WALL STREET,
SATURDAY, June 3—6 P. M.

The "green, grassy turf" of Jerome Park offered metal more attractive to stockjobbers to-day than did the fetid atmosphere of the Exchange. There was more interest manifested in the stock of the stud book than in that of speculation, and the latter suffered accordingly. This was clearly shown after midday, when business stopped like an engine on its centre, and with no more go to it thenceforward than to a horse in a treadmill.

There was a fair activity at the opening, for brokers were ready for a further advance in Western Union, and there was an anxious feeling among the bears lest Lake Shore should follow suit. Nothing, however, very alarming occurred, for fluctuations in these two stocks were limited to ½ a ¾ per cent rise and an ultimate setting back to opening figures. It is conceded on all hands that the telegraph directors will declare a 1½ per cent dividend on Wednesday next and will also make a showing of some $200,000 increase in their business over the same time last year. Of course as little will be said as possible of the construction account and stockholders will be appeased by a lollipop division of cash on hand. Meantime Mr. Gould has become possessed of a considerable line of stock which can be treated as standing against his short account or be used to break the market by a cataract of cash sales. The price has been kept up to-day undeniably strong, but it fell off at the close to the early quotations.

There is one weak spot in the market which is decidedly depressing, and that is Lake Shore. The Osborn and Twenty-third street parties are thought to have closed up their short contracts, not that they fear to keep them out, but because the summer solstice is at hand, and yachting and ruralizing generally are not enjoyable when one eye has to be kept on the tape of the stock indicator. Three per cent was paid to-day to have the stock carried, which, with money offered at the same rate, was a proof that the speculation on the part of the leading bears was mostly abandoned. The precarious condition of the Commodore and the constant under-cutting in traffic rates are disheartening to holders and discouraging to buyers, and, consequently, the stock refuses to respond to the better feeling existing in the rest of the market.

The Western stocks being, to a great degree, free from the antagonism of competing roads, are showing better results from their increased grain freights, and these are reflected in the strong, advancing market for these shares at the Stock Exchange.

The anthracite securities are looking up again after their modest retirement of a few days past, apparently tired of blushing unseen, like the coal black Rose in the ditty. Hence Delaware and Lackawanna started up from 107 to 109, although it lost half of the advance before the board closed.

The cessation of mining operations for the months of June and July will enable the combination to work off part of their surplus production at the cost of unreckoned distress to the thousands of miners thrown out of employment.

As we have noted business was confined to opening hours, the great operators voting to make it "half a day" by disappearing to the races, while the rag-tag and bobtail contingent, having by necessity no vote in the matter, remained behind and solaced themselves with mustangs of brandy or of some baser fluid.

GOVERNMENT BONDS.

The demand in this department is apparently steadily increasing and prices are higher. The safety of the investment, coupled with the ease of money and the difficulty of finding profitable use for the latter in the doubtful avenues of ordinary street speculation, are naturally directing renewed attention to a class of securities that are equal to "the best under the sun." The bonds closed strong at the following quotations:—United States currency sixes, 124¼ a 124¾; do. sixes, 1881, registered, 119 a 119¼; do. do., do., coupon, 122¾ a 123; do. do., 1865, registered, 115¼ a 115¾; do. do., do., coupon, 115¼ a 115¾; do. do., do., new, registered, 116¼ a 116¾; do. do., do., do., coupon, 119¼ a 119¾; do. do., 1867, registered, 118¾ a 118¼; do. do., do., coupon, 121¾ a 121⅞; do. do., 1868, registered, 120¼ a 120¾; do. do., do., coupon, 123¼ a 124; do. ten-forties, registered, 117¾ a 118¼; do. do., coupon, 118¾ a 118¾; do. fives, 1881, registered, 117¾ a 117¾; do. do., do., coupon, 117¾ a 117¾.
