Benjamin Franklin says:
"Would you live with ease, do what you ought."

A MAN will live with ease and die in peace if he is sure that he leaves enough for his family's comfort—but only if he is sure that they will receive the full benefits of his provision for them.

Investment Questions and Answers

This column appears each Monday, Thursday and Saturday.

Readers may ask as many questions as they like about investment subjects, but please do not ask about a half dozen companies in one letter, as it adds unnecessarily to the clerical work of this office. Do not send money. This service is free. Be sure to give your address as well as your name, because most inquiries are answered by mail. All correspondence is held as confidential.

Address all communications to Financial Editor, THE SUN, 50 Broad street New York city.

Ann Arbor 4s.

W. E. C., Bridgeport, Conn.—What do you think of the Ann Arbor first mortgage 4s as an investment and speculation combined?

Ann Arbor Railroad first mortgage 4 per cent. bonds due in 1995 are secured as a first mortgage on all of the property of the company now owned or hereafter required and they are prior in lien to $1,500,000 Ann Arbor improvement and extension 5s due in 1941, which are deposited to secure $750,000 of 6 per cent. three year notes due in 1919. The bonds are outstanding at the rate of $23,973 a mile, which is rather heavy for a road of Ann Arbor's description. In addition to this, earnings, though quite steady, have shown only a comparatively small margin over interest requirements for a number of years, and on this present basis the bonds would hardly be entitled to more than a fair rating as an investment. At current market prices the yield is about 6½ per cent. As a speculation these bonds have a little more attraction, for with a continuation of the improvement shown in earnings last fiscal year and the current year to date it is conceivable that they will advance to a somewhat higher price level. Prior to 1913 and for five years they ranged between 83½ and 87¾. In 1907 they sold as high as 91, and in 1906 at 99. Their low in the last ten years was 55, in 1915, since when they have recovered to 65¾.

Par Value of Oil Shares.

O. H. G., Melrose, Mass.—Will you kindly tell me the par values of the following stocks? Crescent Pipe Line, Ohio Oil, Pierce Oil Corporation, Solar Refining Company, International Petroleum Oil Ltd.

The par value a share of the stocks mentioned above in their order as stated is as follows: $50, $25, $25, $100, $1.

Chicago and Eastern Illinois 5s.

S. L. C., Patchogue, L. I.—I hold some of the Chicago and Eastern Illinois first con 5s and naturally I am interested in what progress is making with regard to the reorganization of the road. I haven't heard anything in several months now. What provisions are likely to be made for these bonds? Just how valuable is the property on which they are secured?

Interests engaged in the reorganization of the Chicago and Eastern Illinois are reported to be making slow but steady progress, and a plan of reorganization may be worked out and submitted within the next six months. Meanwhile the company is continuing to make a good showing in earnings. As to what provisions are likely to be made for the first lien coal 5 per cent. bonds cannot be said at this time. These bonds are a first lien on 41,000 acres of bituminous coal lands in Illinois and Indiana, which are estimated to contain about 358,000,000 tons of coal. The bonds have no lien on any other property of the railroad company.

$100 Bonds.

W. S., Englewood, N. J.—Will you kindly give me the names of a few good grade railroad investment bonds in the denomination of $100 yielding more than 4½ per cent.?

Erie Railroad general convertible 4s series "D," due 1953; Norfolk and Western first con. 4s, due 1996; Chicago, Milwaukee and St. Paul convertible 5s, due 2014; New York Central 6 per cent. convertible debentures, due 1935. These bonds yield between 4.60 per cent. and 4.85 per cent.

Union-Southern Pacific.

E. T. W., Bridgehampton, L. I.—Which has the greater traffic density, Union Pacific or Southern Pacific?

Union Pacific's freight traffic density for the year ended June 30, 1915, was 771,007, as against Southern Pacific's 628,894 in the same year. Union Pacific's passenger traffic density in 1915 was 107,219, as against Southern Pacific's 141,574.

Buffalo, Rochester and Pittsburg.

