Stocks Comparatively Firm, but Dull.

GOLD 117 A 117 1-8.

Money on Call 2 and 3 Per Cent—The Specie Engagements—Bonds Steady.

WALL STREET, FRIDAY, June 2—6 P. M.

The stock market to-day was extremely dull and uninteresting, and was evidently left to take care of itself. This condition is doubtless due to an indisposition to enlarge contracts or engage in fresh speculation on the eve of a holiday. The principal acuvity was in Lake Shore, which opened at 58¾, advanced to 59 and declined to 57¾, from which there was an advance to 58¾. The stock closed at 58¾, for its use 1-64 was charged. Western Union was steady and strong at from 79½ to 79¾ a 79¾. The last sale was at 79¾. A more confident feeling was developed in Erie, of which it is said some of the German bankers are purchasers. The price advanced from 14¼ to 15¼ and closed at 14¾. Pacific Mail was firmly held at about 40¾, the extremes of the day being 39¾ a 40¾. Union Pacific opened at 76, advanced ½ and then declined to 74¾, the closing price. Northwest common sold at 38¾ a 39. Mariposa advanced to 13¾. Panama sold at 130½ a 130. At a meeting of the Board of Directors to-day the quarterly dividend of three per cent was declared, payable July 19. Five hundred dollars was contributed for the relief of the sufferers from the earthquake in Colombia and Venezuela. Ohio and Mississippi ranged from 22¾ to 22¾. C., C. and I. C. sold at 4; Wabash at 6½ a 5¾ a 5; New Jersey Central at 110¾; New York Central at 102¾; Rock Island at 103 a 103¾ a 103¾. St. Paul was strong at 33¾ a 34, on favorable reports concerning the crops along the line. Investment shares were firm and the offerings light. The Stock Exchange will adjourn from three P. M. to-morrow until seven A. M. Tuesday, July 6.

FRIDAY, July 2—6 P. M.

The merchandise markets have for the most part been extremely quiet during the past week, the absence of speculation being particularly noticeable. But in legitimate business a fair movement has been in progress in most of the leading commodities for this season of the year, when the markets are proverbially dull and trade higher than at almost any other time. The event of chiefest importance during the week was the revival of the export movement in breadstuffs, an unusually active demand having been developed for wheat for shipment to Great Britain and Continental Europe. Prices have experienced a rebound and advanced materially without checking the demand in any sensible degree. Though the sales have not been so large as they were at one time a few weeks back, yet the business has been heavy, the actual transactions on one day aggregating upward of half a million bushels, mostly for immediate delivery, but including some for all July. Corn was comparatively quiet during most of the week, yet a fair aggregate business was done, and the market is firmer at the close of the week than it was at the beginning. Oats have also ruled strong under a steady, fair inquiry. Whiskey has ruled quiet, but the market has nevertheless gained strength and prices are rather higher. Provisions have ruled quiet all through the week, and though prices have constantly fluctuated, the changes have not been important, and quotations are not essentially different from what they were a week ago. Trade in most commodities outside of Change has been quiet and business moderate. Iron, oils, groceries, &c., have moved slowly, while in dry goods, hardware, boots and shoes, &c., very little has been done. The active movement in grain has caused increased activity in freights, and grain charters and rates have materially advanced, while vessels for charter are held higher with almost every succeeding twenty-four hours. A large amount of tonnage has been taken up, consisting mostly of small foreign craft, which have almost superseded American vessels in the grain and petroleum carrying trade, because of the lighter expenses under which they are sailed. On Change to-day (Friday), business was fair in some commodities but small in most kinds. Flour was steady but quiet. Wheat was in moderate demand, and the market was scarcely so firm. Corn was a shade firmer under a fair demand, though prices were not quotably higher. Oats were in active demand, partly speculative, and prices were higher. Whiskey was higher. Pork and lard were quiet but firm. Freights were firm, and charters for the grain trade were made at higher figures. Cotton on the spot quiet and without change; futures firm. Petroleum firmer. Naval stores quiet but strong. Hides moderately active. Leather steady. Oils quiet. Hemp and jute quiet. Gunnies steady. Groceries firm.
