Pneumatic Tire Business.

How many people realize the sensational development that the pneumatic tire business has experienced? The first company to undertake the manufacture of pneumatic tires, says the *Scientific American*, was the Dunlop Company, organized in Dublin, Ireland, in 1889, with a capital of about $75,000, to make tires for bicycles, and it rapidly grew to be a great business. Then came the automobile to add its demands, and today, only twenty-seven years later, the pneumatic tire business of the world is estimated at the enormous sum of $650,000,000.

To-day's Angling Promising.

Capt. Jake Martin of the Evelyn of Sheepshead Bay believes that the angling conditions for to-day are promising for sea bass and porgies at buoy No. 4, Long Beach.

"Whenever you find mixed schools of sea bass and porgies at this time of the year, with weather conditions as they are at present, good fishing may last for a fortnight. Still, you never can tell. Conditions change so rapidly. To-day it seemed like old times at buoy No. 4. We had another day like it on Thursday. The sea bass weighed up to five pounds, and the porgies ranged from two to three and a half pounds."

High hooks yesterday follow: P. J. Hanahan, 352 Hicks street, Brooklyn, 23, J. H. Edwards, Consolidated Stock Exchange, 23, and Joseph Newstadt, 1297 Bushwick avenue, Brooklyn, 22 sea bass.

Martin Flood of 200 Wilson street, Brooklyn, won the pool with a five pound sea bass. Mr. Flood had nineteen other fish in his catch.

Croakers at Great Kills.

"All the fishermen coming into Great Kills," said Mrs. Ellen Barth of that place last night, "are bringing in croakers. The high catch to-day was 240. Dr. Lockwood of New York captured seventy in his boat. Yesterday Capt. Giffert returned with an even hundred fish. The croakers are biting on any tide. Shedder crab and bloodworms are the best bait."

Sharks Interfere with Weakfishing.

L. De Coninck of the Raunt, Jamaica Bay, said last night that weakfish, in catches ranging from ten to fifteen, had been taken yesterday at the Black Wall and Valentine's Point. Sharks have entered Jamaica Bay and have hurt the weakfishing somewhat.

Weakfish Taking Shedder Crab.

Weakfish are taking shedder crabs, according to Charles Noehren of Goose Creek, Jamaica Bay. Heretofore most weakfish have been taken on shrimp and bloodworm bait.

"All this week," said Mr. Noehren last night, "school weakfish and tide runners have been taken, the fish ranging in weight from one half a half pounds up. Good places are Big Pol, the Bend, Black Wall and the Pumpkin Patch.

"Sharks entered Big Pol and the Pumpkin Patch channels yesterday and weakfishing was not so good after that. So far no sharks have been observed in Goose Creek. Last night a party left here on a shark fishing trip and got two. One of them was six feet in length."

Outside Angling Conditions.

In the outside waters this week sea bass and porgy schools have been numerous in the waters off Seabright and the grounds known as down east buoy No. 4 and off Long Beach.

In Ambrose Channel fluke have been numerous, but anglers have met with the difficulty of adverse winds and strong tides.

Rain interfered with anglers early in the week, but those who fished in the rain made catches. The clearing weather at the end of the week brought out anglers in numbers. Angling conditions for to-day are favorable.
