THE JOHN D. BILLINGS PATENT MACHINE ROLLED HORSE SHOE WITH CONTINUOUS CALK IS THE ONLY COMPLETELY FINISHED AND PERFECT SHOE IN THE WORLD. It places the horse upon a natural, evenly bearing surface all around the wall of the hoof. It has a springing quality that makes it the most healthful shoe worn. Its construction gives to the horse wearing it the firmest possible position upon the ground. It will pay for itself many times over in saving horses' feet.

The following are some of the opinions—voluntarily expressed—of veterinary surgeons and intelligent gentlemen of great experience with horses, who have thoroughly tested the Shoe:—
"You have struck the right principle." "It is the best shoe I have ever seen." "For a railroad shoe, that is the best in the world." "If that Shoe comes into general use it will injure my business very much." "That Shoe will help flat footed horses if the sole is not pared too thin." "My horse speaks in high praise of that Shoe for he travels with greater ease and confidence than I have ever known him to do before, and does not slacken up at a slippery block of pavement as he always has before." "I am more than pleased with the Shoe. In my opinion it is the best shoe ever worn by a horse since the flood." "My blacksmith says he can shoe two horses with this Shoe in the time it takes him to shoe one with the old style."

Arrangements have been made with the following well known and old established shops in New York city where the shoes are put on by the most experienced horse shoers:—
David Roberge, 153 West 30th st.
Atchison & Hamill, 64 East Houston st. and 416 East 14th st.
Murray & Sadlier, 207 East 23d st.
