavy, but with an improved demand holders became firmer in their views and realized an advance of 1c. and 2c. per bushel—the market closing firm at $2 20 for No. 2 and $2 26 for No. 1 spring.
