REVENUES OF CITY SHOW BIG INCREASE

Comptroller Prendergast Reports Millions More Received Than in 1915.

Comptroller Prendergast issued his semi-annual financial report yesterday. It weighs two pounds and is full of figures. Some of the longest figures in the volume are the following:

The city's total revenue receipts for the first six months of this year were $155,576,753, as compared with $122,481,456 for the first six months of last year. The greatest increase was in the amount of taxes collected, which aggregated $110,475,722, or $13,254,942 more than was collected in the same period in 1915. Another increase was $2,045,233 in the amount of assessments collected. Water rates yielded $600,000 more.

The expenses of city government were $78,855,721, as compared with $77,426,196 for the first six months of 1915.

Outlays on public improvements were $27,287,160. In the same period in 1915 they were $25,593,435.

For interest in the city debt there was paid $21,284,208, slightly less than the $21,397,465 paid last year.

The debt limit is $55,104,835 from being reached. Of this $12,313,181 is reserved for dock, port and terminal improvements, and $22,367,878 for various municipal purposes to which the city is in part committed, leaving an unreserved margin of $18,052,950.

INDICTED ON GIRL'S STORY.

"David Siberia" Held as Slaver—Jurors Give Young Mother $50.

The story of a twenty-two-year-old girl who told of being forced into slavery for five years and then turned out on the street just before the birth of a child led to the indictment yesterday by the Grand Jury of David Parish, alias "David Siberia," of 205 East Twenty-second street for white slavery. So affected by the girl's story was John J. Dillon, foreman of the jury, that he called upon all the members of the body for contributions and a purse of $50 was quickly made up for her.

When the girl, Ida Cohen, a Russian Jewess, at last rebelled and was cast out a few weeks ago she sought refuge in Bellevue Hospital, where a child was born. Yesterday a member of the Florence Crittenton Home appeared before the jury and said the home would be responsible for the girl's care. Parish will be arraigned in General Sessions to-day, along with John Makis, known as John Laredo, a waiter, indicted on a charge of directing restaurant patrons to places where they might meet women.

Streamer Estate to Actors' Fund.

Volney Streamer, who died April 4, bequeathed his books, papers, pamphlets and pictures relating to the drama to the Players Club, and his residuary estate of about $1,000 to the Actors' Fund Home at New Brighton. The will was filed yesterday.

LONDON MARKET.

LONDON, Aug. 22.—Several transactions were made to-day in the gilt edge section, indicating that much money was still available for investment. Russian, Colonial and Japanese securities received good support. Mexicans were a shade easier, while Kaffirs advanced on good South African buying. In the American department the bright spots were United States Steel and Reading, the latter leading. The closing tone was steady. Money in rather better supply. Discount rates steady.

Consols for money closed at 53¾; new 4½ per cent. war loan, at 86½. Money, 4¾ per cent. Discount rates, short and three months bills, 5¾@5⅞ per cent. Gold premiums at Lisbon, 68.

COTTON MARKET.

A further advance met increased offerings to the cotton market yesterday, and after selling at 14.93, December contracts eased off to 14.77. Uncertainty as to weather conditions caused a final flurry of covering, with December closing at 14.83 and the general list steady at a net advance of 1 to 7 points. Business was active on the early advance, which carried prices more than $2.50 a bale above the closing figures of Saturday, but they tapered off later in the day and fluctuations were irregular enough to suggest rather an unsettled sentiment around the ring.

Firmness in Liverpool encouraged a renewal of the buying movement here and first prices were 4 to 17 points higher, with all active months making new high records. Realizing was active and some scattered selling was probably promoted by an idea that the cooler weather indicated for Oklahoma might be accompanied by beneficial showers. There was no definite promise of rain in the official forecast and the market turned firmer during the middle of the day on a private crop report making the condition only 65 per cent. and reports that another tropical storm was moving northwestward from the Bahamas. This rally carried prices back to about the early high point, but offerings again increased above 14.90 for December, and the market sold back to about Monday's closing figures.

Private reports of showers at some points in the Southwest contributed to the reaction, but with the trade uncertain on the weather early sellers showed a disposition to cover before the close.

The private condition report was accompanied by a bullish statement on the situation in both Eastern and Western belt sections, adding that present prospects hardly indicated a crop in excess of last year's. Some rather more favorable crop advices were received from Eastern belt sections, and it was thought that good rains west of the river would create a more optimistic view of the crop outlook in parts of Texas and Oklahoma. But the action of the market was supposed to reflect the expectation of bullish crop figures from the Government at the end of the month. Meanwhile bulls are showing a disposition to lay increased emphasis upon the activity of domestic trade and the small stocks of cotton available abroad. The advancing tendency reported in ocean freight rates is supposed to reflect the demand for early new crop shipments. The rate from New York to Liverpool is now quoted at $1.75, an advance of about 50 cents from the last business. Exports were only 1,850 bales, but the export movement so far this season has been more than double last year's.

GRAIN MARKET.

The wheat market was active, with wide price changes. At the outset, on pronounced strength abroad and continued reports of large foreign requirements, values showed gains of ½ to 1½c., which carried the market to further new high levels. On the advance, however, heavy selling to realize profits resulted, and as prices declined stop-loss orders were uncovered. At the extreme low point prices were 1¾c. below the high point of the morning, but during the last hour there was a sharp rally, and final quotations were only ⅝ to 1⅜c. net lower.

The selling movement was believed to be due largely to technical conditions arising from the recent activity on the buying side, although reports that Rumania was on the verge of joining the Allies may have had something to do with the action of sellers as it was thought possible that Turkey might be forced to surrender, thus opening the Dardanelles and liberating the wheat which has been bottled up in Russia for the last two years. Large wheat operators were on the selling side.

The decline enabled exporters to fill orders which have been on hand for some time and the late rally was due largely to reports that about 2,250,000 bushels had been sold to Europe. The British and Dutch Governments were said to be in the market and there were also good sales to the Belgium Relief Commission, besides scattered lots.

In the local cash market No. 1 durum was quoted at $1.63; No. 2 hard, $1.67½; No. 2 northern Duluth, $1.79, and No. 1 northern Manitoba, $1.72½, f. o. b. New York.

CORN—Prices declined 1¼ to 1⅞c. early under active selling prompted by the action of wheat and also by reports that farmers were more inclined to sell old corn. When wheat rallied there was active covering and the market was steadier late, closing with net losses of ⅛ to ⅜c. Local cash market easier. No. 2 yellow quoted at 98½c., c. i. f. New York.

OATS—The market was influenced largely by the action of wheat and corn and after moving within a range of about ½c. prices closed at net losses of ¼@⅜c. Receipts were again heavy at interior points and *Broadstreet's* visible increased 2,177,000 bushels for the week. Local cash market quiet. No. 2 white quoted at 57½c. No. 3 white, 51@51½c.; fancy clipped white, 54@54½c.; ordinary clipped white, 51½@52½c.; all elevator.
