VICTORY NOTES IN FURTHER DECLINES

Liquidation of $5,000,000 Worth Brings Another New Low.

LIBERTYS HOLD VALUES

Foreign Bonds Also Heavy in Active Market—Corporations Irregular.

The liquidation of Victory notes, which caused them to decline to new lows in their history, was the feature of the market for government war issues yesterday. More than $5,000,000 of these notes were thrown upon the market. The 4¾ per cent series declined to 98.06 and the 3¾ per cent series to 98.08.

The liquidation of the Victory notes is attributed to the fact that these securities were the only ones in the entire bond group, excepting the tax exempt 3½ per cent Liberty bonds, to hold their values through the break last December. It is understood that loans secured by the Victory notes are being called in some cases on maturity while in others the high interest rate exacted is forcing holders to sell.

The tone of foreign bonds also was heavy. The market in them was active. Anglo-French 5's and United Kingdom 5½'s were under more pressure than other issues.

Corporation bonds were more active than they have been recently, but not at the expense of values. Some irregularity prevailed in railroad issues, but industrials were inclined to advance. A strong issue was the United States Rubber 5 per cent bond. Traction bonds were dull within narrow price ranges.

Sales of railroad, government and miscellaneous bonds yesterday amounted to $18,086,000, as against $11,994,000 on Wednesday and $12,250,000 on Tuesday. Following are the stles in $1,000 (prices are "and interest"):

YIELD OF LIBERTY BONDS.

Approximate investment yield of Liberty bonds at the close of the Stock Exchange yesterday is published below. The issues are arranged according to the yield:—

Series.	Last Sale.	Yield.
Third 4¼'s	93.32	5.26
Fifth 4¾'s	98.06	5.22
Fourth 4¼'s	91.06	4.96
Second 4¼'s	90.64	4.89
First 4¼'s	91.66	4.79
Second 4's	90.46	4.66
First 4's	91.54	4.53
Fifth 3¾'s	98.14	4.21
First 3½'s	98.80	3.54

Sales of Liberty bonds on the Exchange carry interest to the date of sale. The seller receives that interest in addition to the sale price of the bond.

LADY partner with $2,000-$5,000; grandest opportunity; refined profession; tremendous profits. Call or write ROHRER, 110 West 42d.

TRADING ON CURB HIGHLY IRREGULAR

Independent Oil Shares Develop Further Weakness—Some Hit New Lows.

ACTIVE BUYING IN MOTORS

Mining Quotations Fairly Well Maintained—Foreign Bonds Irregular in Trend.

Trading on the Curb yesterday was in restricted volume and the tone became highly irregular as a result of further weakness in the independent oil shares. Quotations in a few instances declined to new low figures, while others dropped to the lowest figures touched on in the recent slump. Recessions of two points or more were recorded in Houston Oil and Simms Petroleum.

There were a few issues that recovered a strong tone after an early display of weakness, as shown in Gilliland Oil and Carib Syndicate. General Asphalt ranged from 116½ to 114¾ and rallied to 115½ in the final dealings. In the lower priced issues, Mexico Oil sold from 3¼ to 2¾, and Home Oil continued in supply around the low figures reached on the late decline.

Most attention in the industrial division was devoted to the motor shares, in which some active buying appeared at times, in sympathy with the improvement that occurred in the stocks of that class traded in on the Stock Exchange. General Motors, new, sold from 31½ to 32½, and Cleveland Motors, new, made a gain of 1½ points in the first hour, selling to 72.

With the exception of the weakness that was in evidence in the Divide and Belcher stocks, quotations in the mining section were fairly well maintained at recently current levels. Rand Mines ranged from 40½ to 41.

Several of the bond issues reported unusually wide movements. Big Four 6 per cents, after opening at 86¼, declined to 85½ and then lifted to 87¼. Belgian Government new 6's were slightly lower and both external issues of Russian Government receded two points from the opening quotations.