B. C. C., Brooklyn.—Was Buffalo, Rochester and Pittsburg Railway ever in the hands of receivers?

The Buffalo, Rochester and Pittsburg Railway, since its incorporation in 1887, has not been in receivership, but the Rochester and Pittsburg Railway, which was succeeded by the Buffalo, Rochester and Pittsburg and the Pittsburg and State Line Railroad, which together make up the principal divisions of the present Buffalo, Rochester and Pittsburg system, was sold under foreclosure in 1885.

St. Paul, Minneapolis and Manitoba.

T. D. M., Portland, Me.—Are the St. Paul, Minneapolis and Manitoba Railway Montana extension first mortgage gold 4s of 1937 subject to any prior liens, and to what issues, if any, are these same bonds prior in lien?

The Montana Extension 4s of 1937 are subject to $10,000,000 Montana Central 5s and 6s of 1937 and prior in lien to $6,000,000 St. Paul, Minneapolis and Manitoba Pacific extension 4s and to the Great Northern first and refunding 4¼s of 1961, which provide for the retirement of the issue.

Railroad Securities Company.

T. E. D., New York.—What do you think of the Railroad Securities Company 4 per cent. Illinois Central stock interest certificates as an investment? Is any of the stock of the Securities company owned by the Illinois Central?

In view of the fact that the interest on these certificates is contingent upon the amount of dividends paid on Illinois Central common stock pledged under the certificates, they must be classed with the speculative issues, although dividends of at least 4 per cent. have been paid on Illinois Central stock since 1863. The capital stock of the Securities company, excepting directors' qualifying shares, is owned by the Union Pacific Railway.

Laurentide Power Company, Ltd.

First Mortgage 5% Sinking Fund Gold Bonds
(CLOSED MORTGAGE)

Dated January 1, 1916 Due January 1, 1946

Interest payable January 1 and July 1 at Bankers Trust Company, New York, and The Royal Trust Company, Trustee, Montreal. Coupon Bonds of $1,000 denomination, registerable as to principal. Callable as a whole after January 1, 1920, on three months' notice at 105 and interest. Sinking Fund: 1% per annum of bonds issued, first payment January 1, 1920.

Laurentide Power Company, Ltd., owns a modern hydro-electric plant with an installed capacity of 125,000 horsepower at Grand'Mere on the St. Maurice River, Province of Quebec. Power is sold to The Laurentide Company, Ltd., and to Shawinigan Water & Power Company which, through its extensive transmission system, serves Montreal, Quebec and the other large industrial centers in the adjacent territory.

We summarize as follows from a letter of Mr. J. E. Aldred, President of the Company:

1 **First (closed) mortgage on a modern hydro-electric plant with installed capacity of 125,000 hors power.**

2 **Bonded debt of $60 per horsepower is less than any similar hydro-electric development.**

3 **Sinking fund provides for redemption of approximately half of entire issue before maturity.**

4 **Fifty-year contracts (pledged under the mortgage) with Shawinigan Water & Power Company and The Laurentide Company, Ltd. (one of the largest and most successful paper manufacturing companies in the world), provide for the sale of 75,000 horsepower.**

5 **The net income assured from the above contracts will be nearly twice the interest charges on the entire bond issue, without considering revenue to be derived from sale of the 50,000 additional horsepower under option.**

6 **Strength of the two contracting Companies is evidenced by the market value of their capital stocks, which exceeds $35,000,000.**

7 **Power is distributed over the transmission system of Shawinigan Water & Power Company, embracing over 700 miles of lines extending west to Montreal and east to Quebec, and also serving a prosperous intervening territory, from which there is a constantly increasing and unusually diversified demand for electric power.**

8 **Shawinigan Water & Power Company operates the plant, thus giving Laurentide Power Company, Ltd., the advantage of an experienced organization.**

Copy of Stone & Webster's report upon the above property may be seen at our offices

Over two-thirds of the above bonds having been sold or withdrawn, we offer the balance subject to sale or change in price, at
