BOILER EXPLOSIONS.—ALMOST EVERY DAY THIS sad story is repeated, millions of property destroyed annually and thousands of lives sacrificed. Must this continue always? Is there no remedy? If so, why is it not applied? Who of us stands ready to assume the responsibility of those fearful risks you and I, in common with all our fellow citizens, are taking, while beneath the streets and alleys of our cities are submerged thousands of these terrible engines of death and destruction over which we walk every day and hour. Why has not the law interposed? What right have we to put in peril the lives and property of our neighbors? What excuse for such criminality, when there is a remedy, safe, sure and complete? How one who has felt the torture of fear and suspense for years, after a happy release, to ask you to assist him in removing these infernal machines (shell boilers) from among us, by substituting the newly improved "wrought iron sectional safety boiler," durable, economical, simple and safe, manufactured only by ABBNDROTH & ROOT Manufacturing Company, Greenpoint, L. I. "Fifteen hundred now in use." G.
